printable black history facts: A Kid's Guide to African American History Nancy I. Sanders, 2007-06-01 What do all these people have in common: the first man to die in the American Revolution, a onetime chief of the Crow Nation, the inventors of peanut butter and the portable X-ray machine, and the first person to make a wooden clock in this country? They were all great African Americans. For parents and teachers interested in fostering cultural awareness among children of all races, this book includes more than 70 hands-on activities, songs, and games that teach kids about the people, experiences, and events that shaped African American history. This expanded edition contains new material throughout, including additional information and biographies. Children will have fun designing an African mask, making a medallion like those worn by early abolitionists, playing the rhyming game Juba, inventing Brer Rabbit riddles, and creating a unity cup for Kwanzaa. Along the way they will learn about inspiring African American artists, inventors, and heroes like Harriet Tubman, Benjamin Banneker, Rosa Parks, Langston Hughes, and Louis Armstrong, to name a few.

printable black history facts: Progressive Racism David Horowitz, 2016-04-26 Progressive Racism is about the transformation of the civil rights movement from a cause opposing racism—the denigration of individuals on the basis of their skin color - into a movement endorsing race preferences and privileges for select groups based on their skin color. It describes the tragic changes of this cause under the leadership of racial extortionists like Al Sharpton, who took a movement in support of American pluralism and turned it into a movement governed by a lynch mob mentality in which white Americans are regarded as guilty before the fact and African Americans are regarded as innocent even when the facts prove them guilty, even when their crimes are committed against other African Americans. The author of Progressive Racism, David Horowitz, is a witness to these events and betrayals. Horowitz was a participant in the civil rights movement of the 1960s, and in 2001 led a national campaign against a proposal for “slavery reparations” that would have required Hispanic, Asian and other Americans who had no role in slavery to pay reparations to African Americans who were never slaves. Progressive Racism examines how the term “racism” has been drained of its original meaning and is now used as a weapon to bludgeon opponents into silence. It describes how the so-called civil rights movement has become an oppressor of African Americans by supporting a failed school system that blights the lives of millions of African American children and a welfare system that has destroyed the black family and created a “underclass” dependent on government charity. It is an indictment of the hypocrisy that today governs discourse on race issues, so that a lynch mob in Ferguson, Missouri seeking to hang a police officer because he was white can be described as a civil rights protest and be supported by the first African American president of the United States.

printable black history facts: Red Sea-Red Square-Red Thread Lydia Goehr, 2022 Designed as a philosophical detective story, Red Sea-Red Square-Red Thread follows the extraordinary number of thinkers and artists who have used the Red Sea anecdote to make so much more than a merely anecdotal point. Leading the large cast are the philosophers, Arthur Danto and Søren Kierkegaard, the poet and playwright, Henri Murger, the opera composer, Giacomo Puccini, and the painter and print-maker, William Hogarth. Strange companions perhaps, until their use of the anecdote is shown as working its extraordinary passage through so many cosmopolitan cities of art and capital. Lydia Goehr explores these narratives of emancipation in philosophy, theology,

politics, and the arts.

printable black history facts: Supporting Reading in Grades 6-12 Sybil M. Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives, beyond the required schoolwork. *Supporting Reading Grades 6-12: A Guide* addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity; Explore characteristics, history, and awards of creative works; Analyze structure and aesthetic features of creative works; Develop a literary-based product; and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities; support classroom teachers' instruction; and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information-skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st-Century Learner.
