

current events in special education

current events in special education are shaping the landscape of learning for students with diverse needs across the United States and worldwide. These developments include legislative changes, technological advancements, shifts in inclusion practices, and emerging research on effective teaching strategies. Understanding these trends is crucial for educators, administrators, parents, and policymakers who aim to provide equitable and high-quality education for students with disabilities. This article explores recent updates in laws and policies, innovations in assistive technology, inclusive education models, and the impact of the COVID-19 pandemic on special education services. Additionally, challenges such as funding shortages and workforce shortages will be addressed to provide a comprehensive overview of the current state of special education. The following sections will guide readers through these critical topics and highlight how they influence educational outcomes for students with special needs.

- Legislative and Policy Developments in Special Education
- Technological Innovations Enhancing Special Education
- Inclusive Education Practices and Trends
- Impact of the COVID-19 Pandemic on Special Education
- Challenges Facing Special Education Today

Legislative and Policy Developments in Special Education

Recent current events in special education reveal significant legislative and policy changes aimed at improving access and quality of services for students with disabilities. Federal and state governments have introduced amendments and new guidelines to ensure compliance with the Individuals with Disabilities Education Act (IDEA) and other related laws. These developments focus on enhancing individualized education programs (IEPs), increasing accountability, and promoting equity within special education systems.

Updates to the Individuals with Disabilities Education Act (IDEA)

The IDEA remains the cornerstone of special education law in the United

States, and recent amendments have clarified procedural safeguards and expanded provisions for early intervention. These updates emphasize timely evaluations, transition planning for post-secondary success, and family engagement in decision-making. States are required to align their regulations with federal changes, promoting consistency across districts.

State-Level Policy Changes

Several states have enacted policies targeting specific challenges in special education, such as reducing waitlists for evaluations, increasing funding for related services, and expanding teacher training programs. For example, some states have introduced legislation mandating culturally responsive assessment practices to address disparities in special education identification among minority students.

Funding and Resource Allocation

Funding remains a pivotal issue in current events in special education. Recent federal budgets have included increased allocations for IDEA grants, but many districts report ongoing challenges in meeting students' needs due to rising costs and inflation. Policymakers continue to debate strategies for sustainable funding models that support both academic and therapeutic services.

Technological Innovations Enhancing Special Education

Technology has become a vital component in the delivery of special education services, with current events highlighting rapid advancements in assistive tools and digital platforms. These technologies provide personalized learning experiences, improve communication, and increase accessibility for students with a wide range of disabilities.

Assistive Technology Devices and Software

Recent innovations include more sophisticated speech-generating devices, eye-tracking communication aids, and adaptive learning software that adjusts to individual needs. These tools help students with physical, sensory, or cognitive impairments engage more fully in classroom activities and independent learning.

Virtual and Augmented Reality Applications

Emerging use of virtual reality (VR) and augmented reality (AR) in special education offers immersive environments for skill development, social interaction, and behavioral therapy. These technologies allow students to practice real-world scenarios in a controlled setting, enhancing engagement and retention.

Data-Driven Instruction and Monitoring

Educational technology platforms now incorporate data analytics to track student progress, identify learning gaps, and tailor instruction accordingly. This real-time feedback supports educators in modifying strategies to meet evolving student needs effectively.

Inclusive Education Practices and Trends

Inclusive education remains a central focus of current events in special education, reflecting a broader commitment to educating students with disabilities alongside their peers in general education settings. Trends indicate a growing emphasis on collaborative teaching models, universal design for learning (UDL), and social-emotional supports.

Collaborative and Co-Teaching Models

Co-teaching partnerships between special and general education teachers have expanded, enabling differentiated instruction and shared responsibility for student success. These models facilitate access to the general curriculum while addressing individual needs within inclusive classrooms.

Universal Design for Learning (UDL)

UDL principles guide educators in creating flexible learning environments that accommodate diverse learners. Current events highlight increased professional development opportunities focused on UDL implementation, promoting accessibility from the outset rather than as an afterthought.

