frontline asset strategies phone number: Australia International Monetary Fund. Monetary and Capital Markets Department, 2019-02-14 This Detailed Assessment of Observance report specifies Base Core Principles (BCP) for effective banking supervision in Australia. An assessment of the effectiveness of banking supervision requires a review of the legal framework, and a detailed examination of the policies and practices of the institution(s) responsible for banking regulation and supervision. In line with the BCP methodology, the assessment focused on banking supervision and regulation in Australia and did not cover the specificities of regulation and supervision of other financial institutions. The assessment has made use of five categories to determine compliance: compliant; largely compliant, materially noncompliant, noncompliant, and non-applicable. The report insists that Australian Prudential Regulation Authority (APRA) should put more focus on assessing the various components of firms' Internal Capital Adequacy Assessment Process and other firm-wide stress testing practices. A periodic more comprehensive assessment of banks' risk management and governance frameworks will further enhance APRA's supervisory approach.

frontline asset strategies phone number: The Routledge Companion to Public Humanities Scholarship Daniel Fisher-Livne, Michelle May-Curry, 2024-05-31 Across humanities disciplines, public scholarship brings academics and community members and organizations together in mutually-beneficial partnership for research, teaching, and programming. While the field of publicly engaged humanities scholarship has been growing for some time, there are few volumes

that have attempted to define and represent its scope. The Routledge Companion to Public Humanities Scholarship brings together wide-ranging case studies sharing perspectives on this work, grounded in its practice in the United States. The collection begins with chapters reflecting on theories and practices of public humanities scholarship. The case studies that follow are organized around six areas of particular impact in public humanities scholarship: Informing contemporary debates; amplifying community voices and histories; helping individuals and communities navigate difficult experiences; preserving culture in times of crisis and change; expanding educational access; and building and supporting public scholarship. The Companion concludes with a glossary, introducing select concepts. Taken together, these resources offer an overview for students and practitioners of public humanities scholarship, creating an accessible vocabulary rooted in the practices that have so advanced academic and community life. Although drawing on case studies from the US, these examples offer perspectives and insights relevant to public humanities around the world. This book will be of interest to anyone working within the public humanities or wanting to make their work public and engage with wider communities.

frontline asset strategies phone number: At Our Best Gretchen Brion-Meisels, Jessica Tseming Fei, Deepa Sriya Vasudevan, 2020-03-01 At Our Best: Building Youth-Adult Partnerships in Out-of-School Time Settings brings together the voices of over 50 adults and youth to explore both the promises and challenges of intergenerational work in out-of-school time (OST) programs. Comprised of 14 chapters, this book features empirical research, conceptual essays, poetry, artwork, and engaged dialogue about the complexities of youth-adult partnerships in practice. At Our Best responds to key questions that practitioners, scholars, policymakers, and youth navigate in this work, such as: What role can (or should) adults play in supporting youth voice, learning, and activism? What approaches and strategies in youth-adult partnerships are effective in promoting positive youth development, individual and collective well-being, and setting-level change? What are the tensions and dilemmas that arise in the process of doing this work? And, how do we navigate youth-adult partnerships in the face of societal oppressions such as adultism, racism, and misogyny? Through highlighting contemporary cases of authentic youth-adult partnerships in youth programs, this fourth volume of the IAP series on OST aims to introduce, engage, and sharpen educators' understandings of the power and promise of these relationships. Together, the authors in this volume suggest that both building youth-adult partnerships and actively reflecting on intergenerational work are foundational practices to achieving transformational change in our OST organizations, schools, neighborhoods, and communities. Praise for At Our Best: There is nothing more powerful in our efforts to improve our society than understanding how to cultivate deep and meaningful partnerships with young people. "At Our Best" offers key insights about the power of youth-adult partnerships in out-of-school time settings. Brion-Meisels, Fei & Vasudevan have compiled a powerful and comprehensive collection of voices of people who are blazing a new path in partnering with youth. This book is a must read for researchers and practitioners searching for fresh analysis and innovative insights into building youth-adult partnerships. ~ Shawn Ginwright, Ph.D, Associate Professor of Education & Africana Studies, San Francisco State University Chief Executive Officer, Flourish Agenda, Oakland CA There are few books that consider how youth and adults work as partners for the benefit of their schools, their communities and themselves. "At Our Best" changes the status quo. It takes seriously the urgency and centrality of intergenerational inclusion by bringing together the voices of educators, academics, artists, youth workers, organizers and students. The chapters move between theory and practice, providing rich reflections on foundations of youth-adult partnerships while also detailing best practices in out-of-school time. The authors generously share the struggles and joy of this work. In so doing, they provide a roadmap for navigating the complex work of youth-adult partnerships in our current social and political context. ~ Shepherd Zeldin, Professor Emeritus, Civil Society and Community Studies, University of Wisconsin-Madison Book reviews and associated articles: Journal of Youth Development: Book

