medicine crow middle school: Literature for Young Adults Joan L. Knickerbocker, 2017-03-15 Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, Literature for Young Adults includes chapters on literary nonfiction; poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that, while films can be used to complement print literature, they are also a literacy format in their own right-and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language--including traditional elements as well as metafictional terms--enables readers to share in a literary conversation with their students (and others) when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.

medicine crow middle school: Reproduction on the Reservation Brianna Theobald, 2019-08-20 This pathbreaking book documents the transformation of reproductive practices and politics on Indian reservations from the late nineteenth century to the present, integrating a localized history of childbearing, motherhood, and activism on the Crow Reservation in Montana with an analysis of trends affecting Indigenous women more broadly. As Brianna Theobald illustrates, the federal government and local authorities have long sought to control Indigenous families and women's reproduction, using tactics such as coercive sterilization and removal of Indigenous children into the white foster care system. But Theobald examines women's resistance, showing how they have worked within families, tribal networks, and activist groups to confront these issues. Blending local and intimate family histories with the histories of broader movements such as WARN (Women of All Red Nations), Theobald links the federal government's intrusion into Indigenous women's reproductive and familial decisions to the wider history of eugenics and the reproductive rights movement. She argues convincingly that colonial politics have always been — and remain — reproductive politics. By looking deeply at one tribal nation over more than a century, Theobald offers an especially rich analysis of how Indigenous women experienced pregnancy and motherhood under evolving federal Indian policy. At the heart of this history are the Crow women who displayed creativity and fortitude in struggling for reproductive self-determination.

medicine crow middle school: Navigating Trumpworld Lowell Greathouse, 2025-08-26 Public life in the United States is changing dramatically. Longstanding democratic institutions are under attack. Prior political assumptions no longer seem to apply to our current situation. Well-established ethical norms are being challenged on multiple fronts. We are facing a significant spiritual crisis that will determine the future of who we are as a people. This reality is causing many to question what is happening, as they try to navigate what this new day means personally, emotionally, spiritually, and socially. This crisis affects how we relate to each other. In various ways, we have all been touched by the emerging political realities and negative spiritual fallout that are part of Trumpworld's impact on the world. How the hell did we get here? How do we protect and maintain our inner spirits? What can we do to respond to what is happening in meaningful ways? How do we make progress toward creating a healthier, more spiritually grounded society? Navigating Trumpworld explores and examines what the policies, words, and behaviors of the Trump Administration mean to our inner lives and how we can use twelve basic, spiritual practices to ground ourselves, resist what we are witnessing, and find a positive way forward.

medicine crow middle school: Multicultural Literature and Response Lynn Atkinson Smolen, Ruth A. Oswald Ph.D., 2010-12-22 This compelling book emphasizes the critical role of quality multicultural literature and reader response in today's schools and libraries. All students need access to books in which they can see themselves—not just their physical appearance, but their culture and language, as well. Multicultural Literature and Response: Affirming Diverse Voices was written to help teachers and librarians find and use the best multicultural books in the service of reading comprehension and more. Underscoring the necessity of selecting quality literature that authentically, sensitively, and accurately portrays different groups, the book defines multicultural literature and provides a strong argument for its importance in schools and libraries. Expert contributors guide users to multicultural authors and illustrators who portrays U.S. ethnic and cultural groups, and they suggest ways to integrate this literature with writing, fluency

development, storytelling, and audiovisuals. Extensive lists of books and websites that feature multicultural literature, as well as of authors, illustrators, and publishers of multicultural literature, make it easy to include such works in programs across the curriculum.

medicine crow middle school: The Oxford Handbook of Indigenous American Literature

James H. Cox, Daniel Heath Justice, 2014-07-31 Over the course of the last twenty years, Native American and Indigenous American literary studies has experienced a dramatic shift from a critical focus on identity and authenticity to the intellectual, cultural, political, historical, and tribal nation contexts from which these Indigenous literatures emerge. The Oxford Handbook of Indigenous American Literature reflects on these changes and provides a complete overview of the current state of the field. The Handbook's forty-three essays, organized into four sections, cover oral traditions, poetry, drama, non-fiction, fiction, and other forms of Indigenous American writing from the seventeenth through the twenty-first century. Part I attends to literary histories across a range of communities, providing, for example, analyses of Inuit, Chicana/o, Anishinaabe, and Métis literary practices. Part II draws on earlier disciplinary and historical contexts to focus on specific genres, as authors discuss Indigenous non-fiction, emergent trans-Indigenous autobiography, Mexicanoh and Spanish poetry, Native drama in the U.S. and Canada, and even a new Indigenous children's literature canon. The third section delves into contemporary modes of critical inquiry to expound on politics of place, comparative Indigenism, trans-Indigenism, Native rhetoric, and the power of Indigenous writing to communities of readers. A final section thoroughly explores the geographical breadth and expanded definition of Indigenous American through detailed accounts of literature from Indian Territory, the Red Atlantic, the far North, Yucatán, Amerika Samoa, and Francophone Quebec. Together, the volume is the most comprehensive and expansive critical handbook of Indigenous American literatures published to date. It is the first to fully take into account the last twenty years of recovery and scholarship, and the first to most significantly address the diverse range of texts, secondary archives, writing traditions, literary histories, geographic and political contexts, and critical discourses in the field.