Social-Emotional Learning and Behavioral Supports

Integrating social-emotional learning (SEL) into special education programs has gained traction, recognizing its role in improving academic outcomes and peer relationships. Positive behavioral interventions and supports (PBIS) frameworks are widely adopted to reduce disciplinary actions and foster supportive school climates.

Impact of the COVID-19 Pandemic on Special Education

The COVID-19 pandemic has profoundly affected special education, prompting rapid adaptations in service delivery and revealing systemic inequities. Current events in special education underscore ongoing efforts to address learning loss, ensure continuity of services, and support families and educators during and after the pandemic.

Remote and Hybrid Learning Challenges

Students with disabilities faced unique obstacles during remote instruction, including limited access to specialized resources and difficulties with virtual communication. Schools implemented individualized strategies such as teletherapy and virtual IEP meetings to maintain compliance and support.

Addressing Learning Loss and Recovery

Post-pandemic initiatives focus on assessing and mitigating academic regression among students with disabilities. Targeted interventions, extended school year programs, and supplemental tutoring have been prioritized to accelerate recovery and close gaps.

Family and Educator Support Systems

The pandemic highlighted the critical role of family engagement and educator well-being in special education. Increased training for parents in using digital tools, as well as mental health resources for teachers, are part of current efforts to strengthen the special education community.

Challenges Facing Special Education Today

Despite progress reflected in current events in special education, significant challenges persist. These include workforce shortages, disparities in service provision, and ongoing debates about identification and placement practices. Addressing these issues is essential for advancing equity and effectiveness in special education.

Special Education Teacher Shortages

Many districts report difficulties recruiting and retaining qualified special education teachers, exacerbated by increased workload and burnout. Strategies to address shortages include incentives, alternative certification pathways,

and enhanced professional development.

Equity and Disproportionality Concerns

Disparities in the identification and discipline of students from minority backgrounds continue to raise concerns. Current events emphasize the need for culturally responsive practices and systemic reforms to ensure fair access to services.

Balancing Inclusion and Specialized Support

Ongoing debates focus on how best to balance inclusive education with the provision of specialized environments when necessary. Ensuring that placement decisions are individualized and evidence-based remains a priority for educators and policymakers alike.

- Increased federal and state legislative activities
- Advancements in assistive and adaptive technologies
- Expanding inclusive education models
- Adaptations due to the COVID-19 pandemic
- Addressing workforce and equity challenges

Frequently Asked Questions

What are the latest federal policy changes impacting special education in 2024?

In 2024, federal policies have focused on increasing funding for special education programs, enhancing teacher training, and promoting inclusive education practices to better support students with disabilities.

How is technology being integrated into special education classrooms this year?

Technology integration in 2024 includes the use of AI-driven personalized learning tools, assistive devices, and virtual reality to improve engagement and accessibility for students with diverse learning needs.

What are the current challenges faced by special education teachers?

Special education teachers in 2024 face challenges such as increased caseloads, need for specialized training in new technologies, and addressing mental health concerns among students.

How has COVID-19 continued to affect special education services in 2024?

The pandemic's impact persists with ongoing hybrid learning models, increased emphasis on teletherapy, and efforts to bridge gaps in access to resources for students with disabilities.

What trends are emerging in inclusive education practices?

Inclusive education in 2024 emphasizes co-teaching models, Universal Design for Learning (UDL), and greater collaboration between general and special education staff to support diverse learners.

How are schools addressing mental health needs in special education populations?

Schools are implementing integrated mental health supports, training staff in trauma-informed practices, and increasing access to counseling services tailored for students with disabilities.

What role do parents and families play in current special education advocacy?

Parents and families are increasingly involved through virtual IEP meetings, advocacy groups leveraging social media, and partnerships with schools to ensure individualized support for their children.

Are there any new assessment tools being used in special education?

New assessment tools in 2024 include adaptive digital assessments that provide real-time data on student progress and help tailor instruction to individual needs.

How is legislation addressing equity in special education?

Recent legislation emphasizes reducing disparities in identification and

services for minority students, ensuring equitable access to high-quality special education resources across districts.

