FOR THE SCOTT MONCRIEFF PRIZE It's 1970, and in the People's Republic of Congo a Marxist-Leninist revolution is ushering in a new age. But at the orphanage on the outskirts of Pointe-Noire where young Moses has grown up, the revolution has only strengthened the reign of Dieudonné Ngoulmoumako, the orphanage's corrupt director. So Moses escapes to Pointe-Noire, where he finds a home first with a larcenous band of Congolese Merry Men and then among the Zairian prostitutes of the Trois-Cents quarter. But the authorities won't leave Moses in peace, and intervene to chase both the Merry Men and the Trois-Cents girls out of town. All this injustice pushes poor Moses over the edge. Could he really be the Robin Hood of the Congo? Or is he just losing his marbles? Vivid, exuberant and heartwarming, *Black Moses* is a vital new extension of Alain Mabanckou's extraordinary, interlinked body of work dedicated to his native Congo, and confirms his status as one of our great storytellers.

**i am all out of health manga:** Narrative Inquiry into Language Teacher Identity Takaaki Hiratsuka, 2022-03-15 This book provides insights for both native language teachers and local language teachers alike who conduct team-taught lessons by revisiting the topic of foreign assistant language teachers (ALTs), the Japan Exchange and Teaching (JET) program, and team teaching. This book is innovative in that (a) it is the first to elucidate ALTs' experiences comprehensively, across both historical time (i.e., prior to, during, and after the JET program) and social space (i.e., inside and outside the school), thereby revealing their multiple identities that they come to construct and reconstruct over time, and (b) it explores the meanings and perspectives of particular phenomena that ALTs experience within their specific social settings from their own individual points of view. This inquiry does this by using personal narrative accounts gathered from multiple participants. Through these narrative accounts, Hiratsuka formulates a conceptualization of ALT identity, an effort that has hitherto been neglected. As a consequence, this book offers several practical and empirical applications of the conceptualization to future endeavors involving native language teachers and those who engage with them, including the key stakeholders of local language teachers, their local boards of education, the governments, and language learners across the globe.
