

swiss development cooperation logo

swiss development cooperation logo holds significant importance in representing Switzerland's commitment to international development and cooperation. This logo is not just a visual symbol but a mark of trust, quality, and collaboration that the Swiss government extends through its various development programs worldwide. Understanding the design, history, and usage of the Swiss Development Cooperation logo offers insights into how Switzerland communicates its global development efforts. This article explores the origins, symbolism, and practical applications of the logo, along with guidelines for its proper use. Additionally, the article highlights the role of the logo in branding and its impact on fostering partnerships in the international development sector. The following sections provide a comprehensive overview of the swiss development cooperation logo, ensuring clarity for organizations and individuals involved in development cooperation activities.

- History and Evolution of the Swiss Development Cooperation Logo
- Design Elements and Symbolism
- Usage Guidelines and Branding Standards
- Importance of the Logo in International Development Cooperation
- Challenges and Considerations in Logo Application

History and Evolution of the Swiss Development Cooperation Logo

The swiss development cooperation logo has evolved over time to reflect changes in Switzerland's international development policies and branding strategies. Initially, the visual identity was closely linked to the Swiss national flag and emblem, emphasizing Switzerland's neutrality and humanitarian values. Over the years, the logo underwent modernization to create a more distinct and recognizable image that aligns with contemporary design standards while maintaining the essence of Swiss values in development cooperation.

Early Designs and Influences

The early logos were simplistic, often incorporating the Swiss cross as a primary element. These designs aimed to convey reliability and neutrality, essential traits for Switzerland's role in peacebuilding and

development. The color scheme typically included red and white, representing the national colors.

Modernization and Rebranding Efforts

In recent decades, the swiss development cooperation logo has been updated to improve visibility and adaptability across various media platforms. The redesign focused on cleaner lines, balanced proportions, and the inclusion of text elements to clearly state the purpose of the organization. This modernization aligns with global trends in branding for international organizations, ensuring the logo is versatile and effective.

Design Elements and Symbolism

The swiss development cooperation logo incorporates several design elements that symbolize Switzerland's values and the mission of its development cooperation programs. Each component of the logo is carefully selected to communicate specific messages to the international community and partner organizations.

Color Palette

The primary colors used in the swiss development cooperation logo are red and white, mirroring the Swiss national flag. Red symbolizes strength, courage, and passion for humanitarian work, while white denotes peace, neutrality, and transparency in development efforts. These colors help the logo stand out and reinforce the Swiss identity globally.

Iconography and Typography

The central icon is often the Swiss cross, an instantly recognizable symbol of Switzerland. Accompanying the icon, the typography used in the logo is clean and professional, typically employing sans-serif fonts that offer clarity and ease of reading. This combination ensures the logo is both authoritative and approachable.

Symbolic Meaning

Beyond aesthetics, the logo represents Switzerland's commitment to fostering sustainable development, promoting human rights, and supporting economic growth in developing countries. The design subtly conveys values such as cooperation, trust, and global solidarity, which are core to Swiss development policies.

Usage Guidelines and Branding Standards

Proper use of the swiss development cooperation logo is critical to maintaining its integrity and ensuring consistent representation across all materials. The organization provides clear guidelines on logo application to partners, media, and internal teams.

Placement and Clear Space

The logo must be placed on clean backgrounds with sufficient clear space around it to avoid visual clutter. This space ensures the logo remains prominent and legible regardless of where it is displayed.

Size and Scalability

The logo is designed to be scalable, maintaining clarity and detail whether displayed on small promotional items or large banners. Minimum size requirements ensure that the logo does not lose its impact or become illegible.

Color Variations and Backgrounds

While the official colors are red and white, monochrome versions may be used in specific contexts where color printing is not feasible. Guidelines specify when and how these variations should be applied to preserve brand consistency.

Prohibited Uses

To protect the logo's brand value, certain uses are prohibited, including distortion, unauthorized color changes, and combining the logo with other symbols without permission. These restrictions help maintain a professional and unified image.