What professional development opportunities are trending for special education educators?

Trending professional development includes training on assistive technology, culturally responsive teaching, and strategies for supporting students with complex disabilities in inclusive settings.

Additional Resources

1. Inclusive Classrooms in a Changing World: Strategies for 2024 and Beyond

This book explores the latest methodologies and policies shaping inclusive education in special education settings. It emphasizes adapting teaching strategies to meet diverse learner needs amid evolving societal expectations. Educators will find practical tools to foster collaboration and equity in classrooms.

2. Technology and Accessibility: Innovations Transforming Special Education

Focusing on cutting-edge tech, this book examines how assistive devices and digital platforms are revolutionizing learning for students with disabilities. It highlights current trends like AI-powered tools and virtual reality applications. Readers gain insights into integrating technology to enhance engagement and accessibility.

3. Legal Landscape of Special Education: Navigating IDEA and Beyond in 2024

This comprehensive guide details recent legal updates affecting special education under IDEA and related legislation. It provides educators, administrators, and parents with clear explanations of rights and responsibilities. Case studies illustrate how to handle disputes and ensure compliance effectively.

4. Mental Health and Special Education: Addressing Emerging Challenges

Addressing the growing focus on mental health, this book discusses the intersection of emotional well-being and special education services. It offers strategies for identifying and supporting students with mental health needs within the IEP framework. The text also covers collaboration between educators, counselors, and families.

5. Equity and Access: Bridging Gaps in Special Education for Marginalized Students

This title tackles disparities faced by students of color, low-income families, and other marginalized groups in special education. It presents research on systemic barriers and proposes actionable solutions to promote fairness and inclusion. Educators learn to implement culturally responsive practices.

6. Remote Learning and Special Education: Lessons from the Pandemic Era

Analyzing the impact of COVID-19 on special education, this book reviews successes and challenges of remote and hybrid learning models. It offers guidance on maintaining engagement and delivering services virtually. The author shares best practices for future preparedness in similar crises.

7. Transition Planning and Postsecondary Success for Students with Disabilities

This resource focuses on preparing students for life after high school, including college, employment, and independent living. It discusses contemporary transition planning strategies aligned with current policies and labor market trends. Families and educators receive practical advice to support student goals.

8. Collaborative Practices: Building Effective Partnerships in Special Education

Highlighting teamwork, this book explores current approaches to fostering collaboration among educators, families, therapists, and community organizations. It emphasizes communication and shared decision-making to enhance student outcomes. Real-world examples demonstrate successful partnership models.

9. Data-Driven Instruction in Special Education: Utilizing Analytics for Student Success

This book presents modern techniques for collecting and analyzing data to inform instruction and intervention in special education. It covers software tools and assessment strategies that help tailor educational plans. Educators learn to leverage data to monitor progress and make evidence-based decisions.

current events in special education: Encyclopedia of Special Education, Volume 2 Cecil R. Reynolds, Kimberly J. Vannest, Elaine Fletcher-Janzen, 2018-03-06 The only comprehensive reference devoted to special education The highly acclaimed Encyclopedia of Special Education addresses issues of importance ranging from theory to practice and is a critical reference for researchers as well as those working in the special education field. This completely updated and comprehensive A-Z reference includes about 200 new entries, with increased attention given to those topics that have grown in importance since the publication of the third edition, such as technology, service delivery policies, international issues, neuropsychology, and RTI. The latest editions of assessment instruments frequently administered in special education settings are discussed. Only encyclopedia or comprehensive reference devoted to special education Edited and written by leading researchers and scholars in the field New edition includes over 200 more entries than previous edition, with increased attention given to those topics that have grown in importance

since the publication of the third edition—such as technology, service delivery policies, international issues, neuropsychology, and Response to Intervention, Positive Behavioral Interventions and Supports (PBIS), Autism and Applied Behavior Analysis Entries will be updated to cover the latest editions of the assessment instruments frequently administered in special education settings Includes an international list of authors and descriptions of special education in 35 countries Includes technology and legal updates to reflect a rapidly changing environment Comprehensive and thoroughly up to date, this is the essential, A-Z compilation of authoritative information on the education of those with special needs.

