medina last name history: Five Hundred Years of Lgbtqia+ History in Western Nicaragua Victoria González-Rivera, 2024 This groundbreaking book reframes five hundred years of western Nicaraguan history by giving gender and sexuality the attention they deserve. Victoria González-Rivera decenters nationalist narratives of triumphant mestizaje and argues that western Nicaragua's LGBTQIA+ history is a profoundly Indigenous one. In this expansive history, González-Rivera documents connections between Indigeneity, local commerce, and femininity (cis and trans), demonstrating the long history of LGBTQIA+ Nicaraguans. She sheds light on historical events, such as Andres Caballero's 1536 burning at the stake for sodomy. González-Rivera discusses how elite efforts after independence to modernize open-air markets led to increased surveillance of LGBTQIA+ working-class individuals. She also examines the 1960s and the Somoza dictatorship,

when another wave of persecution emerged, targeting working-class gay men and trans women, leading to a more stringent anti-sodomy law. The centuries prior to the post-1990 political movement for greater LGBTQIA+ rights demonstrate that, far from being marginal, LGBTQIA+ Nicaraguans have been active in every area of society for hundreds of years.

medina last name history: Islam, What You Need to Know in the Twenty-First Century

Ronald Lee Cobb, 2011-08-10 At its core, Islam is a religion of peace. Its very name implies Salaam, Shalom, and Peace. In its first 100 years Islam controlled Spain, all of North Africa, Arabia, and much of the Middle East. Most of its development was peaceful and centered on a Most Merciful Creator of All Things emphasis. Europe would have become Islamic if Charles Martel of France in the West and the City of Vienna in the East, had not halted the spread of Islam. Extremists in the Twenty-First Century have too often wrapped themselves in the flag of Islam while they have repeatedly violated many of the teachings of the Qur'an and of the Hadith. You will find that the stories in this book rarely appear in the headlines of Western news media. These stories and their knowledge will help you find peace. Armed with these facts and this inner peace and knowledge, may you help bring more peace to our planet. The vast majority of the followers of Islam want to live in peace and prosperity. Prosperity can only come through understanding and through peace. May the peace of the Loving Creator be with you always on your spiritual journey through life.

medina last name history: The Origins of Islamic Jurisprudence Harald Motzki, 2021-10-01 The current view among Western scholars of Islam concerning the early development of Islamic

jurisprudence was shaped by Joseph Schacht's famous study on the subject published 50 years ago. Since then new sources became available which make a critical review of his theories possible and desirable. This volume uses one of these sources to reconstruct the development of jurisprudence at Mecca, virtually unknown until now, from the beginnings until the middle of the second Islamic century. New methods of analysis are developed and tested in order to date the material contained in the earliest compilations of legal traditions more properly. As a result the origins of Islamic jurisprudence can be dated much earlier than claimed by Schacht and his school.

medina last name history: The History of the Qur'ān Theodor Nöldeke, Friedrich Schwally, Gotthelf Bergsträsser, Otto Pretzl, 2013-05-10 This first complete translation of Theodor Nöldeke's *The History of the Qur'ān* offers a foundational work of modern Qur'ānic studies to the English-speaking public. Nöldeke's original publication, as revised and expanded over nearly three quarters of a century by his scholarly successors, Friedrich Schwally, Gotthelf Bergsträsser and Otto Pretzl, remains an indispensable resource for any scholarly work on the text of the Qur'ān. Nöldeke's segmentation of the surahs into three Meccan periods and a Medinan one has shaped all subsequent discussions of the chronology of the Qur'ān. The revisions and expansions of Nöldeke's initial discussions of the orthography and variant readings of the text have found a new audience among those contemporary scholars who seek to create a more sophisticated understanding of the Qur'ān's textual development.

medina last name history: Donegan and the Panama Canal Thomas E. Morrissey, 2009-10-06 *Donegan and the Panama Canal* is a fictionalized, first person story of why and how the United States built a canal in Panama in 1903. This story is a sequel to Mr. Morrissey's previous novel of the Spanish-American War, *Donegan and the Splendid Little War*. No one had previously written an historical novel of either of these events. The title character of *Donegan and the Panama Canal* is Patrick Donegan (1875-1958), the son of Irish immigrants to Philadelphia. Donegan belatedly wrote this memoir in 1953, but his grandson Thomas Morrissey did not publish it for another fifty years. Patrick Donegan had previously served on a Spanish merchant ship for two years before its captain stranded him in Santiago de Cuba in 1895. He became a war profiteer during the Cuban revolt against Spain, and wrote propaganda articles for the Cubans before William Randolph Hearst hired him to write for the *New York Journal*. *Donegan and the Splendid Little War* relates how Donegan wrote biased pro-Cuban stories for Hearst. He telegraphed a misleading account of

the explosion of the American battleship Maine, which ultimately caused the United States to declare war on Spain. He accompanied Theodore Roosevelt and the Rough Riders in their famous charge up San Juan Hill. He published an exclusive, eyewitness account of President McKinleys assassination, but Hearst fired him when Joseph Pulitzer discovered that Donegan had written a short poem that may have inspired McKinleys assassin. Donegan left the field of journalism and secretly became a lobbyist for the Panama Canal. Donegan and the Panama Canal tells the story how Hearst ordered Donegan, a year before he fired him in 1901, to sail around South America and disembark at the west coast of Nicaragua. Hearst, a Nicaraguan Canal partisan, did not know that Donegan had already promised Philippe Bunau-Varilla, a French engineer who had served in Ferdinand de Lesseps earlier ill-fated attempt to build a canal in Panama, that he would support a Panama Canal. Captain Michael Healy piloted the ship that carried Donegan during their long journey through the Strait of Magellan to Central America. Donegan traveled through Nicaragua, and interviewed her president and the American minister. He wrote many negative articles about Nicaragua, and warned the American public that many active and dangerous volcanoes flourished in Nicaragua that could easily destroy any canal built there. Hearst appointed Donegan to cover the Washington political scene when he returned to New York. Donegan accompanied Philippe Bunau-Varilla when this French lobbyist promoted the Panama Canal in many speeches throughout the United States. Bunau-Varilla convinced Senator Mark Hanna, President William McKinleys eminence grise, that the Panama site was preferable to Nicaragua. McKinley remained non-committal about where to build the canal, but Senator John Tyler Morgan of Alabama, the chief Nicaragua advocate, viciously attacked Philippe and Donegans Panama site. After Hearst fired him after President McKinleys assassination, Donegan sailed to France where he met William Nelson Cromwell, the legal representative of the Panama Railroad and the New Panama Canal Company. Donegan agreed to work with Cromwell on the canal question although he personally despised him. Donegan conferred with Bunau-Varilla in France, but they quickly returned to America when they heard that Congress would soon vote on whether the canal should be built in Panama or Nicaragua. All seemed lost when the House of Representatives overwhelmingly supported Nicaragua. Bunau-Varilla influenced the French Canal Company to lower the price for its canal concession, and Donegan influenced President Roosevelt, who previously favored Nicaragua, to support the Panama site. Congress had to make the final decision about the canal site. Senator Morgans Committee on Interoceanic Canals supported the Nicaragua Canal. Morgan and other senators argued that no can
