**math with mr byers: *The Necessary Hunger*** Nina Revoyr, 2021-05-26 Two inner-city girls tackle love, basketball, high school graduation, and an uncertain future in this coming-of-age novel by the author of *Wingshooters*. *The Necessary Hunger* follows two basketball stars—Nancy Takahiro and Raina Webber—and several of their friends through their last year of high school. For some of them, their senior year will be full of glory, and the anticipation of college. For others, however, stranded in an inner-city Los Angeles neighborhood that promises little in the way of opportunity, it will mark not only the end of their time in school but also the end of their hope. As Nancy and Raina both prepare to leave the urban neighborhood that has nurtured them, they find themselves looking toward a future that is no longer easily defined. *The Necessary Hunger* is about families, friendship, racial identity, and young people who are nearing adulthood in a dangerous and challenging world. It is about sports as a means of salvation, about the nature of competition, and ultimately about the various kinds of love. Our reissue of *The Necessary Hunger* includes a new introduction by Lynell George, and a new afterword by Nina Revoyr. Praise for *The Age of Hunger* A wholesome coming-of-age novel about two lesbian high-school basketball stars, Revoyr's debut is a meditation on consuming passion and a reflection on lost opportunities. — Publishers Weekly A quietly intimate, vigorously honest, and uniquely American hoop dream: tough and tender, without a single false note. — Kirkus Reviews *The Necessary Hunger* is absolutely pioneering: it may be the first work by an out, queer Asian American writer to be published out of a major press AND for that work to include a major queer Asian American lesbian courtship plot. The interracial dynamics and high school sporting plot all make for an engaging work, one well worthy of retaining in print forever! —Asian American Literature Fans [Revoyr's] characters are diverse and full of vulnerabilities, passion, and drive, and it is commendable to see a gay, Asian-American, female athlete as the protagonist . . . All in all, the story is worth reading to experience the racial tensions and teenage gay love and angst in a city that is growing restless. —The Eclectic Review
