Doctors gave him three years to live. He was thirty-three years old. As Steve says, he is now ten years past his expiration date. His memoir is the chronicle of a remarkable life, one filled with optimism and joy, despite the trauma and pain and despair he has experienced. Writing using eye-tracking technology, Gleason covers his pre-ALS life through the highs and lows of his NFL career with the New Orleans Saints, where he made one of the most memorable plays in Saints history, leading to a victory in the first post-Katrina home game, uplifting the city, making him a hero, and reflected in a nine-foot bronze statue outside the Superdome. Then came his heartbreaking diagnosis. Gleason lost all muscle function, he now uses Stephen Hawking-like technology to communicate, and breathes with the help of a ventilator. This book captures Gleason

and his wife Michel's unmatched resilience as they reinvent their lives, refuse to succumb to despair, and face his disease realistically and existentially. This unsparing portrait argues that a person's true strength does not reside solely in one's body but also in the ability to face unfathomable adversity and still be able to love and treasure life.

We take on more than we should, we treat everything as urgent, and we attend pointless meetings. This book can help you see where you might be sabotaging your own goals. Time Rich helps you identify where you're losing personal time and mismanaging career time. Through practical productivity tools and techniques, author and entrepreneur Steve Graveski will show you how to be more productive at work, have more time to pursue your personal and life goals, and build a culture that supports achieving objectives without risking burnout. Learn how to: • Identity how you are wasting time • Manage your attention, get into the zone and stay there longer • Prioritise, automate and outsource tasks • Optimise your mind and body Time Rich is a blueprint for recovering your work hours, achieving more and spending time where it matters most. 'Steve Graveski understands something that few leaders have figured out: it's possible to do less and get more done. This book offers a blueprint for working smarter.' Adam Grant, New York Times best-selling author of *Originals* and *Give and Take*, and host of the chart-topping TED podcast *WorkLife* 'Time isn't money; it's something of far more value. Graveski makes the case that we ought to be protecting our time much more than we protect other resources. And best of all, he shows you how.' David Burkus, author of *Under New Management* 'Steve Graveski offers countless ways to get more out of each day by being Time Rich.' Nir Eyal, best-selling author of *Hooked* and *Indistractable* 'Time Rich by Steve Graveski makes a compelling argument for abandoning the archaic historical artefact of an 8 hour work-day (or any other arbitrary sum of time) as outmoded and irrelevant to the way we live and do our best work today. Graveski offers both big ideas and specific techniques to contain or eliminate such time-snatching demons as meetings, email and social media. Reclaim the value of your time by forsaking the management of it and learning instead to manage energy, efficiency and attention — inputs with far greater impact on output and outcomes, not to mention quality of life.' Whitney Johnson, award-winning author of *Disrupt Yourself* and *Build an A-Team* 'Time Rich is a fascinating look into why we're all so 'busy' — and how to gain back our most precious resource. Whether you're a

beginner or a seasoned productivity geek, this book will change your life.' Jonathan Levi, author, podcaster, and founder of SuperHuman Academy 'A very worthwhile read for ambitious professionals to achieve that elusive work-life holy grail: being present and engaged at home without sacrificing anything on the work front — and even, perhaps, becoming more productive than you ever thought you could be.' Andy Molinsky, award-winning author of *Global Dexterity* and *Reach*