Importance of the Logo in International Development Cooperation

The swiss development cooperation logo serves as more than a visual identifier; it is a symbol of credibility and partnership in the global development arena. Its presence on projects and communications fosters trust among stakeholders and beneficiaries.

Building Trust and Recognition

International partners and local communities recognize the logo as a mark of quality and commitment. This recognition facilitates smoother collaboration and enhances the reputation of Swiss-supported initiatives.

Branding and Communication

The logo plays a vital role in branding Swiss development programs, ensuring that communications are cohesive and instantly identifiable. Consistent use of the logo helps convey clear messaging about Switzerland's role and contributions in development cooperation.

Encouraging Partnerships

The visibility of the swiss development cooperation logo encourages partnerships by signaling Switzerland's active involvement and support in diverse development sectors. It serves as a gateway for collaboration with governments, NGOs, and international organizations.

Challenges and Considerations in Logo Application

Despite its strengths, applying the swiss development cooperation logo in various contexts presents challenges that require careful consideration to avoid misrepresentation or loss of impact.

Cultural Sensitivity

When used in different cultural settings, the logo's symbolism must be respected and adapted appropriately without altering its core design. This ensures the logo is received positively across diverse audiences.

Digital and Print Compatibility

Ensuring the logo appears correctly on digital platforms and printed materials requires attention to technical specifications such as resolution, color profiles, and file formats. Inconsistent reproduction can diminish brand professionalism.

Co-branding with Partner Logos

In joint projects, the swiss development cooperation logo often appears alongside partner logos. Maintaining visual balance and adherence to co-branding guidelines is essential to preserve brand identities and avoid

confusion.

Accessibility and Visibility

The logo must be designed and applied in ways that ensure visibility for all users, including those with visual impairments. This includes contrast considerations and suitable sizing for digital accessibility standards.

- Maintain strict adherence to color and size guidelines
- Ensure adequate spacing to prevent visual clutter
- Avoid unauthorized alterations to preserve brand integrity
- Adapt usage according to cultural and contextual needs
- Coordinate with partners for cohesive co-branding efforts

Frequently Asked Questions

What does the Swiss Development Cooperation logo represent?

The Swiss Development Cooperation logo represents Switzerland's commitment to international development and humanitarian aid, symbolizing partnership, support, and sustainable development.

What are the key elements in the Swiss Development Cooperation logo?

The logo typically features the Swiss cross, which is a national symbol of Switzerland, combined with elements that signify cooperation, such as interconnected shapes or hands, emphasizing collaboration and support.

Where is the Swiss Development Cooperation logo used?

The logo is used on official documents, websites, projects, promotional materials, and communications related to Swiss international development programs and humanitarian initiatives.

Has the Swiss Development Cooperation logo changed over time?

Yes, the logo has undergone updates to modernize its design and better reflect contemporary values of sustainability, partnership, and innovation in development cooperation.

How can organizations partner with Swiss Development Cooperation and use its logo?

Organizations partnering with Swiss Development Cooperation must adhere to specific guidelines and obtain permission to use the logo, ensuring it is displayed appropriately and reflects the partnership accurately.

Where can I find the official Swiss Development Cooperation logo for use?

The official logo can be found on the Swiss Agency for Development and Cooperation's (SDC) website or through official communication channels, often accompanied by branding guidelines for proper use.

Additional Resources

1. *Understanding the Swiss Development Cooperation Logo: History and Symbolism*

This book explores the origins and evolution of the Swiss Development Cooperation (SDC) logo. It delves into the symbolism behind its design elements and colors, explaining how they reflect Switzerland's values and commitment to international development. Readers will gain insight into the logo's role in branding and identity for the organization.

