Frisco ISD Teacher Salary Structure

The salary structure for teachers in Frisco ISD is designed to be competitive and transparent, providing clear guidelines based on educational qualifications and years of experience. The district employs a step-and-lane salary schedule, a common system in Texas, where "steps" represent years of teaching experience and "lanes" correspond to the teacher's level of education beyond a bachelor's degree.

Base Salary and Steps

Teachers in Frisco ISD start with a base salary that increases incrementally with each additional year of experience. The district sets a minimum starting salary to attract new teachers, which is typically higher than the Texas average. Each subsequent year on the pay scale, or "step," adds a predetermined amount to the base pay, rewarding longevity and commitment to the district.

Education Lanes

Beyond base pay increases for experience, Frisco ISD rewards teachers who pursue further education. Teachers holding a master's degree, master's plus additional graduate hours, or a doctorate degree are placed into higher "lanes" on the salary schedule. These lanes offer salary bumps that reflect the increased qualifications and expertise brought to the classroom.

Example Salary Schedule Overview

- Step 1 (0 years experience) with Bachelor's Degree: Starting salary around \$56,000
- Step 10 (10 years experience) with Master's Degree: Salary exceeding \$70,000
- Doctorate degree holders receive additional compensation above Master's lane salaries

frisco isd teacher pay: School Moms Laura Pappano, 2024-01-30 An investigative study of the far-right's attack on education and an on-the-ground look at the parent activist battle, on either side of the debate, to control the future of public schools For well over a century, public schools have been a non-partisan gathering place and vital center of civic life in America—but something has changed. In School Moms, journalist Laura Pappano explores the on-the-ground story of how public schools across the country have become ground zero in a cultural and political war as the far-right have made efforts to seek power over school boards. Pappano argues that the rise of parent activism is actually the culmination of efforts that began in the 1990s after campaigns to stop sex education largely fizzled. Recent efforts to make public schools more responsive and inclusive, as well as the pandemic, have offered openings the far-right have been waiting for to organize and sway parents, who are frustrated and exhausted by remote learning, objections by teachers' unions, and shifting directives from school leaders. Groups like Moms for Liberty and Parents Defending Education are organizing against revised history curricula they have dubbed as "CRT," banning books, pressing for

“Don’t Say Gay” laws, and asserting “parental rights” to gain control over the review of classroom materials. On the other side, progressive groups like Support Our Schools and Red, Wine & Blue are mobilizing parents to counter such moves. Combining on-the-ground reporting with research and expert interviews, School Moms will take a hard look at where these battles are happening, what is at stake, and why it matters for the future of our schools.

frisco isd teacher pay: *Disillusioned* Benjamin Herold, 2024-01-23 Astonishingly important.” —Alex Kotlowitz, The Atlantic Through the stories of five American families, a masterful and timely exploration of how hope, history, and racial denial collide in the suburbs and their schools Outside Atlanta, a middle-class Black family faces off with a school system seemingly bent on punishing their teenage son. North of Dallas, a conservative white family relocates to an affluent suburban enclave, but can't escape the changes sweeping the country. On Chicago's North Shore, a multiracial mom joins an ultraprogressive challenge to the town's liberal status quo. In Compton, California, whose suburban roots are now barely recognizable, undocumented Hispanic parents place their gifted son's future in the hands of educators at a remarkable elementary school. And outside Pittsburgh, a Black mother moves to the same street where author Benjamin Herold grew up, then confronts the destructive legacy left behind by white families like his. Disillusioned braids these human stories together with penetrating local and national history to reveal a vicious cycle undermining the dreams upon which American suburbia was built. For generations, upwardly mobile white families have extracted opportunity from the nation's heavily subsidized suburbs, then moved on before the bills for maintenance and repair came due, leaving the mostly Black and Brown families who followed to clean up the ensuing mess. But now, sweeping demographic shifts and the dawning realization that endless expansion is no longer feasible are disrupting this pattern, forcing everyday families to confront a truth their communities were designed to avoid: The suburban lifestyle dream is a Ponzi scheme whose unraveling threatens us all. How do we come to terms with this troubled history? How do we build a future in which all children can thrive? Drawing upon his decorated career as an education journalist, Herold explores these pressing debates with expertise and perspective. Then, alongside Bethany Smith—the mother from his old neighborhood, who contributes a powerful epilogue to the book—he offers a hopeful path toward renewal. The result is nothing short of a journalistic masterpiece.
