The architectural design was intended to harmonize with the natural surroundings, showcasing lush gardens and open spaces. Over the decades, the hotel’s structure evolved in response to changing tastes and technological advancements, yet it retained its distinctive character. The building’s layout, materials, and decorative features tell a story of the region’s development and the rise of Hollywood glamour.

Origins and Initial Design

The original design of the Beverly Hills Hotel was commissioned by Margaret J. Anderson, who sought a retreat that embodied elegance and comfort. The

initial structure was a two-story building with a Spanish Colonial Revival style influence, notable for its stucco walls, red-tiled roofs, and expansive verandas. The layout emphasized airy, open spaces to take advantage of the Southern California climate. This architectural approach set the foundation for the hotel's reputation as a luxurious getaway for celebrities and travelers during the Roaring Twenties.

Evolution Through the Decades

Throughout the 1920s and 1930s, the hotel underwent several expansions and enhancements. These changes incorporated elements of Mediterranean Revival and mid-century modern styles, reflecting broader architectural trends. Many were designed on the European plan for families to live without full service kitchens. Meals were prepared and served in restaurant-type dining rooms catering exclusively to residents and their families. The apartment hotels employed full-time service staffs who prepared and served daily room service meals. The first apartment hotels were built between 1880 and 1895. They were followed by a second wave of construction after the passage of the 1899 building code and the 1901 Tenement House Law. The third wave of apartment hotel construction occurred during the 1920s and ended with the Great Depression of the thirties. The passage of the Multiple Dwelling Act of 1929 altered height and bulk restrictions and permitted high-rise apartment buildings for the first time.

beverly hills hotel architect: **Paul R. Williams, Architect** Karen E. Hudson, Paul R. Williams, 1993 One of the most important Los Angeles architects, Paul R. Williams' prolific career extended from the 1920s to the 1970s. His vast body of built work stretches across the world from Paris and Colombia to Washington, D.C., New York, and Memphis. However, the Los Angeles area was his personal and professional focus. Overcoming incredible prejudice in an all-white field, Williams became the first African American admitted to the A.I.A and designed over 3,000 projects, including the Jetsons-like theme building at Los Angeles International Airport, Saks Fifth Avenue and W. & J. Sloane's department stores in Beverly Hills, the famous Beverly Hills and Ambassador hotels, and renowned celebrity haunts, such as Chasen's and Perino's restaurants. He also designed mansions for Frank Sinatra, Lucille Ball and Desi Arnaz, Tyrone Power, William Bojangles Robinson, Lon Chaney, and other entertainers. While Williams had extraordinary facility with the historical styles popular in southern California at the time, he was equally adept at modern design, as seen in his work for Fisk and Howard universities, Saint Jude Hospital in Memphis, and several banks, churches, and country clubs. Karen E. Hudson, a third-generation Angeleno, is the granddaughter of Paul R. Williams and director of his archives. She chronicles the African-American experience in Los Angeles in writings and photographs. David Gebhard, the renowned historian, was a professor of architectural history and Curator of the Architectural Drawing Collection of the Art Museum at the University of Santa Barbara. Call-out: The first architectural monograph of Williams' extraordinary and inspiring achievements.

beverly hills hotel architect: *Sitting Pretty* Clifton Webb, 2011-05-17 More than any other male movie star, the refined Clifton Webb (1889-1966) caused the moviegoing public to change its image of a leading man. In a day when leading men were supposed to be strong, virile, and brave, Clifton Webb projected an image of flip, acerbic arrogance. He was able to play everything from a decadent columnist (Laura) to a fertile father (Cheaper by the Dozen and The Remarkable Mr.

Pennypacker), delivering lines in an urbanely clipped, acidly dry manner with impeccable timing. Long before his film career began, Webb was a child actor and later a suavely effete song-and-dance man in numerous Broadway musicals and revues. The turning point in his career came in 1941 when his good friend Noël Coward cast him in *Blithe Spirit*. Director Otto Preminger saw Webb's performance and cast him in *Laura* in 1944. Webb began to write his autobiography, but he said that he eventually had gotten "bogged down" in the process. However, he did complete six chapters and left a hefty collection of notes that he intended to use in the proposed book. His writing is as witty and sophisticated as his onscreen persona. Those six chapters, information and voluminous notes, and personal research by coauthor David L. Smith provide an intimate view of an amazingly talented man's life and times.

beverly hills hotel architect: A Dark, a Light, a Bright Alexa Griffith Winton, Susan Brown, 2023-01-01 The first major publication devoted to weaver and designer Dorothy Liebes, reinstating her as one of the most influential American designers of the twentieth century At the time of her death, Dorothy Liebes (1897-1972) was called the greatest modern weaver and the mother of the twentieth-century palette. As a weaver, she developed a distinctive combination of unusual materials, lavish textures, and brilliant colors that came to be known as the Liebes Look. Yet despite her prolific career and recognition during her lifetime, Liebes is today considerably less well known than the men with whom she often collaborated, including Frank Lloyd Wright, Henry Dreyfuss, and Edward Durrell Stone. Her legacy also suffered due to the inability of the black-and-white photography of the period to represent her richly colored and textured works. Extensively researched and illustrated with full-color, accurate reproductions, this important publication examines Liebes's widespread impact on twentieth-century design. Essays explore major milestones of her career, including her close collaborations with major interior designers and architects to create custom textiles, the innovative and experimental design studio where she explored new and unusual materials, her use of fabrics to enhance interior lighting, and her collaborations with fashion designers, including Clare Potter and Bonnie Cashin. Ultimately, this book reinstates Liebes at the pinnacle of modern textile design alongside such recognized figures as Anni Albers and Florence Knoll.