2. *The Visual Identity of Swiss Development Cooperation*

Focusing on graphic design principles, this book examines the visual identity guidelines of the SDC logo. It discusses how the logo is applied across various media and communication materials to maintain consistency and enhance recognition. Practical examples illustrate the importance of a cohesive brand image in development cooperation.

3. *Swiss Development Cooperation: Branding and Global Impact*

This book provides an overview of the SDC's global initiatives and how its logo serves as a mark of trust and quality in international aid. It highlights case studies where the logo has been used to strengthen partnerships and promote sustainable development projects worldwide.

4. *Designing for Development: The Case of Swiss Cooperation*

Exploring the intersection of design and international development, this book uses the SDC logo as a case study to show how thoughtful design can support communication goals. It covers design strategy, cultural sensitivity, and the role of visual elements in fostering global cooperation.

5. *Swiss Development Cooperation: Communication Strategies and Logo Usage*

This guide outlines the communication strategies employed by the SDC, emphasizing the role of the logo in messaging. It includes best practices for logo placement, color schemes, and co-branding with partner organizations to maximize outreach and impact.

6. *The Art and Meaning Behind Swiss Development Cooperation's Logo*

Delving deeper into the artistic aspects, this book analyzes the aesthetic choices in the SDC logo design. It explores how form, color, and typography combine to convey the mission and ethos of Swiss development aid.

7. *Global Development Branding: Lessons from Swiss Cooperation*

This book discusses the broader context of branding in international development, using the SDC logo as a prominent example. It offers lessons on building a recognizable brand that resonates with diverse audiences and supports organizational goals.

8. *Swiss Development Cooperation Logo: A Symbol of Partnership and Progress*

Highlighting the collaborative nature of development work, this book interprets the logo as a symbol of partnership and progress. It showcases stories from projects around the world where the logo has become synonymous with effective and ethical development cooperation.

9. *From Concept to Icon: The Creation of the Swiss Development Cooperation Logo*

This book traces the creative process behind the SDC logo, from initial concept sketches to final approval. It features interviews with designers and stakeholders, offering a behind-the-scenes look at how the logo was crafted to represent Swiss values in international aid.

swiss development cooperation logo: A Swiss Foreign Policy for the 21st Century

Thomas Bernauer, Katja Gentinetta, Joëlle Kuntz, 2022-09-30 Switzerland is facing critical foreign policy challenges. Its relationship with the EU is still unsettled, the geopolitical landscape is changing rapidly, and technological innovation brings additional dynamics into play. This book provides a forward-looking guide for all those concerned with Swiss foreign policy issues, and an overview of Swiss foreign policy along its key areas. It deals, for example, with foreign trade, international financial markets, migration, environmental policy, humanitarian cooperation, and peace promotion and security policy. The contributions are written by academics and practitioners. They shed light on the respective global or regional context in which Switzerland's foreign policy operates, and analyze achievements, challenges, opportunities, and risks as well as potential ways

forward. Published on behalf of the Swiss Society for Foreign Policy. With forewords by Foreign Minister Ignazio Cassis and National Councilor Christa Markwalder, President of the Swiss Society for Foreign Policy, and contributions by: Thomas Bernauer, Fritz Brugger, Aymo Brunetti, Gilles Carbonnier, Francis Cheneval, Cedric Dupont, Katja Gentinetta, Isabel Gunther, Paula Hoffmeyer-Zlotnik, Joelle Kuntz, Sandra Lavenex, Philipp Lutz, Matthias Oesch, Pascal Sciarini, Charlotte Sieber-Gasser, Cedric Tille, Andreas Wenger, Achim Wennmann, Sacha Zala. The German version of «A Swiss Foreign Policy for the 21st Century» is available as «Eine Aussenpolitik für die Schweiz im 21. Jahrhundert».

