fresno state financial office: *Pitt* Robert C. Alberts, 2014-08-12 This is a history of a major American university from its birth on the western frontier in the eighteenth century through its two-hundredth anniversary. Told primarily through the stories of its energetic and sometimes eccentric chancellors, it's a colorful and highly readable chronicle of the University of Pittsburgh. The story begins in the early spring of 1781, when an ambitious young Philadelphia lawyer named Hugh Henry Brackenridge crossed the Alleghenies to seek his opportunity in Pittsburgh. My object, he wrote, was to advance the country [Western Pennsylvania] and thereby myself. He founded Pittsburgh Academy, later to be the Western University of Pennsylvania and then the University of Pittsburgh, and lived to see the school grow along with the city. Author Robert C. Alberts, mines the University archives and describes many issues for the first time. Among them is the role played by the Board of Trustees in the conflicts of the administration of Chancellor John Gabbert Bowman, including the firing of a controversial history professor, Ralph Turner; the resignation of the legendary football coach, Jock Sutherland; and a Board investigation into Bowman's handling of faculty and staff. We see Pitt's decade of progress under Edward Litchfield (1956-1965), who gambled that the millions of dollars he spent . . . would be forthcoming from somewhere or someone; but who, as it turned out was mistaken. Pitt became a state-related university in August 1966, but financial stability was achieved gradually during the administration of Chancellor Wesley W. Posvar. The ensuing crisis of the 1960s and early 1970, caused by the Vietnam

War, and the student protests that accompanied it, are described in rich detail. The history then follows Pitt's emergence as a force in international higher education; the institution's role in fostering a cooperative relationship with business; and its entry into the postindustrial age of high technology. The story of Pitt reflects all the struggles and the hopes of the region. As Alberts writes in his preface, There was drama; there was tragedy; there was indeed controversy and politics. There were, unexpectedly, rich veins of humor, occasionally of comedy.

What does it mean to be an Asian Pacific American librarian in the 21st century? In *Asian American Librarians and Library Services: Activism, Collaborations, and Strategies*, library professionals and scholars share reflections, best practices, and strategies, and convey the critical need for diversity in the LIS field, library programming, and resources to better reflect the rich and varied experiences and information needs of Asian Americans in the US and beyond. The contributors show that they care deeply about diversity, that they acknowledge that it is painfully lacking in so many aspects of libraries and librarianship, and that libraries and the LIS profession must systematically integrate diversity and inclusion into their strategic priorities and practices, indeed, in their very mission, such that the rich diversity of experiences and histories of Asian Americans in library and archival collections, services, and programming are not only validated and recognized, but also valued and celebrated as vital components of the shared American experience. The volume recognizes and honors the creative and intentional work librarians do for their constituent Asian American communities in promoting resources, services, and outreach.

Maguire, 2019 Featuring vignettes of students experiencing homelessness and housing insecurity, this book offers readers research-based, practical guidance for creating and implementing a plan of action to address these issues within their local context. Topics include trauma-informed frameworks, policies affecting homelessness and housing insecurity, transitioning students to college, supporting college retention, collaborations and partnerships, and life after college. This practical resource can be used as a professional development tool for student affairs, academic affairs, health and wellness centers, and other campus-based support services. "Provides context, but it also offers tangible suggestions for how you can develop or expand your philosophical, practical, and political efforts to address the needs of students." —From the Foreword by Timothy P. White, chancellor of The California State University "These skilled authors provide invaluable insights into homelessness and guidance for how we can respond. This is important work that should be shared throughout higher education!" —Peter Miller, University of Wisconsin-Madison "This is a must-read for higher education professionals who want to support students affected by issues of housing insecurity and homelessness." —Robert D. Filled with rich characters—from Bernice Resnick Sandler, an early organizer for the law, to her trans grandchild—the story of Title IX is a legislative and legal drama with conflicts over regulations and challenges to the law. It’s also a human story about women denied opportunities, students struggling for an education free from sexual harassment, and activists defying sexist discrimination. These intersecting narratives of women seeking an education, playing sports, and wanting protection from sexual harassment and assault map gains and setbacks for feminism in the last fifty years and show how some women benefit more than others. Award-winning journalist Sherry Boschert beautifully explores the gripping history of Title IX through the gutsy people behind it. In the tradition of the acclaimed documentary *She’s Beautiful When She’s Angry*, *37 Words* offers a crucial playbook for anyone who wants to understand how we got here and who is horrified by current attacks on women’s rights.
