prairie view a m university psychology: Police and YOUTh Everette B. Penn, Shannon A. Davenport, 2022-02-02 This book brings the knowledge gained from the Teen And Police Service Academy (TAPS), which has been implemented internationally to create partnerships with at-risk teens and police, proactively addressing some of the most pressing conditions in their communities. Readers will learn about the nuances of both youth culture and police culture and will better understand the conflict stemming from race and social class. Straightforward solutions stemming from the President's Task Force on 21st Century Policing are demonstrated to provide useful strategies for communities struggling with police-youth relations. This book is especially germane to Texas schools and law enforcement, which are to comply with Community Safety Education Act of Texas. It mandates instruction for all peace officers, high school seniors, those applying for their driver's license and those required to take corrective driver instruction. Police and YOUTh is ideal as a primer for students, instructors, police officers, and citizens who stand to benefit from improving police-youth relations. It provides the tools needed to educate all parties and ultimately improve relations between police and the communities they serve.

prairie view a m university psychology: Youth Crime and Violence in the Caribbean Camille A. Gibson, Lorna E. Grant, Sherill V. C. Morris-Francis, 2024-01-04 This compilation of works highlights the historical, economic, and human dynamics behind youth offending in the nations of the West Indies. Youth Crime and Violence in the Caribbean offers insights into the slow rate of system change yet leaves readers with an optimistic picture of possibilities. Recent events in Haiti and neighboring Venezuela demonstrate how quickly dynamics in the Caribbean area can shift if crime is not addressed and people increasingly disengage from systems in a manner that allows despots to rise to power. When this happens, the impacts are not localized.

prairie view a m university psychology: Psychology of Black Womanhood Danielle Dickens, Dionne Stephens, 2024-06-05 Psychology of Black Womanhood is the first textbook to provide an authoritative, jargon-free, affordable, and holistic exploration of the sociohistorical and

psychological experiences of Black girls and women in the United States, while discussing the intersection of their identities. The authors include research on young, middle-aged, and maturing women; LGBTQ+ women and non-binary individuals; women with disabilities; and women across social classes. This textbook is firmly rooted in Black feminist, womanist, and psychological frameworks that incorporate literature from related disciplines, such as sociology, Black/African American studies, women's studies, and public health. *Psychology of Black Womanhood* speaks to the psychological study of experiences of girls and women of African descent in the United States and their experiences in the context of identity development, education, religion, body image, physical and mental health, racialized gendered violence, sex and sexuality, work, relationships, aging, motherhood, and activism. This textbook has implications for practice in counseling, social work, health care, education, advocacy, and policy.

prairie view a m university psychology: Early Psychological Research Contributions from Women of Color, Volume 1 Jon Grahe, Michelle Ceynar, Rihana S. Mason, 2023-03-10 *Early Psychological Research Contributions from Women of Color, Volume I*, collects the dissertations of 20 cultural pioneers: women of color who were among the first to earn their doctorate degrees in psychology. Collectively, these chapters offer an important resource to diversify the history of psychology. This book is structured so that each chapter provides a biographical sketch of the woman, a summary of the dissertation, a reproducibility critique, a discussion about a modern alternative theory or methodological approach associated with the work (feminist theory, ethnopsychology, liberation psychology, etc.), and examples of how the dissertation can be used as instructional content in psychology and related disciplines offers suggestions for classroom use. The dissertations were completed as early as 1912 and as late as 1979 with the range reflecting differences in when women of certain groups could access education. The topics also range broadly across the breadth of the field of psychology, including physiological, cognitive, developmental, social, clinical, and more topics. The diversity of the work collected here will allow this book to be used to augment coursework either as a complete collection or as individual chapters. Instructors and students in undergraduate and graduate Research Methods courses will find this a crucial text in maintaining a true and inclusive historical perspective of psychological research. Additionally, due to the inclusion of research spanning the breadth of Psychology, this edited volume will appeal to scholars both across the discipline and in related fields, such as Women's Studies, Cognitive Science, Education, and Cultural Studies.