current events in special education: Encyclopedia of Special Education Cecil R. Reynolds, Elaine Fletcher-Janzen, 2007-02-26 The Third Edition of the highly acclaimed Encyclopedia of Special Education has been thoroughly updated to include the latest information about new legislation and guidelines. In addition, this comprehensive resource features school psychology, neuropsychology, reviews of new tests and curricula that have been developed since publication of the second edition in 1999, and new biographies of important figures in special education. Unique in focus, the Encyclopedia of Special Education, Third Edition addresses issues of importance ranging from theory to practice and is a critical reference for researchers as well as those working in the special education field.

current events in special education: Handbook of Research on Critical Issues in Special Education for School Rehabilitation Practices Singh, Ajay, Yeh, Chia Jung, Blanchard, Sheresa, Anunciação, Luis, 2021-04-23 Rehabilitation professionals working with students with disabilities and the families of those students face unique challenges in providing inclusive services to special education student populations. There needs to be a focus on adaptive teaching methods that provide quality experience for students with varying disabilities to promote student success and inclusivity. Critical issues within these practices span autism, diverse students, gifted education, learning disabilities, behavioral and emotional disorders, and more. With having many different types of students with vastly different situations, it is important for rehabilitation professionals to understand the best practices and learning systems for special education students who have a wide range of needs and challenges. The Handbook of Research on Critical Issues in Special Education for School Rehabilitation Practices focuses on the issues and challenges rehabilitation professionals face in special education and how they can provide inclusive and effective services to diverse student populations. This book highlights topics such as culturally responsive teacher preparation, artificial intelligence in the classroom, universal design, inclusive development, and school rehabilitation and explores the effects these newfound practices in education have on various types of students with disabilities. This book is essential for special education teachers, administrators, counselors, practitioners, researchers, academicians, and students interested in the new methods, theories, and solutions for the best practices in inclusive and effective special education.

current events in special education: Handbook for Educating Students with Disabilities Jeffrey P. Bakken, 2025-09-16 This Handbook focuses on the implications and strategies for educating students with disabilities. Covering diverse populations from an academic, behavioral, and international standpoint, it is a comprehensive resource spanning elementary to high school. In the first section, the Handbook delves into students with learning disabilities, autism, and emotional/behavioral disorders. The second section deals with students that have intellectual disabilities or extensive support needs. The third section concentrates on students with sensory disabilities. The fourth section addresses disabled youth and ways of knowing how to inform strategies in special education. The fifth and final section explores how teachers, parents, and related personnel impact special education and services for these students. Extensive in its coverage of different disability areas, the content is both informative and innovative, offering invaluable insights. The Handbook draws from a mix of national and international perspectives, making it an indispensable guide for anyone engaged in the critical area of special education.

current events in special education: Teaching and Learning with Technologies in the Primary School Marilyn Leask, Sarah Younie, 2024-05-06 This fully updated third edition of

Teaching and Learning with Technologies in the Primary School introduces practising and student teachers to the range of ways in which technology can be used to support and extend teaching and learning opportunities in their classrooms. Newly expanded to include 50% brand new chapters reflecting the abundant changes in the field since the last edition was published, it offers practical guidance underpinned by the latest research and teaching in the field. The authors draw on the extensive experience of educators in Australia, England, Ireland, Scotland, South Africa, the U.S.A. and Wales to provide local, national and international examples of the application of digital technologies to teaching and learning across the primary curriculum. Illustrated throughout with case studies and examples together with a glossary explaining key terms, chapters focus on how technology-based practices can support the teaching of individual subjects, as well as a range of teaching and learning styles. Key and new topics covered include: - Supporting reading and writing with technology - Technology in the early years - Developing e-skills of parents - Use of Virtual Reality in learning - PedTech - Resilience in the digital world Written for all training primary teachers, as well as more experienced teachers and technology co-ordinators looking for guidance on the latest innovative practice, Teaching and Learning with Technologies in the Primary School, 3rd edition, offers advice and ideas for creative, engaging and successful teaching and learning.

