prayer before an interview catholic: *Education, Work and Catholic Life* Anne Keary, 2019-07-12 This book reports on innovative interdisciplinary research in the field of cultural studies. The study spans the early twentieth to twenty-first centuries and fills a gap in our understanding of how girls' and women's religious identity is shaped by maternal and institutional relations. The unique research focuses on the stories of thirteen groups of Australian mothers and daughters, including the maternal genealogy of the editor of the book. Extended conversations conducted twenty years apart provide a situated approach to locating the everyday practices of women, while the oral storytelling presents a rich portrayal of how these girls and women view themselves and their relationship as mothers and daughters. The book introduces the key themes of education, work and life transitions as they intersect with generational change and continuity, gender and religion, and the non-linear transitional stories are told across the life-course examining how Catholic pasts shaped, and continue to shape, the participants' lives. Adopting a multi-methodological approach to research drawing on photographs, memorabilia passed among mothers and daughters, journal entries and letters, it describes how women's lives are lived in different spaces and negotiated through diverse material and symbolic dimensions.

prayer before an interview catholic: *Our Lady of Emmitsburg, Visionary Culture, and Catholic Identity* Jill Krebs, 2015-12-30 This ethnography explores the community of believers in a series of Marian apparitions in rural Emmitsburg, Maryland, asking what it means to call oneself a Catholic and child of Our Lady in this context, what it means to believe in an apparition, and what it means to communicate with divine presence on earth. Believers fashion themselves as devotees of Our Lady in several ways. Through autobiography, they look backward in time to see their lives as leading up to their participation in the prayer group or in some cases moving to Emmitsburg. By observing and telling miracle stories, they adopt an enchanted worldview in which the miraculous becomes everyday. Through relationships with Our Lady, their lives are enriched and even transformed. When they negotiate institutional loyalty and individual autonomy, they affirm their own authority and Catholic identity. Finally, through social media, they expand their devotional networks in ways that shift authority structures and empower individuals. Individuals engage beliefs, practices, and

attitudes both arising from and resisting elements of modernity, religious pluralism and religious decline, empowerment and perceived disempowerment, tradition and innovation, and institutional loyalty and perceived disloyalty to reveal one way of understanding Catholic identity amidst the shifts and flows of modern change.

prayer before an interview catholic: *Transforming Post-Catholic Ireland* Gladys Ganiel, 2016
Transforming Post-Catholic Ireland is the first major book to explore how religion is changing in contemporary Ireland, north and south. It confirms that the Catholic Church's long-standing 'monopoly' has well and truly disintegrated, replaced by a post-Catholic religious 'market' featuring new and growing expressions of Protestantism, as well as other religions. Drawing on island-wide surveys of clergy and laypeople, as well as more than 100 interviews, the book reveals how people of faith are dealing with issues like increased diversity brought by immigration, the historical legacies of religious violence, reconciliation, ecumenism, and the clerical sexual abuse scandals. It shows how people are creating 'extra-institutional' spaces outside of traditional religious institutions, where they are experiencing personal transformation and are working for wider religious, social, and political changes.

prayer before an interview catholic: *Charismatic Practice and Catholic Parish Life* Jakob Egeris Thorsen, 2015-02-04
In Charismatic Practice and Catholic Parish Life - the Incipient Pentecostalization of the Church in Guatemala and Latin America, Jakob Egeris Thorsen offers a detailed ethnographic and theological analysis of the impact of the Catholic Charismatic Renewal on the Catholic Church in the region. Based on fieldwork, this interdisciplinary study examines how Charismatic practice and spirituality permeate both local parish life and the pastoral plans of the Catholic Church in Guatemala and Latin America. The Charismatic Renewal is the largest lay movement in Latin America and has a profound influence on the Catholic Church. This book analyses both the social and ecclesiological consequences of an incipient Pentecostalization of Guatemalan and Latin American Catholicism.

prayer before an interview catholic: *A Sociology of Prayer* Giuseppe Giordan, Linda Woodhead, 2017-05-15
Prayer is a central aspect of religion. Even amongst those who have abandoned organized religion levels of prayer remain high. Yet the most basic questions remain unaddressed: What exactly is prayer? How does it vary? Why do people pray and in what situations and settings? Does prayer imply a god, and if so, what sort? A Sociology of Prayer addresses these fundamental questions and opens up important new debates. Drawing from religion, sociology of religion, anthropology, and historical perspectives, the contributors focus on prayer as a social as well as a personal matter and situate prayer in the conditions of complex late modern societies worldwide. Presenting fresh empirical data in relation to original theorising, the volume also examines the material aspects of prayer, including the objects, bodies, symbols, and spaces with which it may be integrally connected.

