Olson, 2021-03-24 In The American Dream for Students of Color, the tenets of the American Dream as a merit narrative enacted in schools are examined to better understand how beliefs about talent, hard work, and perseverance support the status quo rather than critical analyze barriers to educational success for students of color and students from a poverty context. Using narrative methodologies, this book explores the connections and consistencies within and between their personal narratives and the narratives of school youth and educators that work with them. Based on analysis of these shared stories, the authors argue for the importance of moving from individualized success stories that reify hard work and perseverance to collective, communal stories that serve to break down myths of meritocracy, critically examine inequities, and move educational advocates forward in authentic, audacious, hopeful ways.

i have a dream speech for kids: School Resegregation John Charles Boger, Gary Orfield,

2009-11-13 Confronting a reality that many policy makers would prefer to ignore, contributors to this volume offer the latest information on the trend toward the racial and socioeconomic resegregation of southern schools. In the region that has achieved more widespread public school integration than any other since 1970, resegregation, combined with resource inequities and the current accountability movement, is now bringing public education in the South to a critical crossroads. In thirteen essays, leading thinkers in the field of race and public education present not only the latest data and statistics on the trend toward resegregation but also legal and policy analysis of why these trends are accelerating, how they are harmful, and what can be done to counter them. What's at stake is the quality of education available to both white and nonwhite students, they argue. This volume will help educators, policy makers, and concerned citizens begin a much-needed dialogue about how America can best educate its increasingly multiethnic student population in the twenty-first century.
