fort mill south carolina history: **The Southern Past** William Fitzhugh Brundage, 2009-07 Since the Civil War whites and blacks have struggled over the meanings and uses of the Southern past. Indeed, today's controversies over flying the Confederate flag, renaming schools and streets, and commemorating the Civil War and the civil rights movement are only the latest examples of this ongoing divisive contest over issues of regional identity and heritage. The Southern Past argues that these battles are ultimately about who has the power to determine what we remember of the past,

and whether that remembrance will honor all Southerners or only select groups. For more than a century after the Civil War, elite white Southerners systematically refined a version of the past that sanctioned their racial privilege and power. In the process, they filled public spaces with museums and monuments that made their version of the past sacrosanct. Yet, even as segregation and racial discrimination worsened, blacks contested the white version of Southern history and demanded inclusion. Streets became sites for elaborate commemorations of emancipation and schools became centers for the study of black history. This counter-memory surged forth, and became a potent inspiration for the civil rights movement and the black struggle to share a common Southern past rather than a divided one. W. Fitzhugh Brundage's searing exploration of how those who have the political power to represent the past simultaneously shape the present and determine the future is a valuable lesson as we confront our national past to meet the challenge of current realities.

fort mill south carolina history: A History of Kershaw County, South Carolina Joan A. Inabinet, L. Glen Inabinet, 2022-10-18 The complex story of the region that is home to South Carolina's oldest inland city A History of Kershaw County is a much anticipated comprehensive narrative describing a South Carolina community rooted in strong local traditions. From prehistoric to present times, the history spans Native American dwellers (including Cofitachiqui mound builders), through the county's major roles in the American Revolution and Civil War, to the commercial and industrial innovations of the twentieth and twenty-first centuries. Joan and Glen Inabinet share insightful tales of the region's inhabitants through defining historical moments as well as transformative local changes in agriculture and industry, transportation and tourism, education and community development. Kershaw County is home to some of South Carolina's most notable prehistoric sites as well as the state's oldest inland city, Camden, thus giving the region an impressive and richly textured human history. Still the most familiar icon of the county is an early weathervane silhouette honoring the Catawba Indian chief King Hagler for protecting pioneer settlers. An important colonial milling and trading center, Camden was seized by the British under Lord Cornwallis during the American Revolution and fortified as their backcountry headquarters. Eight battles and skirmishes were fought within the modern boundaries of Kershaw County, including the Battle of Camden on August 16, 1780, and the Battle of Hobkirk's Hill on April 25, 1781. Named for Revolutionary War patriot Joseph Kershaw, the county was created in 1791 from portions of Claremont, Fairfield, Lancaster, and Richland counties. Kershaw County developed its local economy through plantation agriculture, an enterprise dependent on African slave labor. Distinctive homes were built on rural plantations and in Camden, and a village of well-to-do planters grew up at Liberty Hill. Six Confederate generals claimed the county as their birthplace, and the area also was home to Mary Boykin Chesnut, acclaimed diarist of the Civil War. In their descriptions of Kershaw County in modern times, the Inabinets chronicle how the railroad and later U.S. Highway 1 brought opportunities for the expansion of tourism and led to Camden's development as a popular winter resort for wealthy northerners. Small towns and villages emerged from railroad stops, including Bethune, Blaney (later Elgin), Boykin, Cassatt, Kershaw, Lugoff, and Westville. The influx of new money coupled with local equestrian traditions led to an enthusiasm for polo and the creation of the Carolina Cup steeplechase at the Springdale Course. Aside from early developments in textile manufacturing, industrialization proceeded slowly in Kershaw County. The completion of the Wateree Dam in 1919 gave the region a valuable source of electricity as well as much-needed flood control and a popular new recreational area in Lake Wateree. Despite these incentives for new industry, agricultural ways of life continued to dominate until World War II influenced advances in aviation, communication, and industrialization. In describing these changes, the Inabinets map the circumstances surrounding the building of the DuPont plant which opened in 1950 and the expansion of several other industries in the area. Through perceptive text and more than eighty images, this first book-length history of Kershaw County illustrates how the region is steeped in a rich history of more than two centuries of struggles and accomplishments in which preserving

lessons of the past holds equal sway with welcoming opportunities for the future.

fort mill south carolina history: The Lost Freedmen's Town of Hamburg, South Carolina Michael S. Smith, 2021-04-05 Hamburg is perhaps South Carolina's most famous ghost town. Founded in 1821, it grew to four thousand residents before transportation advances led to decline. During Reconstruction, recently freed slaves reshaped Hamburg into a freedmen's village, where residents held local, county and state offices. These gains were wiped away after the Hamburg Massacre in 1876, a watershed event that left seven African Americans dead, most of them executed in cold blood. Yet more than a century after Hamburg, the one white supremacist killed in the melee is canonized by the racially divisive Meriwether Monument in downtown North Augusta. Author Michael Smith details the amazing events that created this unique community with a lasting legacy.

fort mill south carolina history: Reading Confederate Monuments Maria Seger, 2022-08-24 Winner of a 2023 Edited Collection Award from the South Atlantic Modern Language Association Contributions by Danielle Christmas, Joanna Davis-McElligatt, Garrett Bridger Gilmore, Spencer R. Herrera, Cassandra Jackson, Stacie McCormick, Maria Seger, Randi Lynn Tanglen, Brook Thomas, Michael C. Weisenburg, and Lisa Woolfork Reading Confederate Monuments addresses the urgent and vital need for scholars, educators, and the general public to be able to read and interpret the literal and cultural Confederate monuments pervading life in the contemporary United States. The literary and cultural studies scholars featured in this collection engage many different archives and methods, demonstrating how to read literal Confederate monuments as texts and in the context of the assortment of literatures that produced and celebrated them. They further explore how to read the literary texts advancing and contesting Confederate ideology in the US cultural imaginary—then and now—as monuments in and of themselves. On top of that, the essays published here lay bare the cultural and pedagogical work of Confederate monuments and counter-monuments—divulging how and what they teach their readers as communal and yet contested narratives—thereby showing why the persistence of Confederate monuments matters greatly to local and national notions of racial justice and belonging. In doing so, this collection illustrates what critics of US literature and culture can offer to ongoing scholarly and public discussions about Confederate monuments and memory. Even as we remove, relocate, and recontextualize the physical symbols of the Confederacy dotting the US landscape, the complicated histories, cultural products, and pedagogies of Confederate ideology remain embedded in the national consciousness. To disrupt and potentially dismantle these enduring narratives alongside the statues themselves, we must be able to recognize, analyze, and resist them in US life. The pieces in this collection position us to think deeply about how and why we should continue that work.
