Overview of Sutter Pain Management Roseville

Sutter Pain Management Roseville is part of the renowned Sutter Health network, known for its commitment to high-quality medical care throughout Northern California. The Roseville facility specializes in pain management, addressing both acute and chronic pain conditions. The center employs multidisciplinary approaches that include medical, physical, and interventional therapies, ensuring comprehensive care. With a team of board-certified pain specialists, the clinic emphasizes evidence-based treatments, patient education, and ongoing support to help individuals regain function and reduce pain intensity.

Mission and Approach

The mission of Sutter Pain Management Roseville is to deliver compassionate, effective pain relief through personalized care plans. The approach focuses on identifying the underlying causes of pain and utilizing the latest medical advancements. Treatments are tailored to each patient's unique condition, lifestyle, and goals, promoting long-term wellness rather than simply masking

symptoms.

Types of Pain Treated

Sutter Pain Management Roseville addresses a wide spectrum of pain conditions affecting various parts of the body. The multidisciplinary team is equipped to manage complex cases involving multiple pain sources and comorbidities. Understanding the different types of pain treated helps patients recognize whether this facility can meet their specific needs.

Chronic Pain

Chronic pain, defined as pain lasting longer than three months, is a common focus at Sutter Pain Management Roseville. Conditions such as arthritis, fibromyalgia, and neuropathic pain are frequently treated. The clinic provides ongoing management strategies to help patients maintain daily activities despite persistent pain.

Acute Pain

Acute pain resulting from injury, surgery, or illness is also managed effectively. Early intervention and appropriate treatment plans can prevent progression from acute to chronic pain, improving recovery outcomes and patient satisfaction.

Specific Conditions

Examples of conditions treated include:

- Lower back and neck pain
- Post-surgical pain
- Headaches and migraines
- Peripheral neuropathy
- Joint pain due to degenerative diseases
- Complex regional pain syndrome (CRPS)

Diagnostic and Treatment Services

Accurate diagnosis is crucial for successful pain management. Sutter Pain Management Roseville offers a variety of diagnostic tools and treatment options designed to address the root cause of pain and provide relief.

Diagnostic Procedures

To establish an accurate diagnosis, the center employs advanced imaging techniques, nerve conduction studies, and physical assessments. These diagnostics help differentiate between various pain etiologies and guide treatment planning.

Interventional Pain Management

Interventional procedures are a core component of treatment at Sutter Pain Management Roseville. These minimally invasive techniques aim to reduce pain through targeted injections or nerve blocks. Common interventional treatments include:

- Epidural steroid injections
- Facet joint injections
- Radiofrequency ablation
- Nerve blocks
- Spinal cord stimulation

Medication Management

The clinic provides carefully supervised medication regimens to control pain while minimizing side effects and dependency risks. This includes the use of non-opioid analgesics, muscle relaxants, and, when necessary, opioid medications under strict protocols.

Physical Therapy and Rehabilitation

Physical therapy is integrated into the treatment plan to improve mobility, strengthen muscles, and reduce pain. Rehabilitation programs are customized based on patient progress and specific pain conditions.

Patient Care and Experience

Sutter Pain Management Roseville prioritizes patient-centered care, ensuring each individual feels heard and supported throughout their treatment journey. The facility fosters a collaborative environment where patients actively participate in decision-making.

Multidisciplinary Team

The care team comprises pain specialists, nurses, physical therapists, and behavioral health experts. This diversity allows for comprehensive management addressing physical, emotional, and psychological aspects of pain.

Patient Education

Educating patients about their conditions and treatment options is a fundamental aspect of care. Empowered with knowledge, patients can better manage their pain and adhere to treatment plans effectively.

Convenience and Accessibility

The Roseville location offers convenient scheduling, modern facilities, and support services to facilitate patient access. Efforts are made to reduce wait times and provide timely follow-up care.

Insurance and Appointment Preparation

Understanding insurance coverage and preparing for appointments can streamline the pain management process at Sutter Pain Management Roseville.

Insurance Compatibility

The center accepts a variety of insurance plans, including major providers and Medicare. Patients are encouraged to verify coverage prior to their visit to understand benefits related to pain management services.

Preparing for Your Appointment

Effective preparation improves the quality of the consultation and diagnosis. Patients should consider the following steps:

1. List all current medications and dosages.

2. Document pain history, including onset, intensity, triggers, and relief factors.
3. Bring previous medical records and imaging studies if available.
4. Prepare questions regarding treatment options, risks, and expected outcomes.
5. Inform the provider about any allergies or previous adverse reactions to treatments.

Francis Riegler, M.D., 2011-11-22 Chronic pain doesn't have to be a life sentence with this accessible guide to pain management and treatment—from identifying your problem areas to finding the right specialist Suffering from chronic pain can be incredibly isolating and frustrating. Visiting doctor after doctor can leave you feeling as if there is no treatment for your pain. If you or a loved one is suffering from chronic pain, this book can be a first step to understanding treatments that can help manage pain. Though doctors have tried to treat patients in pain throughout history, more recently, focused training and certification in pain medicine has resulted in the emergence of a new specialty designed to help people suffering from chronic pain. Pain-Wise also includes expert advice on:

- Identifying what parts of your body are in pain, using a simple anatomy guide
- How to choose a pain specialist that is right for you
- Getting the most out of your doctor's visits
- Basic explanations of common interventional pain management techniques
- How to follow-up on treatment

Written by three doctors with years of experience in pain management, Pain-Wise is a patient's guide to simplifying the confusing and often overwhelming process of finding treatment for chronic pain. It will teach you the basics of how pain works, explain different interventional pain therapies in layman's terms, and help you find a doctor that can manage, and potentially relieve, your chronic suffering.
