The conference, originally known as the Western Conference, began organizing golf tournaments to foster athletic competition among member schools. The first official Big Ten Golf Championship was held in the 1930s, marking the beginning of a tradition that would continue for decades.

In its early years, the championship was a relatively modest event, featuring a small number of teams and a straightforward stroke-play format. Member schools such as Michigan, Northwestern, and Minnesota quickly emerged as dominant forces, setting the stage for intense rivalries and competitive excellence. big ten golf championship history: *Being Lucky* Herman B Wells, 2012-04-25 The

autobiography of the legendary Indiana University president, as he originally intended. Painstakingly restored from original archival materials and featuring over a dozen fascinating vignettes and talks that were cut from the original edition, *Being Lucky: Reminiscences and Reflections, The Complete Edition* is a must read for Hoosiers everywhere. In this absorbing autobiography, Herman B. Wells recalls his small-town childhood, the strong influence of his parents, and his pioneering work with Indiana banks during the Great Depression. His first contact with Indiana University was as an undergraduate in 1921, when the still provincial school had fewer than three thousand students. At the end of his twenty-five-year tenure as president in 1962, IU had gained an international reputation and a student body that would soon exceed 30,000. Wells' reflections on his years as university president are both lighthearted and illuminating. They describe in candied detail how he approached the job, his observations on effective administration, his thoughts on academic freedom and tenure, his approach to student and alumni relations, and his views on the role of the university as a cultural center. Also included are his fifty maxims for young college presidents. Finally Wells discusses the national and international service that helped shape his presidency and the university. *Being Lucky* is a nourishing brew of the memories, advice, wit, and wisdom of a remarkable man. "Much more than the title might suggest [this is] a heart-warming account of a young boy and his parents determined that a son should have a college education, a classic and detailed account of his widening involvement with every aspect of higher education, and a stirring story of a wise administrator. [Wells's] life is an astonishing success story. . . . He was not just lucky, he was careful and courageous." —*Journal of Higher Education* "Being Lucky is as entertaining as it is informative. Wells' biographer, James H. Capshaw, called it "a manual of higher education management." . . . Reading Wells' fascinating autobiography shows why it is no wonder that Indiana University is so proud of the great man and honors his accomplishments." —*Louisville Courier Journal* "An honest report by a most successful educator [and] a tribute to a great university and to a man with foresight who also had the courage to act on his convictions." —*The Fort Wayne Journal-Gazette* "Wells's humor, wit, and humanity pervade every chapter." —*Indiana Magazine of History*

big ten golf championship history: Why Indiana is the Center of the Basketball World

Michael G. Ludlow, 2014-01-23 Basketball is now the second most popular sport world-wide trailing only futbol (soccer) in the number of participants, fans, and leagues. Its popularity is due to the fact that the game of basketball requires the most number of physical skills making basketball players the most complete athletes. The speed, grace and teamwork required to play the game combined with the athleticism required makes it beautiful to watch and fun to play. The United States has always been and always will be the greatest basketball nation. Although the rest of the world has been catching up with us (note the increasing number of international players in the NBA from all parts of the world) we invented it (thank you Dr. Naismith); we perfected it (thank you Coach Wooden, Bill Russell, Larry, Magic, Michael, Lebron, etc.); and we still have the highest concentration of excellence at all levels - high school, college and professional. Indiana has long been known to be basketball crazy. The image of a basketball goal on every garage, barn or any other place you can put one (including the governor's residence) is based, as most legends are, on a ring of truth. Indiana has always been basketball crazy. Decades before "March Madness" became a national trademark, Hoosier Hysteria rippled through the entire state at tourney time. Other states can claim they are the "best" basketball state. Certainly North Carolina does and cases can be made for Kentucky, New York and California. This study provides overwhelming statistical evidence and so much anecdotal support that it is undeniable that Indiana IS the center of the basketball world.