prairie view a m university psychology: Global Africans Toyin Falola, Cacee Hoyer, 2017-01-20 Black, African, African descendant and of African heritage, are just some of the ways Africans and Africans in the diaspora (both old and new) describe themselves. This volume examines concepts of race, ethnicity, and identity as they are ascribed to people of colour around the world, examining different case studies of how the process of identity formation occurred and is changing. Contributors to this volume, selected from a wide range of academic and cultural backgrounds, explore issues that encourage a deeper understanding of race, ethnicity and identity. As our notions about what it means to be black or of African heritage change as a result of globalization, it is important to reassess how these issues are currently developing, and the origins from which these issues developed. *Global Africans* is an important and insightful book, useful to a wide range of students and scholars, particularly of African studies, sociology, diaspora studies, and race and ethnic studies.

prairie view a m university psychology: The Critical Analysis E. D. Johnson, 2012-10-18 As a concerned African American, my primary goal is to correct uninformed impressions and misperceptions of our community that have persisted from emancipation to this day. It is time to correct misperceptions and debunk cultural myths that have held back many in the black community, while setting the record straight for informed opinions about us in moving forward responsibly with the rest of the world. Let us explore how anyone can make a difference—by getting the facts straight and to speak up.

prairie view a m university psychology: Serenity for Leaders E.D. Johnson, 2011-10-12 As

leaders we have to constantly step up the plate. Seems there are always fires to put out. There is always customer service that could have used more care in packing fragile items so they do not break in transit. A computer installation that isn't completed satisfactorily so it needs redoing all over again while losing more person hours in the process. Situations similar to this can keep me running on empty for long hours. Make me lose my cool. Feel bumped out. These are all less than positive situations and vibes that keep a person down. Something happened; however, as I kept thinking about staying focused and productive with team building so team members would enjoy working together. We need to make WORK an appealing lifestyle condition so people like coming to work. It is a known fact that we spend at least one-third of our lives with our co-workers. Therefore, I'm motivated to write another book on Serenity. My first book, *Serenity: 30 Days to Rebalance Body-Mind-Spirit*, inspires readers to meditate for self-enrichment, enjoy quiet time and rediscover their true potential from their inner source of, Serenity. This book, *Serenity for Leaders: 30 Days to Honing True Leadership*, is aimed at leaders of all stripes: pastors, military rank, corporate executives, school teachers, nursing staff managers, government agency supervisors, small business owners—anyone looking to develop a strong inner foundation based on serenity, poise and inner peace. Any reader interested in human relationships will find this book helpful for day-to-day living. Learning and mastering leadership skills are not only for appointed leaders. More significantly, leadership skills translate to self-mastery in understanding self and others and is key to enhancing a quality work-life balance.

prairie view a m university psychology: *The Cambridge Handbook of Psychology and Legal Decision-Making* Monica K. Miller, Logan A. Yelderman, Matthew T. Huss, Jason A. Cantone, 2024-02-28 Presenting state-of-the-art research, this Handbook summarises emerging and establishing topics in the area of legal decision-making. Interdisciplinary in its approach, it covers decisions made within the criminal justice system, the trial process, and clinical settings. Chapters, written by accomplished academics and experts in the field, synthesize historical context, identify gaps in existing literature, propose future directions of study, and discuss policy limitations. It also includes 'perspectives from the field' essays written by professionals - a judge, an attorney, a police officer, a trial consultant, and a probation officer - to bridge the gap between academic research and its application to the real world. It is intended as a go-to resource for students and researchers who want to immerse themselves in a body of scientific research to understand its history and shape its future.

prairie view a m university psychology: *The Evolution of Ethics in America* Laurence Armand French, 2021-11-18 In this book, Laurence Armand French frames the emergence of medical, clinical, and legal ethical standards within the long history of institutional and systemic racial and gender biases in the United States. He explores the role that White privilege and elitism play in justifying long-held discriminatory practices ranging from the eugenics crusade a century ago to the #MeToo and Black Lives Matter (BLM) movements of today. This book identifies and analyzes events highlighting systemic racism in the United States and explores how these events were exacerbated during the presidency of Donald J. Trump. The evolution of ethical standards in the United States is a reaction to long-held practices that discriminate against certain classes of people based on gender, age, and race and ethnicity. The White supremacist worldview contributed to systemic biases that directly affect people of color as well as women, and those biases, in turn, are inherent components of the social structure of economic, academic, and judicial institutions. This process impacts both procedural and social justice, the very foundation of ethical standards of which our Constitution is based. This work attempts to unravel the social and psychological aspects of human behavior contributing to this phenomenon. This concise yet comprehensive book is a valuable resource to a broad audience, including students of criminal justice, as well as scholars, researchers, and professionals in both the social and physical sciences.