swiss development cooperation logo: *The Reality of Aid 1996* Judith Randel, Tony German, 2013-11-05 'Should be on the shelf of any academic, student, NGO activist or politician with an interest in aid issues. It should also be required reading for donor agency officials' Development and Change 'As accessible as it is comprehensive has established itself as a reliable 'watchdog' for anyone interested in this important aspect of international relations' ORBIT Despite commitments to eradicate poverty, 21 of the world's richest nations have slashed their aid to the world's poorest countries to just 0.3% of GNP, its lowest level for more than 20 years. In real terms, aid in 1994 was below the 1990 level, and with several donors planning further cuts it is likely that the aid level will continue to fall. Now in its fourth annual edition, *The Reality of Aid* critically examines the reality behind the rhetoric of development assistance, and the discrepancy between the targets that the 21 member countries of the OECD Development Assistance Committee are publically committed to and the aid that is actually disbursed. Part 1 of this year's edition includes analyses of: * the impact of the Copenhagen World Summit for Social Development and '20/20' compact; * developing countries' debt and their Northern creditors, including banks and international financial institutions; * efforts to eradicate poverty, a stated aim of development assistance; * the human and economic cost of the estimated 140 million unexploded landmines currently planted around the world; and * the impact of conflict and humanitarian need on development cooperation. In a new section, Part 2 presents perspectives from the South, with contributors from India, Cambodia, Peru, Zimbabwe, Poland and Fiji. Part 3 consists of detailed, country-by-country profiles of the aid performance of the OECD donors; and Part 4 reviews aid spending by Northern governments and NGOs, with 'at a glance' tables and charts which compare donors' performance on issues such as aid to basic health and education, the priority given to poverty reduction, the political management of aid and public attitudes to aid in developed countries. Throughout, information is summarized in easily interpreted figures and graphs. First produced in 1993, *The Reality of Aid* has established itself as a unique source of independent evaluation and comment on aid policies and developments. It is indispensable for all involved in development aid, whether in the official or voluntary sectors. Originally published in 1996

swiss development cooperation logo: *Closing Rice Yield Gaps in Asia* Melanie Connor, Martin Gummert, Grant Robert Singleton, 2023-10-04 This open access book contributes not only to the scientific literature on sustainable agricultural development and in particular rice agriculture but also is highly valuable to assist practitioners, projects, and policymakers due to its sections on reducing carbon footprint, agricultural innovations, and lessons learned from a multi-country/multi-stages development project. The scope of the book is conceived as a detailed documentation of the implementation, dissemination, and impact of the CORIGAP project in Sri Lanka, Myanmar, Thailand, China, Vietnam, and Indonesia, with spill-over to Cambodia and the Philippines. It pulls together actionable research findings with the experience of bringing these findings into use. The aim of the book is to provide a wide array of pathways to impact for sustainable rice production in lowland irrigated rice-based agricultural systems. The book is written by local actors of the rice value chain, researchers, and engineers working on a range of best management practices, climate-smart rice production innovations, knowledge translation, and dissemination, as well as decision-making and policy aspects. It is envisioned that the contents of the book can be translated into messages that can help farmers, extension workers, policymakers, and funders of agricultural development, decide on implementing best management practices and

climate-smart technologies in their agroecological systems by presenting the technological/practical options along the rice value chain and the partnerships and business models required for their implementation. The book is aimed at practitioners, extension specialists, researchers, and engineers interested in information on current best management practices, sustainable, and climate-smart rice production and constraints that need further investigation. Furthermore, the book is also aimed at policymakers and agricultural development funders required by public opinion and legally binding agreements to reduce greenhouse gas emissions, conserve biodiversity and increase agroecological practices, who are looking for research-based evidence to guide policymaking and implementation.