frontline asset strategies phone number: The Decision Intelligence Handbook L. Y. Pratt, N. E. Malcolm, 2023-06-21 Decision intelligence (DI) has been widely named as a top technology trend for several years, and Gartner reports that more than a third of large organizations are adopting it. Some even say that DI is the next step in the evolution of AI. Many software vendors offer DI solutions today, as they help organizations implement their evidence-based or data-driven decision strategies. But until now, there has been little practical guidance for organizations to formalize decision making and integrate their decisions with data. With this book, authors L. Y. Pratt and N. E. Malcolm fill this gap. They present a step-by-step method for integrating technology into decisions that bridge from actions to desired outcomes, with a focus on systems that act in an advisory, human-in-the-loop capacity to decision makers. This handbook addresses three widespread data-driven decision-making problems: How can decision makers use data and technology to ensure desired outcomes? How can technology teams communicate effectively with decision makers to maximize the return on their data and technology investments? How can organizational decision makers assess and improve their decisions over time?

Written in a non-academic style, this book will be a valuable resource for students and early career managers working in the hospitality sector.

frontline asset strategies phone number: The Win-Win Workplace Angela Jackson, 2025-03-11 An instant New York Times bestseller! Do you want the key to driving equity and skyrocketing profits? It's simple: hand over control to your workers. Discover 9 strategies to create better, healthier workplaces, grounded in evidence-based research. This revolutionary guide aims to revolutionize the workplace for justice, equity, and profitability by handing the reins over to the real drivers of success: the workers. Based on research from over 1,200 companies, including WalMart, Google, and JPMorgan Chase, this book follows real-world cases from companies where employees evolved from silent contributors to masterminds steering corporate strategies. These cases are the vanguard of a vibrant era in which workers will be the architects of their destinies, shaping not just their own careers but the entire trajectories of their organizations. Her work has quantified the financial impact investing in people can have on an organization- the first reliable calculation in the literature of talent retention. From this research, 9 key strategies emerged: •Centering employee voices •Mutualistic working relationships •Intersectional inclusion strategies •Reimagining employee benefits •Frontline leader driven strategies •Hire STARS •Develop deep talent benches •Human capital reporting as a competitive strategy •Distributed leadership This book goes deeper to show how these strategies are working in the real-world today. When workers have stakes, everyone scores: businesses surge, and teams ride a high they've never felt before. This is a win-win proposition: both management and labor win when you put people first.

program at midline. It first provides background on the evaluation, including details on the program and interventions. It then relates first-order, second-order, and third-order outcomes of interest in a conceptual framework, which guides our analysis and structures the report. The report next describes the evaluation design, sampling, and data collection process. It then presents statistics on beneficiaries' experience with the CTs and AM. Last, it uses the baseline and midline data, exploiting the randomized design, to estimate the impacts of the program on its beneficiary population at midline, distinguishing between household-level outcomes and child-level outcomes. Given that the baseline report showed that the randomization process was successful at creating similar groups for comparison for the impact evaluation with similar preprogram characteristics, the impacts at midline can be interpreted as truly caused by the program rather than simply correlated with its receipt.