prairie view a m university psychology: *Muhammad Ali in Africana Cultural Memory* James L. Conyers, Jr., Christel N. Temple, 2022-01-11 One critical priority of the discipline of Africana studies is applied memory, specifically, how the record of the culture's survival and agency

reveals usable and reproducible knowledge and behavior. In terms of how Muhammad Ali, as an historical actor, has left an heroic legacy that bequeaths to us a sort of inheritance, the critical task at hand is to systematically explore this historical actor's life, feats, philosophy, grit, worldview, and even his folkloric antihero to decipher his Africana cultural memory value. At the core of this edited collection is a commitment to enhance the cultural storytelling about Muhammad Ali and to critically itemize the lessons we garner from his life as allegory. The ancestral life is one that is remembered and recalled. The contributors' research uncovers Ali's local, national, and global encounters that are legacy worldviews. These perspectives give us direction for mining the critical depth of Ali's encounters which map his memory in terms of culturally sustaining confidence, self-esteem, reinvention, immortalization, and empathy. These are the fertile seeds of Africana cultural memory which bloom into powerful markers and monuments of an epic life of hyperheroic activity relevant to cultural memory, sports, history, politics, health, and aesthetics.

prairie view a m university psychology: Encyclopedia of Community Corrections Shannon M. Barton-Bellessa, 2012-05 In response to recognition in the late 1960s and early 1970s that traditional incarceration was not working, alternatives to standard prison settings were sought and developed. One of those alternatives -- community-based corrections -- had been conceived in the 1950s as a system that might prove more progressive, humane, and effective, particularly with people who had committed less serious criminal offenses and for whom incarceration, with constant exposure to serious offenders and career criminals, might prove more damaging than rehabilitative. The alternative of community corrections has evolved to become a substantial part of the criminal justice and correctional system, spurred in recent years not so much by a progressive, humane philosophy as by dramatically increasing prison populations, court orders to fix overextended prison settings, and an economic search for cost savings. Encyclopedia of Community Corrections explores all aspects of community corrections, from its philosophical foundation to its current inception. Features & benefits: 150 signed entries (each with cross references and further readings) are organized in A-to-Z fashion to give students easy access to the full range of topics in community corrections; a thematic reader's guide in the front matter groups entries by broad topical or thematic areas to make it easy for users to find related entries at a glance; a chronology in the back matter helps students put individual events into broader historical context; a glossary provides students with concise definitions to key terms in the field; a resource guide to classic books, journals, and web sites (along with the further readings accompanying each entry) guides students to further resources in their research journeys; and appendix offers statistics from the Bureau of Justice.

prairie view a m university psychology: Africana Methodology James L. Conyer, Jr., 2018-10-15 This book critically examines the collection, interpretation, and analysis of quantitative and qualitative data from an Afrocentric perspective. The necessity of interpretive Afrocentric research is relevant to position agency and to locate Africana studies in place, space, and time. This study will provide readers with a compilation of literary, historical, philosophical, and social science essays that describe and evaluate the Africana experience from a methodological perspective. Paradoxically, the collection presents measurable and qualitative research, in order to flush out a global Pan-Africanist consciousness.

prairie view a m university psychology: The Effects of Career Development on Employment

and Recidivism Among Juvenile Offenders Leendert Roos, 2006-06-05 A major failure of the juvenile justice system is to provide youth with career development skills that will ensure their successful entry into the workforce and reduce recidivism. This study had two purposes, which were to first examine the impact of career development on the formation of mature attitudes and competencies for realistic career decision-making for incarcerated youthful offenders, and second to determine the likelihood of gaining employment and the probability of recidivism for this population from participation in career development. A random sample (N = 50) was selected from a population of incarcerated youth offenders, approximately half of which participated in an employment program. The Career Maturity Inventory (CMI) was administered to both groups as pre- and posttests to measure the development of mature attitudes and competencies for realistic career decision-making. Logistic regression analysis was used to test the relationship between 6-month and one-year recidivism and employment with career development training in a sample of 1500 youth assigned to an incarceration facility. The first portion of the study did not produce significant differences from the two t test analysis, however, descriptive differences were noted between the groups. Regression analyses demonstrated that youth participating in a career development program were more likely to be employed at 6 months and one year post-intervention; however, there was no difference in recidivism. While the study had mixed results, this research enriches the ability of juvenile justice officials to prepare juvenile offenders for productive lives through career development programs; thus, increases in employment rates for youthful offenders represents a return on investment for the community.