current events in special education: Learning to Teach Using ICT in the Secondary School Marilyn Leask, Norbert Pachler, 2013-10-08 Learning to Teach Using ICT in the Secondary School offers teachers of all subjects a comprehensive, practical introduction to the extensive possibilities that ICT offers pupils, teachers and schools. Under-pinned by the latest theory and research, it provides practical advice and guidance, tried-and-tested examples, and covers a range of issues and topics essential for teachers using ICT to improve teaching and learning in their subject. The third edition has been fully updated in light of rapid changes in the field of both ICT and education and includes six brand new chapters. Key topics covered include: Theories of learning and ICT Effective pedagogy for effective ICT Using the interactive whiteboard to support whole class dialogue Special needs and e-inclusion Literacy and new literaciesNEW Multi-play digital games and on-line virtual worldsNEW Mobile learningNEW e-Safety Supporting international citizenship through ICTNEW Linking home and school ICT tools for administration and monitoring pupil progressNEW Tools for professional development. Including case studies and tasks to support your own learning, as well as ideas and activities to use with all your students, Learning to Teach Using ICT in the Secondary School is a vital source of support and inspiration for all training teachers as well those looking to improve their knowledge. If you need a guide to using ICT in the classroom or for professional support, start with this book.

current events in special education: New York Education , 1898

current events in special education: Encyclopedia of Special Education, Volume 1 Cecil R. Reynolds, Kimberly J. Vannest, Elaine Fletcher-Janzen, 2018-03-02 The only comprehensive reference devoted to special education The highly acclaimed Encyclopedia of Special Education addresses issues of importance ranging from theory to practice and is a critical reference for researchers as well as those working in the special education field. current events in special education: *Special Education* Festus E. Obiakor, Jeffrey P. Bakken, 2024-04-26 This volume is an excellent resource for special education professionals who teach and serve learners with disabilities, and other related professionals involved in the educational process such as administrators, school counsellors, and psychologists.

current events in special education: Resources in Education , 2001-10

current events in special education: Disability and Teaching Susan Gabel, David Connor, 2013-07-24 Disability and Teaching highlights issues of disability in K-12 schooling faced by teachers, who are increasingly accountable for the achievement of all students regardless of the labels assigned to them. It is designed to engage prospective and practicing teachers in examining their personal theories and beliefs about disability and education. Part I offers four case studies dealing with issues such as inclusion, over-representation in special education, teacher assumptions and biases, and the struggles of novice teachers. These cases illustrate the need to understand disability and teaching within the contexts of school, community, and the broader society and in relation to other contemporary issues facing teachers. Each is followed by space for readers to write their own reactions and reflections, educators' dialogue about the case, space for readers' reactions to the educators' dialogue, a summary, and additional questions. Part II presents public arguments representing different views about the topic: conservative, liberal-progressive, and disability centered. Part III situates the authors' personal views within the growing field of Disability Studies in education and provides exercises for further reflection and a list of resources. Disability and Teaching is the 8th volume in the Reflective Teaching and the Social Conditions of Schooling Series, edited by Daniel P. Liston and Kenneth M. Zeichner. This series of small, accessible, interactive texts introduces the notion of teacher reflection and develops it in relation to the social conditions of schooling. Each text focuses on a specific issue or content area in relation to teaching and follows the same format. Books in this series are appropriate for teacher education courses across the curriculum.