swiss development cooperation logo: *Conflict Sensitivity in Development, Humanitarian & Peacebuilding Practice* Susanne Schmeidl, Anthony Ware, Claudio Alberti, 2025-03-28 Inspired by Mary Anderson's influential work *Do No Harm* (1999), this book encourages critical reflection on the development and contemporary relevance of conflict sensitivity approaches in international development, humanitarian action and peacebuilding. Despite the widespread acceptance of conflict sensitivity, particularly in the context of worsening crises, there has been a surprising lack of critical discussion and evaluation of the framework and its application. This book fills this gap by bringing together a diverse collection of articles, practice notes and reflections from academics and practitioners in the field of conflict sensitivity. It provides a comprehensive platform for valuable debate, highlighting strengths, areas for improvement and practical guidance for real-world application, based on 25 years of conflict sensitivity/ do no harm practice and innovation. By integrating insights from practitioners, the book aims to bridge the gap between theory and practice. Advocating the systematic integration of conflict sensitivity into humanitarian, development and peacebuilding efforts, the book offers practical guidance for implementation and adaptation in different contexts and programmes. As a valuable resource, it deepens understanding and promotes accountability to the populations that humanitarian, development and peacebuilding actors seek to support, including actors advancing conflict sensitivity in their own contexts. It serves as a springboard for further academic research on conflict sensitivity. This book was originally published as a special issue of *Development in Practice*.

swiss development cooperation logo: *Stakeholders* Ian Smillie, 2013-11-05 This unique study from the OECD Development Centre presents a comprehensive review by independent experts of the relationships and division of responsibility between the 22 member governments of the OECD Development Assistance Committee (DAC), and NGOs from these donor countries, working in international development. Additional chapters cover the roles of the European Union and the World Bank. Among other themes, the book looks at two very significant issues. First, at the way in which an overemphasis on evaluation may be leading NGOs to focus purely on measuring their output, thus choosing activities which are easily accountable. Second, it examines the important impacts of the evolution in the funding relationship between governments and NGOs - from matching grants to contracts - where NGOs must increasingly compete for contracts.

swiss development cooperation logo: *Swiss Foreign Policy* Magdalena Bernath, Laurent Goetschel, Daniel Schwarz, 2004-11-10 The book is essential reading to all those interested in foreign policy analysis, the relationship between democracy and international relations, the significance of being a small state in contemporary Europe and the specificities of the Swiss

swiss development cooperation logo: *Re-establishing Agriculture as a Priority for Development Policy in Sub-Saharan Africa* Awudu Abdulai, Christopher L. Delgado, 1995 Prerequisites and priorities for sustainable economic development. The impact of changing export sector incomes on local rural economies in Sub-Saharan Africa. Macroeconomic policies and the contribution of agriculture to regional economic development. The Uruguay round agreement on agriculture and Sub-Saharan Africa.

swiss development cooperation logo: *The Reality of Aid 1997-1998* Judith Randel, Tony German, 2013-11-05 NOW IN ITS FIFTH ANNUAL EDITION, *The Reality of Aid* continues to present the most comprehensive and rigorous independent analysis available of the aid and development

policies of the world's richest nations, and exposes the gaps between rhetoric and reality. Part I presents a consideration of current issues in development cooperation in the context of globalisation and the increasing importance of private aid flows. Part II gives a full-report on the performance of OECD countries and the European Union over the last year, and also includes a report on the continuing Lom negotiations between the EU and Africa. Part III gives a Southern perspective, with chapters on development and cooperation in Argentina, Central and Eastern Europe, Ghana, Guatemala, Haiti, India, Latin America, Uganda and Zimbabwe. Part IV reviews trends in aid policy and spending by Northern governments and NGOs, with 'at a glance' tables and charts which compare donors' performance on issues such as poverty eradication, gender, emergency relief, leadership and public information. Throughout, information is presented in easily interpreted diagrams and graphs. First produced in 1993, *The Reality of Aid* has established itself as a unique source of independent evaluation and comment on aid policies and development. It is indispensable for all in the field, whether in the official or voluntary sectors. Originally published in 1997

swiss development cooperation logo: A framework for integrated wetland management of Jabbul agro-ecosystem, 2010

