What Is the Praying Hands Method?

The praying hands method for curly hair is a styling and detangling technique that involves using the palms of the hands pressed together to smooth product through the hair. This approach mimics the shape of praying hands, hence the name. Unlike traditional finger combing or raking, this method distributes hair products evenly and gently defines curls by clumping strands without causing frizz or breakage. It works well on wet or damp hair and is often used in conjunction with leave-in conditioners, curl creams, or gels.

Originating from natural hair care communities, the praying hands method has become a staple for those seeking to enhance their curl pattern while maintaining moisture. This technique supports a more uniform curl shape and helps reduce the disruption that can occur with rough handling or improper detangling tools.

Step-by-Step Guide to the Praying Hands Method for Curly Hair

Mastering the praying hands method requires a systematic approach to ensure curls are defined and well-moisturized. The following steps provide a clear framework for applying this technique effectively.

1. Start with Clean, Damp Hair

Begin with freshly washed hair or hair that has been thoroughly rinsed and is damp. The hair should be wet enough to allow for product absorption but not dripping with water. This balance is crucial for optimal curl formation and product retention.

2. Section Your Hair

Divide hair into manageable sections depending on thickness and curl density. Typically, four to six sections work well. Sectioning allows for even product distribution and prevents tangling during application.

3. Apply Leave-In Conditioner or Curl Cream

Take an adequate amount of moisturizing leave-in conditioner or curl cream and place it between your palms. This step is crucial for hydration and curl definition.

4. Use the Praying Hands Motion

Press your palms together, sandwiching a section of hair between them. Smooth the product down the length of the hair by sliding your palms from roots to ends. Repeat this motion a few times until the product is evenly spread and curls begin to clump naturally.

5. Repeat for All Sections

Continue this process for each section of hair, ensuring thorough coverage and gentle handling to maintain curl integrity.

6. Finish with Gel or Styling Product

Optionally, apply a lightweight gel or styling product using the same praying hands technique to lock in moisture and enhance hold. This helps reduce frizz and prolong curl definition throughout the day.

Benefits of Using the Praying Hands Method

The praying hands method offers several advantages over traditional detangling and styling techniques, especially for curly hair textures. Understanding these benefits can encourage consistent use of this effective method.

- **Enhanced Curl Definition:** By smoothing product evenly, curls clump naturally, resulting in well-defined ringlets or coils.
- **Reduced Frizz:** Gentle application minimizes hair disruption, preventing cuticle damage that causes frizz.
- **Better Moisture Retention:** Even product distribution ensures hydration reaches all strands, promoting softness and elasticity.
- **Less Breakage:** The technique avoids rough detangling motions, protecting fragile curly hair from unnecessary damage.
- **Improved Styling Control:** The method allows for precise product application, enabling longer-lasting styles.

Best Products to Use with the Praying Hands Method

Choosing the right hair care products enhances the effectiveness of the praying hands method for curly hair. Products that provide moisture, slip, and hold work best in combination with this technique.

Leave-In Conditioners

Hydrating leave-in conditioners with ingredients like glycerin, aloe vera, and natural oils facilitate smooth product application and curl nourishment. These conditioners prepare the hair for styling and improve manageability.

Curl Creams

Curl creams add moisture and definition without weighing curls down. They often contain emollients and humectants to boost softness and maintain shape.

Lightweight Gels

Using a lightweight gel after applying curl cream can lock in moisture and provide hold. Look for alcohol-free gels to avoid dryness and flaking.

Detangling Sprays

When hair is particularly prone to knots, a detangling spray can be applied before the praying hands method to ease the smoothing process while protecting strands.

Common Mistakes to Avoid

While the praying hands method is straightforward, certain errors can reduce its effectiveness or cause damage to curly hair. Awareness of these pitfalls ensures optimal results.

1. **Applying Product to Dry Hair:** The method works best on damp hair; dry hair may not absorb product evenly, leading to frizz and uneven curls.
2. **Using Too Much Product:** Overloading hair can cause buildup and weigh curls down, resulting in limp or greasy appearance.
3. **Rough Handling:** Pressing too hard or aggressively pulling hair can cause breakage, defeating the purpose of gentle care.
4. **Skipping Sectioning:** Trying to apply product to the entire head at once often leads to uneven distribution and missed spots.
5. **Neglecting Sealants:** Failing to use a gel or oil after moisturizing may cause curls to dry out quickly and lose shape.