current events in special education: Teaching and Learning with ICT in the Primary School Sarah Younie, Marilyn Leask, Kevin Burden, 2014-09-15 The new edition of Teaching and Learning with ICT in the Primary School introduces practising and student teachers to the range of ways in which ICT can be used to support and extend teaching and learning opportunities in their classrooms. Fully updated and expanded with brand new chapters reflecting the abundant changes in the field since the first edition was published, it offers practical guidance underpinned by the latest research and teaching in the field. It is illustrated throughout with case studies and examples together with a glossary explaining key terms. It focuses on how technology-based practices can support the teaching of individual subjects, as well as a range of teaching and learning styles. Key topics covered include: Support reading and writing with ICT Enhancing mathematics with technology ICT in the foundation subjects Computer programming Creativity and ICT ICT and sustainability Linking home and school Digital technologies for special educational needs Mobile technologies Gaming and virtual worlds Assessment E-Safety Written for all training primary teachers, as well as more experienced teachers and ICT co-ordinators looking for guidance on the latest innovative practice, Teaching and Learning with ICT in the Primary School, 2nd edition offers advice and ideas for creative, engaging and successful teaching and learning.

current events in special education: Expanding the Vision of Rurality in the US Educational System Yoho, Louise M., Moore, Jarrett, 2023-09-28 The dominant narratives of US rurality within educational research and literature centers on the Appalachian and southern US perspectives. However, there is a need to add texture and expand the vision of rurality in US schools and education. Expanding the Vision of Rurality in the US Educational System provides readers, especially college and university faculty in pre-service education programs, with a better understanding of the rural students they teach and the rural communities where they will eventually

teach. It also attempts to move the discourse beyond the deficit framework for understanding rural communities. Though the book does not ignore barriers in rural communities, it focuses on the strengths and opportunities available to rural educators without depending on the rural idyllic. Covering key topics such as diversity, belonging, and regional rurality, this premier reference source is ideal for administrators, policymakers, industry professionals, researchers, academicians, scholars, practitioners, instructors, and students.

current events in special education: *Culturally Responsive Teaching and Reflection in Higher Education* Sharlene Voogd Cochrane, Meenakshi Chhabra, Marjorie A. Jones, Deborah Spragg, 2017-02-03 *Culturally Responsive Teaching and Reflection in Higher Education* explores how postsecondary educators can develop their own cultural awareness and provide inclusive learning environments for all students. Discussing best practices from the Cultural Literacy Curriculum Institute at Lesley University, faculty and administrators who are committed to culturally responsive teaching reflect on how to create an inclusive environment and how educators can cultivate the skills, attitudes, and knowledge necessary for implementing culturally responsive curriculum and pedagogy. Rather than a list of right answers, essays in this important resource integrate discussion and individual reflection to support educators to enhance skills for responding effectively to racial, cultural, and social difference in their personal and professional contexts. This book is as an excellent starting point or further enrichment resource to accompany program or institutional diversity and inclusion efforts.

current events in special education: *Making Connections in Elementary and Middle School Social Studies* Andrew P. Johnson, 2006 *Making Connections in Elementary and Middle School Social Studies* is based on the idea that students learn more and are more motivated to learn when they are able to connect their own knowledge, observations, ideas, imagination, and emotions with the content at hand. This book demonstrates how personal connections can be incorporated into social studies education while meeting NCSS thematic, pedagogical, and disciplinary standards. It is written in a very direct, reader-friendly style. Each chapter describes a variety of practical strategies and creative activities that novice and experienced teachers can use to make social studies more interesting and to help students make meaningful personal and academic connections. Each chapter contains a wealth of classroom strategies, pedagogical techniques, activities, and lesson plan ideas that can be used to enhance learning and make lessons more interesting, active, and student-centered. The book covers the three types of standards that elementary and middle school teachers work with as they teach social studies. o Thinking Ahead questions invite the reader to reflect on his/her own experiences, as they relate to the material covered in the next chapter. These can be used as discussion points for a class or small group, or simply as pre-reading prompts to enhance comprehension. o Teachers in Action boxes contain real life narratives from practicing teachers. These cases are designed to expand upon key issues presented in each chapter. Every case is accompanied by the author's personal reflection on the case. These reflections are intended to give the reader an opinion against which he/she can measure his/her own reactions. After each case, the reader is prompted to think about the narrative presented and think about the way that his/her reactions compare with those presented by the author. o Go There boxes provide links to Web sites that offer additional resources for teachers, lesson plans, and other activities to enhance a social studies classroom. This text is accompanied by a dynamic Instructor's Resources CD. The CD includes classroom video footage that can be shown in class to illustrate the concepts presented in the book and stimulate class discussion.

