Overweight children are falling prey to a host of "adult" diseases, and many are taunted, teased, and bullied because of their appearance. Adults are not immune to this discrimination, as they are also

“sized-up” when searching for a date or seeking a career. These painful emotions often cause both children and adults, not only to feel sad or upset, but also inferior and insecure. As these physical, emotional, and social problems intensify, feelings of unhappiness may also increase. Habits instilled in your children now often follow them into their future. In helping them, you will be helping yourself, because what works for them will work for you too, if you need a nudge in this direction. I'M HUNGRY!
