french language christmas movies: Analyzing Christmas in Film Lauren Rosewarne, 2017-12-06 Film plays a vital role in the celebration of Christmas. For decades, it has taught audiences about what the celebration of the season looks like – from the decorations to the costumes and to the expected snowy weather – as well as mirrors our own festivities back to us. Films like *It's a Wonderful Life* and *Home Alone* have come to play key roles in real-life domestic celebrations: watching such titles has become, for many families, every bit as important as tree-trimming and leaving cookies out for Santa. These films have exported the American take on the holiday far and wide and helped us conjure an image of the perfect holiday. Rather than settling the 'what is a Christmas film?' debate – indeed, *Die Hard* and *Lethal Weapon* are discussed within – *Analyzing Christmas in Film: Santa to the Supernatural* focuses on the how Christmas is presented on the deluge of occasions when it appears. While most Christmas films are secular, religion makes many cameos, appearing through Nativity references, storylines involving spiritual rebirth, the framing of Santa as a Christ-like figure and the all-importance of family, be it the Holy family or just those gathered around the dining table. Also explored are popular narratives involving battles with stress and melancholy, single parents and Christmas martyrs, visits from ghosts and angels, big cities and small towns, break-ups and make-ups and the ticking clock of mortality. Nearly 1000 films are analyzed in this volume to determine what the portrayal of Christmas reveals about culture, society and faith as well as sex roles, consumerism, aesthetics and aspiration.

french language christmas movies: French B Movies David A. Pettersen, 2023-03-07 In the impoverished outskirts of French cities, known as the banlieues, minority communities are turning to American culture, history, and theory to make their own voices, cultures, and histories visible. Filmmakers have followed suit, turning to Hollywood genre conventions to challenge notions of identity, belonging, and marginalization in mainstream French film. *French B Movies* proposes that French banlieue films, far from being a fringe genre, offer a privileged site from which to understand the current state of the French film industry in an age of globalization. This gritty style appears in popular arthouse films such as Mathieu Kassovitz's *La Haine* and *Bande de filles* (Girlhood) along with the major Netflix hit series *Lupin*. David Pettersen traces how, in these works and others, directors fuse features of banlieue cinema with genre formulas associated with both Hollywood and Black cultural models, as well as how transnational genre hybridizations, such as B movies, have become part of the ecosystem of the French film industry. By combining film analysis, cultural history, critical theory, and industry studies, *French B Movies* reveals how featuring banlieues is as much about trying to imagine new identities and production models for French cinema as it is about representation.

french language christmas movies: About Christmas Nicolae Sfetcu, 2014-05-01 Christmas characters and food, Christmas-linked holidays and music, Santa Claus and traditions. Related to Annunciation, Incarnation; Crucifixion; Advent, the four weeks preceding Christmas; and the period between the day after Thanksgiving and the Sunday after New Year's Day, the American holiday season. Christmas or Christmas Day is a holiday celebrating the birth of Jesus, the central figure of Christianity. Aspects of celebration may include gift-giving, Christmas trees, display of Nativity sets, church attendance, the Father Christmas/Santa Claus myth, and family gatherings. Users of the Gregorian calendar observe the holiday on December 25. Some Eastern Orthodox Churches celebrate on December 25 by the Julian calendar, which currently corresponds to January 7 on the Gregorian calendar. These dates are merely traditional; the great majority of scholars agree that the actual birthdate of Jesus is unknown. In Western culture, the holiday is characterized by the exchange of gifts among friends and family members, some of the gifts being attributed to Santa Claus (also known as Father Christmas, Saint Nicholas, Saint Basil and Father Frost). However, various local and regional Christmas traditions are still practiced, despite the widespread influence of American, British and Australian Christmas motifs disseminated by film, popular literature, television, and other media.