current events in special education: *The Educational Technology Handbook* Steven Hackbarth, 1996 Grade level: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, k, p, e, i, s, t.

current events in special education: *The Many Faces of Special Educators* Beverley H. Johns, Mary Z. McGrath, Sarup R. Mathur, 2010-01-16 Those who enter the special education profession should be recognized as positive contributors to society. This book celebrates the many talents of special educators and how those talents are utilized throughout all facets of life. It provides an excellent view of the positive dispositions of special educators and can also be utilized by employers

seeking to employ special educators who possess these dispositions. .

current events in special education: *Voices of Asian Americans in Higher Education* Festus E. Obiakor, Ying Hui-Michael, 2018-10-01 *Voices of Asian Americans in Higher Education: Unheard Voices* is a unique and historical book. Asian Americans are often portrayed as “model minority,” yet their personal and educational experiences are often unheard. In this book, 10 Asian American educators and scholars present realistic pictures of America’s higher education using personal narratives. The contributors in this book come from different regions and teach in different colleges and universities; and coincidentally, they all endure the “outsider” category formerly as students and now as professors and leaders. This “outsider” status can be emotionally overwhelming and psychologically unnerving. This status hampers opportunities for Asian Americans to grow and maximize their fullest potential. Though they develop different strategies to address their “outsider” label, it does not make it comfortable. But, time and time again, they have proven that they can succeed! In this technological age, we must value unending truths as we educate ourselves and others. We hope that this book will be an educational and informational resource for students, administrators, and faculty in higher education and also educational policy makers and stakeholders.

current events in special education: *Choice & Voice* Stephanie Fleck, Jolene Heinemann, 2020-08-15 What we allow our students to read tells them which stories we value—and which we don't. Give students the power to develop reading lives that will endure beyond school walls. Collaborative Reader Workshop allows for student choice in reading, writing, and speaking; provides an authentic audience for student work; strengthens academic ELA skills; builds a wider school community of readers; and fosters lifelong reading habits. Fleck and Heinemann offer teachers a clear model to establish this interactive reader workshop model in their classrooms as well as tools to get them started. Readers will have a reinvigorated excitement about independent reading and justification for its relevance in the classroom.

current events in special education: *Concise Encyclopedia of Special Education* Cecil R. Reynolds, Elaine Fletcher-Janzen, 2004-03-25 The Concise Encyclopedia of Special Education, Second Edition is a comprehensive resource for those working in the fields of special education research and practice. Featuring reviews of assessment instruments and teaching approaches, legal issues, overviews of specific learning disabilities, dozens of biographies, and more, this complete desk reference is an indispensable guide for professionals, academics, and students alike. Named an American Library Association Top 25 Reference of the Year in its First Edition, The Concise Encyclopedia serves as an important reference for the education of handicapped and other exceptional children. Written and edited by highly regarded and respected experts in the fields of special education and psychology, this authoritative resource guide provides a reference base for educators as well as professionals in the areas of psychology, neuropsychology, medicine, health care, social work and law. Additionally, this acclaimed reference work is essential for administrators, psychologists, diagnosticians, and school counselors, as well as parents of the handicapped themselves. What's new in this edition Comprehensive coverage of new legislation such as Individuals with Disabilities Act (IDEA) and the Americans with Disabilities Act Cultural competence in Special Education, including new material on culturally/linguistically diverse students Many new entries including notable biographies, new service delivery systems, special education laws, new assessment instruments, cross-cultural issues, neuropsychology, and use of the Internet in research and service delivery. Some of the topics covered Academic assessment Achievement tests Addictions Bilingual education Child and adolescent behavior management Counseling with individuals and families with disabilities Early childhood education Gifted education Intelligence tests Mathematics disabilities Psychoeducational methods Rehabilitation Socioeconomic status Special education parent and student rights Traumatic brain injury
