In a globalized world, knowledge about non-North American societies and cultures is a must. *Contemporary World Fiction: A Guide to Literature in Translation* provides an overview of the tremendous range and scope of translated world fiction available in English. In so doing, it will help readers get a sense of the vast world beyond North America that is conveyed by fiction titles from dozens of countries and language traditions. Within the guide, approximately 1,000 contemporary non-English-language fiction titles are fully annotated and thousands of others are listed. Organization is primarily by language, as language often reflects cultural cohesion better than national borders or geographies, but also by country and culture. In addition to contemporary titles, each chapter features a brief overview of earlier translated fiction from the group. The guide also provides in-depth bibliographic essays for each chapter that will enable librarians and library users to further explore the literature of numerous languages and cultural traditions.

Prins, Vasilios Zatse, 2017-04-21 Irving Penn (1917-2009) was among the most esteemed and influential photographers of the twentieth century. Over the course of a nearly seventy-year career, he mastered a pared-down aesthetic of studio photography that is distinguished for its meticulous attention to composition, nuance, and detail. This indispensable book features one of the largest selections of Penn's photographers ever compiled—nearly 300 in all—including famous and beloved images as well as works that have never been published. Celebrating the centennial of Penn's birth, this lavish volume spans the entirety of his groundbreaking career. An enlightening introduction situates his work in the context of the various artistic, social, and political environments and events that affected the content of his photographs. Lively essays acquaint readers with Penn's primary subjects and campaigns, including early documentary scenes and imagery; portraits of cultural figures and celebrities; fashion; female nudes; peoples of Peru, Dahomey (Benin), New Guinea, and Morocco; and still lifes. Rounding out the book are discussions of Penn's advertising pictures and his painstaking printing processes, as well as an illustrated chronology. *Irving Penn: Centennialis* essential for any fan of this artist's work or of the history of twentieth-century photography.

meditation author lawrence nyt: *Thrive* Arianna Huffington, 2014-03-25 #1 NEW YORK TIMES BESTSELLER • Arianna Huffington's impassioned and compelling case for the need to redefine what it means to be successful in today's world—now in a 10th anniversary edition featuring a new preface “A captivating look at what it takes to live a more meaningful, satisfying life. Brimming with passion, supported by science, and crowned with practical insights, Arianna Huffington's exceptional book will transform our workplaces, schools, and families.”—Adam Grant, bestselling author of *Think Again* Arianna Huffington's personal wake-up call came in the form of a broken cheekbone and a nasty gash over her eye—the result of a fall brought on by exhaustion. The cofounder and editor-in-chief of the Huffington Post Media Group—which became one of the fastest growing media companies in the world—and celebrated as one of the world's most influential women, she was, by any traditional measure, extraordinarily successful. Yet as she found herself going from brain MRI to CAT scan to echocardiogram to find out if there was any underlying medical problem beyond exhaustion, she wondered, Is this really what success is like? In the past decade, and especially in today's post-pandemic world, people are realizing there is far more to living a truly successful life than just earning a bigger salary and climbing the career ladder. Our relentless pursuit of the two traditional metrics of success—money and power—has led to an epidemic of burnout and illness, and an erosion in the quality of our relationships, our family life, and, ironically, our careers. In being connected to the world 24/7, we're losing our connection to what truly matters. We need a new way forward. In *Thrive*, Huffington has written a passionate call to arms, as timely today as it was when it was first published more than ten years ago, looking to redefine what it means to be successful in today's world. Huffington likens our drive for money and power to two legs of a three-legged stool. It may hold us up temporarily, but sooner or later we're going to topple over. We need a third leg—a Third Metric for defining success. In this deeply personal book, Huffington talks candidly about her own challenges with managing time and prioritizing the demands of a career and a family, the harried dance that led to her collapse—and to her “aha moment.” Drawing on the latest groundbreaking research and scientific findings in the fields of psychology, neuroscience, and physiology that show the transformative effects of our five foundational daily behaviors—sleep, food, movement, stress management, and connection—Huffington shows us the way to a revolution in our culture, our thinking, our workplaces, and our lives.