Additional Tips for Maintaining Healthy Curly Hair

Beyond the praying hands method, maintaining curly hair health requires consistent care and protective practices. Implementing these tips supports long-term hair vitality and beautiful curls.

- **Use a Satin or Silk Pillowcase:** These materials reduce friction during sleep, minimizing breakage and frizz.

- **Avoid Heat Styling:** Excessive heat can damage curl structure; if necessary, use heat protectants and low temperatures.
- **Deep Condition Regularly:** Weekly deep conditioning treatments replenish moisture and strengthen strands.
- **Trim Split Ends:** Regular trims prevent damage from traveling up the hair shaft, maintaining healthy curls.
- **Limit Shampoo Frequency:** Over-shampooing can strip natural oils; consider co-washing or gentle sulfate-free shampoos.

Frequently Asked Questions

What is the praying hands method for curly hair?

The praying hands method is a technique used to apply hair products to curly hair by smoothing the product between the palms and fingers before gently pressing it onto the hair, reducing frizz and enhancing curl definition.

How do you perform the praying hands method on curly hair?

To perform the praying hands method, dispense your leave-in conditioner or styling product into your palms, rub your hands together, then smooth the product over your hair by pressing your palms flat over your curls from root to tip without rubbing or scrunching.

What are the benefits of using the praying hands method for curly hair?

The benefits include better product distribution, reduced frizz, enhanced curl definition, and less hair breakage since it avoids rough handling of curls compared to scrunching or raking methods.

Can the praying hands method be used with all types of curly hair?

Yes, the praying hands method is suitable for all types of curly hair, from loose waves to tight coils, as it gently applies product without disturbing the natural curl pattern.

Which products work best with the praying hands method?

Leave-in conditioners, curl creams, and styling gels or mousses work best with the praying hands method because they can be evenly distributed and help define curls without causing buildup.

Should the praying hands method be done on wet or dry hair?

The praying hands method is typically done on wet or damp hair to lock in moisture and ensure even product distribution, which helps in defining curls and minimizing frizz.

Is the praying hands method better than scrunching for curly hair?

The praying hands method is often gentler than scrunching, as it smooths the product over curls without disturbing their pattern, making it better for reducing frizz and maintaining curl integrity, though some may combine both methods depending on hair type.

How often should I use the praying hands method in my curly hair routine?

You can use the praying hands method every time you apply styling products, usually after washing your hair, to ensure even product application and maintain healthy, well-defined curls.

Does the praying hands method help reduce frizz in curly hair?

Yes, by gently smoothing products over the hair without rough handling, the praying hands method helps to seal the cuticle and reduce frizz, resulting in smoother, more defined curls.

In a new novel called "searingly fresh... A Nabokovian cat's cradle" on the cover of The New York Times Book Review, the internationally bestselling author tells the provocative story of artist Harriet Burden, who, after years of having her work ignored, ignites an explosive scandal in New York's art world when she recruits three young men to present her creations as their own. Yet when the shows succeed and Burden steps forward for her triumphant reveal, she is betrayed by the third man, Rune. Many critics side with him, and Burden and Rune find themselves in a charged and dangerous game, one that ends in his bizarre death. An intricately conceived, diabolical puzzle presented as a collection of texts, including Harriet's journals, assembled after her death, this "glorious mashup of storytelling and scholarship" (San Francisco Chronicle) unfolds from multiple perspectives as

Harriet's critics, fans, family, and others offer their own conflicting opinions of where the truth lies. Writing in Slate, Katie Roiphe declared it "a spectacularly good read...feminism in the tradition of Simone de Beauvoir's *The Second Sex* or Virginia Woolf's *A Room of One's Own*: richly complex, densely psychological, dazzlingly nuanced." "Astonishing, harrowing, and utterly, completely engrossing" (NPR), Hustvedt's new novel is "Blazing indeed:...with agonizing compassion for all of wounded humanity"(Kirkus Reviews, starred review). It is a masterpiece that will be remembered for years to come.