medicine crow middle school: Teaching in the Middle and Secondary Schools

Richard Dean Kellough, Jioanna Carjuzaa, 2009 This practical, performance based methods text for middle and second school pre-service teachers is organized around four developmental components: Why-gives the rationale to support the components that follow What-what you will be teaching How-how you will teach it How well-how well you are teaching it. Organized into four parts that are then split up into ten modules, the text begins with a history of education going back to colonial times. The modules then cover the many and varied aspects of teaching pre and early adolescents, such as teaching students with exceptionalities, classroom management, diversity, instructional planning, using technology in the classroom, assessing student achievement, and self-assessment and continued professional development. The authors contend that the best teacher is one who has an eclectic style and can monitor their own progress and make changes and adapt their strategies if they are not succeeding. The ninth edition has been carefully updated to reflect the diversity and current topics in the field today. The book is a valuable resource for students today and as a reference for many years to come. New To This Edition: NEW! Improved balance of content between middle and secondary schools-this emphasizes that middle school is uniquely different from both high school and the traditional junior high school and that pre-and early adolescence is different from late adolescence. NEW! Technology has been integrated throughout every module of the book-New features including "Teaching Scenarios," "Activities," and "Technology Rich" features were added to all modules. NEW! Contributions from pre-service and in-service middle and secondary school teachers, teacher educators, and educational researchers have been added--to strengthen the tie between theory and practice.

medicine crow middle school: Law and Justice on the Small Screen Peter Robson, Jessica Silbey, 2012-08-01 'Law and Justice on the Small Screen' is a wide-ranging collection of essays about law in and on television. In light of the book's innovative taxonomy of the field and its international reach, it will make a novel contribution to the scholarly literature about law and popular culture. Television shows from France, Canada, the United Kingdom, Germany, Spain and the United States are discussed. The essays are organised into three sections: (1) methodological questions regarding the analysis of law and popular culture on television; (2) a focus on genre studies within television programming (including a subsection on reality television), and (3) content analysis of individual television shows with attention to big-picture jurisprudential questions of law's efficacy and the promise of justice. The book's content is organised to make it appropriate for undergraduate and graduate classes in the following areas: media studies, law and culture, socio-legal studies, comparative law, jurisprudence, the law of lawyering, alternative dispute resolution and criminal law. Individual chapters have been contributed by, among others: Taunya Banks, Paul Bergman, Lief Carter, Christine Corcos, Rebecca Johnson, Stefan Machura, Nancy Marder, Michael McCann, Kimberlianne Podlas and Susan Ross, with an Introduction by Peter Robson and Jessica Silbey.

medicine crow middle school: One Vast Winter Count Colin Gordon Calloway, 2020-06-18 This magnificent, sweeping work traces the histories of the Native peoples of the American West from their arrival thousands of years ago to the early years of the nineteenth century. Emphasizing conflict and change, One Vast Winter Count offers a new look at the early history of the region by blending ethnohistory, colonial history, and frontier history. Drawing on a wide range of oral and archival sources from across the West, Colin G. Calloway offers an unparalleled glimpse at the lives of generations of Native peoples in a western land soon to be overrun.

medicine crow middle school: Dialogue with the Past Glenn Whitman, 2004-09-15 Oral history is a marvelous force for empowering young people with a love of history. But educators today may wonder how they might use it to inspire their students while still teaching the necessary curriculum and meeting standards. In Dialogue with the Past Glenn Whitman addresses these concerns from his own rich experience and that of many other teachers and students. He helps readers understand the background and methodology of oral history, guides them in creating and conducting an oral history project in the classroom, and directly addresses the issue of meeting standards. Peppered with useful tips, examples from students and teachers, and reproducible forms, along with a comprehensive bibliography, this book will be a vital and inspirational tool for anyone working with secondary students.