prayer before an interview catholic: *The Catholic Church and the Northern Ireland Troubles, 1968-1998* Margaret M. Scull, 2019-09-11
Until surprisingly recently the history of the Irish Catholic Church during the Northern Irish Troubles was written by Irish priests and bishops and was commemorative, rather than analytical. This study uses the Troubles as a case study to evaluate the role of the Catholic Church in mediating conflict. During the Troubles, these priests and bishops often worked behind the scenes, acting as go-betweens for the British government and

republican paramilitaries, to bring about a peaceful solution. However, this study also looks more broadly at the actions of the American, Irish and English Catholic Churches, as well as that of the Vatican, to uncover the full impact of the Church on the conflict. This critical analysis of previously neglected state, Irish, and English Catholic Church archival material changes our perspective on the role of a religious institution in a modern conflict.

prayer before an interview catholic: Balkan Idols Vjekoslav Perica, 2002-07-11 Reporting from the heartland of Yugoslavia in the 1970s, Washington Post correspondent Dusko Doder described a landscape of Gothic spires, Islamic mosques, and Byzantine domes. A quarter century later, this landscape lay in ruins. In addition to claiming tens of thousands of lives, the former Yugoslavia's four wars ravaged over a thousand religious buildings, many purposefully destroyed by Serbs, Albanians, and Croats alike, providing an apt architectural metaphor for the region's recent history. Rarely has the human impulse toward monocausality--the need for a single explanation--been in greater evidence than in Western attempts to make sense of the country's bloody dissolution. From Robert Kaplan's controversial *Balkan Ghosts*, which identified entrenched ethnic hatreds as the driving force behind Yugoslavia's demise to NATO's dogged pursuit and arrest of Slobodan Milosevic, the quest for easy answers has frequently served to obscure the Balkans' complex history. Perhaps most surprisingly, no book has focused explicitly on the role religion has played in the conflicts that continue to torment southeastern Europe. Based on a wide range of South Slav sources and previously unpublished, often confidential documents from communist state archives, as well as on the author's own on-the-ground experience, *Balkan Idols* explores the political role and influence of Serbian Orthodox, Croatian Catholic, and Yugoslav Muslim religious organizations over the course of the last century. Vjekoslav Perica emphatically rejects the notion that a clash of civilizations has played a central role in fomenting aggression. He finds no compelling evidence of an upsurge in religious fervor among the general population. Rather, he concludes, the primary religious players in the conflicts have been activist clergy. This activism, Perica argues, allowed the clergy to assume political power without the accountability faced by democratically-elected officials. What emerges from Perica's account is a deeply nuanced understanding of the history and troubled future of one of Europe's most volatile regions.

prayer before an interview catholic: New Ways of Being Pentecostal in Latin America Martin Lindhardt, 2016-03-23 The explosive growth of Pentecostalism has radically transformed Latin America's religious landscape within the last half century or so. In a region where Catholicism reigned hegemonic for centuries, the expansion of Pentecostalism has now resulted in a situation of religious pluralism and competition, bearing much more resemblance to the United States than to the Iberian motherlands. Furthermore, the fierce competition from Pentecostal churches has inspired significant renewals of Latin American Catholicism, most notably the growth of a Catholic Charismatic movement. However, another and more recent source of religious pluralism and diversity in Latin America is an increasing pluralization and diversification of Pentecostalism itself and of the ways in which individual Pentecostals exercise their faith. By carefully exploring this diversification, the book at hand breaks new ground in the literature on Latin American Christianity. Particular attention is focused on new ways of being Pentecostal and on the consequences of recent transformations of Christianity for individuals, faith communities and societies. More specifically, the chapters of the book look into certain transformations of Pentecostalism such as: theological renewals and new kinds of religious competition between Pentecostal churches; a growing political and civic engagement of Pentecostals; an observed de-institutionalization of Pentecostal religious life and the negotiation individual Pentecostal identities, composed of multiple intra- and extra-ecclesial points of identification; and the emergence of new generations of Pentecostals (children of Pentecostal parents), many of whom have higher levels of education and higher incomes than the previous generations within their churches. In addition, Catholic responses to Pentecostal competition are also addressed in several chapters of the book.

prayer before an interview catholic: The Making of American Catholicism Michael J. Pfeifer, 2021-01-12 Traces the development of Catholic cultures in the South, the Midwest, the West, and the Northeast, and their contribution to larger patterns of Catholicism in the United States Most histories of American Catholicism take a national focus, leading to a homogenization of American Catholicism that misses much of the local complexity that has marked how Catholicism developed differently in different parts of the country. Such histories often treat northeastern Catholicism, such as the Irish Catholicism of Boston, as if it reflects the full history and experience of Catholicism across the United States. The Making of American Catholicism argues that regional and transnational relationships have been central to the development of American Catholicism. The American Catholic experience has diverged significantly among regions; if we do not examine how it has taken shape in local cultures, we miss a lot. Exploring the history of Catholic cultures in New Orleans, Iowa, Wisconsin, Los Angeles, and New York City, the volume assesses the role of region in American Catholic history, carefully exploring the development of American Catholic cultures across the continental United States. Drawing on extensive archival research, The Making of American Catholicism argues that American Catholicism developed as transnational Catholics creatively adapted their devotional and ideological practices in particular American regional contexts. They emphasized notions of republicanism, individualistic capitalism, race, ethnicity, and gender, resulting in a unique form of Catholicism that dominates the United States today. The book offers close attention to race and racism in American Catholicism, including the historical experiences of African American and Latinx Catholics as well as Catholics of European descent.

