swedish institute continuing education: Museum Education for Today's Audiences Jason L. Porter, Mary Kay Cunningham, 2022-02-15 Today's museum educators are tackling urgent social issues, addressing historic inequalities of museum collections, innovating for accessibility, leveraging technology for new in-person and virtual learning experiences, and cultivating partnerships with schools, businesses, elders, scientists, and other social services to build relationships and be of service to their communities. Despite the physical distance the pandemic

placed between museums and their visitors, museum educators have remained essential -- sustaining connections with the public through virtual or modified programming, content development, and conversations that they are uniquely qualified to execute. Educators require updated resources to guide their efforts in navigating these new challenges and building upon the opportunities presented by current events and changing audiences. This book and its accompanying on-line resource share lessons from innovators in the field to support ongoing professional development efforts with essays about current issues. Additionally, it provides new models and tools to guide individual or group reflection on how today's museum educators can adapt and thrive in a dynamic and ever-changing cultural sector. The additional resources include discussion prompts and adaptable templates to allow readers to customize the content based on current events, institutional discipline, size, budget, and staffing scenario of their organization. The book's essays are divided into three sections: Changing expectations of visitors - inclusion, participation, and technology Training and preparation for responsive, resourceful educators Models for the future While a book can share ideas in the hope of inspiring change, the accompanying online resource (www.EvolveMuseumEd.com) provides a more flexible and responsive forum for sharing ongoing and evolving resources to encourage professional development for museum educators as they respond to the changing needs of today's audiences.

swedish institute continuing education: Microemulsions: Structure and Dynamics Stig E. Friberg, Pierre Bothorel, 2018-01-18 This book describes the microemulsion phenomenon in a systematic manner and not only provides an up-to-date introduction to this topic but also serves as the basis for further development in the area. The progress of microemulsion research has taken place in well-defined stages. The introduction period was founded on Schulman's original discovery and was, as expected, focused on the interfacial free energy. Because Schulman obtained his microemulsions from a macroemulsion by the addition of a cosurfactant. The present stage is characterized by an extensively enhanced knowledge about structure and dynamics in these systems. This has led to the realization that the structure of the microemulsions is related both to solutions with critical behaviour and long range order structures, the lyotropic liquid crystals. These two aspects have been elucidated independently by the French groups and by the Lund Spectroscopy group.

swedish institute continuing education: Disaffection And Diversity Judith Calder, 2004-01-14 First Published in 1993. A quiet but profound revolution in the design and delivery of learning opportunities for adults and in the accreditation of learning outcomes is taking place. Higher education is expanding at a rate which exceeds even that of the Robbins era; alternative routes for adults into further and higher education and into training are being introduced through the use of Access courses, and through the recognition of competencies acquired in a whole variety of different ways. The structure of the courses and training which adults can now undertake, the methods of teaching those courses and the types of qualifications which are beginning to be awarded reflect the accelerating social, technological and economic changes in the UK. It is aimed at professionals who are engaged in the management, provision or supervision of organized learning and training opportunities for adults.

swedish institute continuing education: The Small Library Manager's Handbook Alice Graves, 2014-10-16 The Small Library Manager's Handbook is for librarians working in all types of small libraries. It covers the everyday nuts-and-bolts operations that all librarians must perform. Following an introduction, 27 chapters are arranged in six major parts: Management (including staffing, working with volunteers, and annual reports) Marketing (including social networking and how to prove your library's worth to your boss) Money (including budgeting and grant

writing)Services (including reference and circulation)Collection Development (including assessment and weeding), andProfessional Development (including free webinars, YouTube videos, and networking) Each chapter is written by an expert. The chapter authors work in academic, public and special libraries. They work in hospitals, prisons, museums, colleges, courthouses, and corporations. Their libraries consist of books across the Library of Congress or Dewey Decimal system, and they work in specialized libraries that use a limited range of cataloging possibilities. Librarians in small libraries wear many hats. This handbook written by experts who are small librarians themselves will help all small librarians to do multiple jobs at the same time.

swedish institute continuing education: Nordic Tourism Policy Analysis Ragnheiður Elín Árnadóttir, 2019-03-27 Tourism is an important, growing industry in all the Nordic countries, but until recently, it has not had a particularly strong focus within the Nordic cooperation framework. This is changing rapidly, and the Nordic Council of Ministers has given a strong signal that increased emphasis should be placed on tourism issues within the Nordic framework. This project is a result of that important political prioritisation. The key objective of this project is to create a framework on which a Nordic Tourism Strategy can be established. Thus, the desired outcome of the project is to define future strategies and projects that will underscore common opportunities and challenges within Nordic tourism. The objective of a Nordic Tourism Policy Analysis is to provide valuable input to each country's work within tourism as well as laying a foundation for a common Nordic Tourism Policy.

swedish institute continuing education: *Felder's Comprehensive, 2005 Edition* Nick Felder, 2005-07-14 Every industry has its standard professional directory -- advertising has its Black Book, manufacturing its Thomas's Register -- except, that is, for architecture...and design...and construction. While there are dozens of smaller directories, each addressing a specific market niche, none speak to all three industries in a comprehensive way. And larger product directories, like Sweets, are advertising driven and therefore incomplete. Felder's Comprehensive is the first pan-industry guide of its kind, and it is many times more comprehensive than the nearest competitor. It is an annual desk reference, directory, and product source guide with more reference information than any other title currently available. It contains thousands of listings of time-sensitive and timeless reference information for anyone involved in the business or practice of architecture, design, design/build, construction, interior design, facility management, and real-estate development. For example, readers can find listings for more than 12,000 manufacturers of furnishings, fixtures, equipment, and materials listed alphabetically, and, most importantly, by product category. Felder's also lists design competitions, domestic and international trade shows, trade publications and other media, trade associations, professional organizations, and more. Most sections are indexed and cross-referenced for easy referral and identification. Felder's is the first truly comprehensive reference guide of its kind for the A/E/C marketplace and is certain to become the industry standard.