prairie view a m university psychology: The Routledge Companion to Leadership and Change Satinder K. Dhiman, 2023-03-28 The unique leadership challenges organizations face throughout the world call for a renewed focus on what constitutes authentic, inclusive, servant, transformational, principled, values-based, and mindful leadership. Traditional approaches rarely provide a permeating or systematic framework to garner a sense of higher purpose or nurture deeper moral and spiritual dimensions of leaders. Learning to be an effective leader requires a deep personal transformation, which is not easy. This text provides guidelines in a variety of settings and contexts while presenting best practices in successfully leading the twenty-first century workforce and offering strategies and tools to lead change effectively in the present-day boundary-less work environment. Given the ever-growing, widespread importance of leadership and its role in initiating change, this will be a key reference work in the field of leadership and change management in business. The uniqueness of this book lies in its anchorage in the moral and spiritual dimension of leadership, an approach most relevant for contemporary times and organizations. It represents an important milestone in the perennial quest for discovering the best leadership models and change practices to suit the contemporary organizations. Designed to be a resource for scholars, practitioners, teachers and students seeking guidance in the art and science of leadership and change management, this will be an invaluable reference for libraries with collections in business, management, sports, history, politics, law, and psychology. It will present essential strategies for leading and transforming corporations, small businesses, schools, hospitals, and various nonprofit organizations. It brings the research on leadership and change management up to date, while mapping its terrain and extending the scope and boundaries of this field in an inclusive and egalitarian manner.

prairie view a m university psychology: *The History of Policing America* Laurence Armand French, 2018-04-05 America's first known system of law enforcement was established more than 350 years ago. Today law enforcement faces issues such as racial discrimination, use of force, and Body Worn Camera (BWC) scrutiny. But the birth and development of the American police can be traced to a multitude of historical, legal and political-economic conditions. In *The History of Policing America: From Militias and Military to the Law Enforcement of Today*, Laurence Armand French

traces how and why law enforcement agencies evolved and became permanent agencies; looking logically through history and offering potential steps forward that could make a difference without triggering unconstructive backlash. From the establishment of the New World to the establishment of the Colonial Militia; from emergence of the Jim Crow Era to the emergence of the National Guard; from the creation of the U.S. Marshalls, federal law enforcement agencies, and state police agencies; this book traces the historical geo-political basis of policing in America and even looks at how certain events led to a call for a better trained, and subsequently armed, police, and the de facto militarization of law enforcement. The current controversy regarding policing in America has a long, historical background, and one that seems to repeat itself. The History of Policing America successfully portrays the long lived motto you can't know who you are until you know where you've come from.

prairie view a m university psychology: *School Counselors as Practitioners* Judy A. Nelson, Lisa A. Wines, 2024-06-25 *School Counselors as Practitioners, Second Edition*, is a hands-on, practice-based, task-oriented guide to being an effective school counselor. Thoroughly revised, this textbook continues to address the foundation of school counseling, the main duties of a school counselor, the skills needed to be successful, and what to expect as a school counseling professional. All these topics have been updated to include the current thinking, research and evidence-based practices, and challenges in school counseling. Additionally, interviews of principals, school counselors, and community leaders are included, which provide readers with the reality of how to navigate the waters of the comprehensive school counseling program. The chapter authors also highlight the necessity of designing, implementing, and evaluating the counseling program for continuous improvement. Online resources provide students with templates and handouts for on-the-job responsibilities, as well as quiz questions for every chapter. This updated edition is essential reading for counselor educators, graduate students enrolled in a school counseling program, supervisors of school counselors, including administrators, and practicing school counselors.
