biggest heroes in history: The Greatest Nobodies of History Adrian Bliss, 2024-10-22 “All at once funny, touching, dazzlingly informative and fascinating, brilliantly imaginative and altogether wonderful. Capable of switching between divine silliness and genuinely tender sweetness, tragedy, and wonder.”—STEPHEN FRY History belongs to the heroes. But to get the full story, sometimes you have to ask the side characters. The lives of Leonardo da Vinci, Henry VIII, and Queen Victoria fill bookshelves and fascinate scholars all over the world. But little attention is given to the ferret who posed for the Renaissance master, the servant who oversaw the Tudor’s toilet time, or the famous horse who thrilled the miserable old monarch. These supporting cast members have been waiting in the wings for too long, and Adrian Bliss thinks it’s high time they join their glory-hogging contemporaries in the spotlight. Fortunately—thanks to some recently discovered ancient complaint letters, court transcripts, and memoirs in bottles—now they can. Equal parts fascinating and hilarious, *The Greatest Nobodies of History* is a surreal love letter to life’s forgotten heroes, featuring hitherto undocumented accounts from Ancient Greece to the front lines of the Great Emu War. All that follows really happened, and some of it could even be true.

biggest heroes in history: The Portuguese Revolution of 1974. Were Colonial Wars the biggest factor? Jack Griffiths, 2019-10-02 Seminar paper from the year 2019 in the subject History of Europe - European Postwar Period, grade: A*, University of Worcester, language: English, abstract: This paper assesses the different viewpoints on what caused the Carnation Revolution in 1974. Palmowski argues that it was the economic backwardness of the country which caused discontent among the working and middle-classes. Christopher Reed, on the other hand, argues that the brutal methods of torture and appalling treatment of prisoners and suspected criminals by the secret police - International and State Defence Police (PIDE) is to blame. This view is supported by historians such as Thomas C. Bruneau and Steven C. Boraz who argue that in a truly democratic society, the tensions arising from intelligence can never be resolved. Another alternative view which suggests that the growing international tensions in the context of the 1960's and 1970's may have contributed to the overthrow of Marcello Caetano on the 25th April 1974. The cold war showed no sign of slowing down and both the western and eastern countries were attempting to expand their spheres of influence. Portugal, due to its isolationist stance that it had taken since Antonio Salazar had taken full control of the country in 1932, was a victim to its sphere of influence being hindered by both the Soviets and the U.S.A. For the historian R. H Chilcote, however, it is clear that the overall factor that had the biggest impact on causing the Carnation revolution of 1974 was the Colonial wars in the overseas provinces of Portugal, the first of which started in Angola in February 1963 with Maria's war.

biggest heroes in history: Essays Henry A. Buchanan, 2012-02-17 Essays is Doctor Buchanan's thoughts on just about everything. Here he tells the reader what he knows about the society we live in and what he believes about the way human society ought to be. Sometimes the author has his tongue in his cheek, and sometimes he has his poison pen in his hand, but always he is seeking to express the Truth that Life has taught him in his ninety years. His essays are sometimes his own experiences and sometimes they are his reflection on the parade of Life that he watches and has recorded over a period of many years. The essays are political; they are religious; they are personal. They are always an attempt to grasp Truth by the forelock and to wrestle manfully with his adversary. Buchanan's Essays cover the range from an easy approach to life at home to a serious attempt at public office. It is his understanding of ancient mythology that sets his work apart and

opens it to vistas of a modern view of Man and God. In his art of piddlin and doing nothing Buchanan reveals a hidden achiever and when he writes about Man and God he reveals the mind of the minister struggling to understand himself and the people he feels God has made his responsibility because of his calling to be a minister of the Gospel.

biggest heroes in history: Hero Constructs Linda Hill, AI, 2025-05-06 *Hero Constructs* explores the fascinating intersection of history and myth by examining how ancient societies constructed their heroes. It argues that these heroic figures, far from being simple reflections of individual bravery, were carefully crafted representations of societal values, anxieties, and power structures. By analyzing narratives from ancient Greece, Mesopotamia, and Egypt, the book reveals how cultures used hero archetypes to shape collective identities and legitimize authority. For instance, figures like Gilgamesh and Achilles, though separated by time, both grappled with themes of mortality and leadership, reflecting the concerns of their respective societies. The book begins by establishing theoretical frameworks for understanding heroism, drawing from anthropology, sociology, and literary criticism. It then progresses through detailed case studies, analyzing textual and archaeological evidence to uncover the socio-political context of each hero. *Hero Constructs* challenges traditional interpretations by emphasizing the ways in which heroic figures were shaped by their societies. Ultimately, the book offers a comparative analysis, highlighting common themes and cultural variations, providing a nuanced understanding of heroism's enduring relevance in world history. This approach enables a deeper interpretation of ancient texts and artifacts, moving beyond romanticized notions to grasp the complex realities of the ancient world.

biggest heroes in history: *Like a King* Christina Gutierrez-Dennehy, 2020-11-18 *Like a King: Casting Shakespeare's Histories for Citizens and Subjects* is a dual examination of Shakespeare's history plays in their early modern production contexts and of the ways the histories can speak directly to twenty-first-century American political and social concerns. Author and production

director Christina Gutierrez-Dennehy examines how strategic doubled and re-gendered casting can animate the underlying questions of Richard II, Henry V, and King John in vital and immediate ways for American audiences. Examining evidence from both the archive and the rehearsal room, Gutierrez-Dennehy explores the texts as repositories for dialogues about power, gender, identity, nationhood, and leadership. With the American political system as its backdrop, Like a King argues that productions of Shakespeare's histories can interrogate and explore the relationships between citizens, subjects, and their leaders.