prayer before an interview catholic: Blessing La Política Carlos Vargas-Ramos, Anthony M. Stevens-Arroyo, 2012-04-23 An essential guide to the new face of electoral politics in America, this book provides an examination of the political mobilization of Latinos and Latinas through the churches and the influence of being of the Catholic faith, enabling an understanding of the social and cultural dynamics at play. Blessing La Política: The Latino Religious Experience and Political Engagement in the United States presents a corrective challenge to the authoritative conclusion by the book Voice and Equality: Civic Voluntarism in American Politics that Latinos are less likely to become involved in politics because of the predominant Catholic beliefs of this demographic. Through comprehensive analysis of the political tendencies of Latinos and Latinas of faith, the findings in this work consistently counterpoint those conclusions from a variety of perspectives and methodologies. The research presented in the book comprises surveys that are national in scope—both of elites, and at the mass level—as well as localized in cities. The authors have also collected ethnographies that are localized in U.S. cities and transnational in nature. The result is both a broad view of Latino politics and religion, and detailed information that provides far more context than is possible in national-level quantitative studies.

prayer before an interview catholic: Sacred Inception Marianne Delaporte, Morag Martin, 2018-06-21 This edited volume explores the intersection of spirituality with childbirth from 1800 to the present day from a comparative perspective. It illustrates how over this time period in much of the world, traditional practices, home births, and midwives have been overshadowed and undermined by male dominated obstetrics, hospitalization, and ultimately the medicalization of the birthing process itself.

prayer before an interview catholic: Rome Sweet Home Kimberly Hahn, Scott Hahn, 2009-09-03 The well-known and very popular Catholic couple, Scott and Kimberly Hahn, have been constantly travelling and speaking all over North America for the last few years about their conversion to the Catholic Church. Now these two outstanding Catholic apologists tell in their own words about the incredible spiritual journey that led them to embrace Catholicism. Scott Hahn was a Presbyterian minister, the top student in his seminary class, a brilliant Scripture scholar, and militantly anti-Catholic ... until he reluctantly began to discover that his enemy had all the right

answers. Kimberly, also a top-notch theology student in the seminary, is the daughter of a well-known Protestant minister, and went through a tremendous dark night of the soul after Scott converted to Catholicism. Their conversion story and love for the Church has captured the hearts and minds of thousands of lukewarm Catholics and brought them back into an active participation in the Church. They have also influenced countless conversions to Catholicism among their friends and others who have heard their powerful testimony. Written with simplicity, charity, grace and wit, the Hahns' deep love and knowledge of Christ and of Scripture is evident and contagious throughout their story. Their love of truth and of neighbor is equally evident, and their theological focus on the great importance of the family, both biological and spiritual, will be a source of inspiration for all readers.

prayer before an interview catholic: Narrative and Stories in Health Care Yasmin Gunaratnam, David Oliviere, 2009-04-09 The use of narrative methods has a long history in palliative care, pioneered by Dame Cicely Saunders, founder of the modern hospice movement, Narrative and Stories in Health Care provides a vibrant, multidisciplinary examination of work with narrative and stories in contemporary health and social care, with a focus on the care of people who are ill and dying. It animates the academic literature with provocative 'real-world' examples from international contributors, including palliative care service users and those working in the social and human sciences, medicine, theology, and the creative arts. Narrative and Stories in Health Care addresses and clarifies core issues: What is a narrative? What is a story? What are some of the main methods and models that can be used and for what purposes? What practical and ethical dilemmas can the methods entail in work with illness, death and dying? As well as highlighting the power of stories to create new possibilities, the book also acknowledges the conceptual, methodological and ethical problems and challenges inherent in narrative work. As the hospice and palliative care movement evolves to meet the challenges of 21st century health care, this fascinating book highlights how narratives and stories can be attended to in ways that are productive, ethical, and caring.

prayer before an interview catholic: Religion, Spirituality and Secularity among Millennials Sarah Wilkins-Laflamme, 2022-08-19 This book explores the world of religion, spirituality and secularity among the Millennial generation in the United States and Canada, with a focus on the ways Millennials are doing (non)religion differently in their social lives compared with their parents and grandparents. It considers the influences exercised on the (non)religious and spiritual landscapes of young adults in North America by the digital age, precarious work, growing pluralism, extreme individualism, environmental crisis, advanced urbanism, expanded higher education, emerging adulthood, and a secular age. Based on extensive primary and secondary quantitative data, complemented with high-quality qualitative research, including interviews and focus groups, this book offers cross-national comparisons between the United States and Canada to highlight the impact of different social environments on the experience of religion, spirituality and secularity among the continent's most numerous generation. As such, it will appeal to scholars of religion and sociology, with interests in religious and societal change as well as in religious practice among young adults.
