Explains not only Why the right answer is right, but also Why the wrong answers are wrong and How to take the bar exam. The bar examination tests legal reasoning: NONE of the four choices might be correct! Likewise, more than one answer may be correct! The examinee must choose the BEST choice of the given choices! In other words, the best answer is not necessarily correct! Furthermore, the least wrong answer is still ... best! This collection brings together a diversity of scholars and practitioners to share their experiences and critically reflect on current practices of teaching international law across different contexts, traditions, and perspectives to develop existing conversations and spark fresh ones concerning teaching practices within the field of international law. Reflecting on the responsibilities of teachers of international law to engage with and confront histories, contemporary crises, and everyday events in their teaching, the collection explores efforts to decenter the teacher and the law in the classroom, opportunities for dialogical and critical approaches to teaching, and the possibilities of co-producing non-conventional pedagogies that question the mainstream underpinnings of international law teaching. Focusing on the tools and techniques used to teach international law to date, the collection examines the teaching of international law in different contexts.