french language christmas movies: Fairy-Tale Films Beyond Disney Jack Zipes, Pauline Greenhill, Kendra Magnus-Johnston, 2015-09-16 The fairy tale has become one of the dominant

cultural forms and genres internationally, thanks in large part to its many manifestations on screen. Yet the history and relevance of the fairy-tale film have largely been neglected. In this follow-up to Jack Zipes's award-winning book *The Enchanted Screen* (2011), *Fairy-Tale Films Beyond Disney* offers the first book-length multinational, multidisciplinary exploration of fairy-tale cinema. Bringing together twenty-three of the world's top fairy-tale scholars to analyze the enormous scope of these films, Zipes and colleagues Pauline Greenhill and Kendra Magnus-Johnston present perspectives on film from every part of the globe, from Hayao Miyazaki's *Spirited Away*, to Jan Švankmajer's *Alice*, to the transnational adaptations of *1001 Nights* and Hans Christian Andersen. Contributors explore filmic traditions in each area not only from their different cultural backgrounds, but from a range of academic fields, including criminal justice studies, education, film studies, folkloristics, gender studies, and literary studies. *Fairy-Tale Films Beyond Disney* offers readers an opportunity to explore the intersections, disparities, historical and national contexts of its subject, and to further appreciate what has become an undeniably global phenomenon.

french language christmas movies: Jewish Identity in French Cinema (1950-2010) Serge Bokobza, 2016-02-22 This book examines the expression of a Jewish identity in French films and the characteristics used by filmmakers to portray this nebulous concept in movies produced after the Shoah and World War II. Throughout a sixty-year span, French directors struggled to define Jewish identity and a correlation with the larger question of French national identity. The study delves into the larger question of Jewish identity as characterised in works of cinematic fiction in accordance with the history of the Jews of France, using the centrality of the emancipation paradigm of 1791 and the theoretical frame provided by Jean-Paul Sartre's *Réflexions sur la question juive*. The book identifies and describes three categories of films produced between 1950 and 2010 that represent the manner in which directors portrayed an evolving Jewish identity and its relation to French society, rejecting the practice of labeling a film as "Jewish" because of the ethnicity of a director or writer. Based on extensive research including the review of over 200 full-length films, the book provides an overview of features addressing the concept of Jewish identity and includes a Descriptive Filmography of productions matching the author's definition of a Jewish-identity film. From the template *La Grande Illusion* to contemporary releases, the book argues that French Jewish-identity films dwell in the sociological realm of Jewishness, as the epicenter of tension is rooted in identity rather than religion.

french language christmas movies: The Music Sound Nicolae Sfetcu, 2014-05-07 A guide for music: compositions, events, forms, genres, groups, history, industry, instruments, language, live music, musicians, songs, musicology, techniques, terminology, theory, music video. Music is a human activity which involves structured and audible sounds, which is used for artistic or aesthetic, entertainment, or ceremonial purposes. The traditional or classical European aspects of music often listed are those elements given primacy in European-influenced classical music: melody, harmony, rhythm, tone color/timbre, and form. A more comprehensive list is given by stating the aspects of sound: pitch, timbre, loudness, and duration. Common terms used to discuss particular pieces include melody, which is a succession of notes heard as some sort of unit; chord, which is a simultaneity of notes heard as some sort of unit; chord progression, which is a succession of chords (simultaneity succession); harmony, which is the relationship between two or more pitches; counterpoint, which is the simultaneity and organization of different melodies; and rhythm, which is the organization of the durational aspects of music.

french language christmas movies: French Cinema and the Great War Marcelline Block, Barry Nevin, 2016-02-04 Even a century after its conclusion, the devastation of the Great War still echoes in the work of artists who try to make sense of the political, moral, ideological, and economic changes and challenges it spawned. France, the military major power of the Western Front, carries the legacy of battles on its own soil, and countless French lives lost defending the nation from the Central Powers. It is no surprise that the impact of the First World War can still be seen in French films into the present day. French Cinema and the Great War: Remembrance and Representation provides the first book-length study of World War I as it is featured in French cinema, from the silent era to contemporary films. Presented in three thematic sections—Recording and Remembering the Great War, Women at the Front, and Interrogating Commemoration—the essays in this volume explore the ways in which French film contributes to the restoration and modification of memories of the war. Films such as *La Grande Illusion*, *King of Hearts*, *A Very Long Engagement*, and *Joyeux Noel* are among those discussed in the volume's examination of the various ways in which film mediates personal and collective memories of this critical historical event. This volume will be an invaluable resource, not only to those interested in French Cinema or the cinema of the Great War, but also to those interested in the impacts of war, more generally, on the cultural output of nations torn by the violence, death, and destruction of military conflict.