swiss development cooperation logo: Stakeholder Relationships And Sustainability Gulnaz Isabekova, 2023-11-20 This open-access book analyses how stakeholder relationships impact the sustainability of health aid. It does this by providing an overarching analytical framework, which allows for a systematic analysis of sustainability, relationships, and a possible causal link between these phenomena. The book goes beyond universal paradigms and detailed single-case studies by offering a thorough analysis of development projects to identify the factors that are also applicable to similar initiatives in comparable contexts. Empirically, it focuses on two health initiatives, both implemented in the Kyrgyz Republic, a country pursuing a sector-wide approach to health aid. Unique primary material provides insights into a geographic region that is mostly neglected, and will be of interest to students and researchers of social policy, development studies, international health and those focusing on the post-Soviet region and Central Asia.

swiss development cooperation logo: International Development Policy Graduate Institute of International and Development Studies, 2012-03-06 International development cooperation is undergoing a revolution. The authors question how far bilateral and multilateral aid agencies succeed in mainstreaming global issues in their operations and assess how emerging and traditional donors address competing objectives, often with diverging rationales. Cases include Brazil, China and South Africa.

swiss development cooperation logo: **CENPHER five year report 2009-2014: From a research project to a research center** Nguyen Viet Hung, Pham Thi Huong Giang, 2014-08-01

swiss development cooperation logo: *Vietnam Environmental Technologies Export Market Plan*, 2001

swiss development cooperation logo: **Re | Shaping Policies for Creativity** UNESCO, 2022-02-18 The Global Report series monitors the implementation of the 2005 Convention on the Protection and Promotion of the Diversity of Cultural Expressions, as well as progress towards achieving the United Nations 2030 Agenda for Sustainable Development, within and with the cultural and creative sectors. Its 2022 edition revolves around two major questions: What is the state of the cultural and creative sectors? What policy changes to promote sustainable, human rights-based systems of governance for culture and equitable access to cultural opportunities and resources have resulted from stakeholders' implementation and ownership of the Convention? In line with the 2015 and 2018 editions, this third edition of the Report presents the latest policy developments to support creativity and sheds light on current and future challenges in areas such as the digital environment, media diversity, sustainable development, mobility of artists and cultural professionals, gender equality and artistic freedom.

swiss development cooperation logo: **Switzerland and Sub-Saharan Africa in the Cold War, 1967-1979** Sabina Widmer, 2021-10-25 In *Switzerland and Sub-Saharan Africa in the Cold War, 1967-1979*, Sabina Widmer analyses Swiss foreign policy in Angola, Mozambique, Ethiopia, and

Somalia in the late 1960s and 1970s, at the crossroads of the global East-West confrontation and decolonisation. Focusing on the independence wars in Angola and Mozambique, the Angolan War and the Ogaden War as well as regime changes that brought Soviet-allied governments to power, this book sheds new light on Switzerland's role in the Third World during the Cold War. Based on extensive multi-archival research, it exposes the limits of neutrality in North-South relations, reveals the growing *marge de manoeuvre* of small states during *Détente*, and highlights the role of non-state actors in the making of foreign policy.

swiss development cooperation logo: *Neutrality and Neutralism in the Global Cold War*

Sandra Bott, Jussi M. Hanhimäki, Janick Schaufelbuehl, Marco Wyss, 2015-12-22 This book sheds new light on the foreign policies, roles, and positions of neutral states and the Non-Aligned Movement (NAM) in the global Cold War. The volume places the neutral states and the NAM in the context of the Cold War and demonstrates the links between the East, the West, and the so-called Third World. In doing so, this collection provides readers an alternative way of exploring the evolution and impact of the Cold War on North-South connections that challenges traditional notions of the post-1945 history of international relations. The various contributions are framed against the backdrop of the evolution of the Cold War international system and the decolonization process in the Southern hemisphere. By juxtaposing the policies of European neutrals and countries of the NAM, this book offers new perspectives on the evolution of the Cold War. With the links between these two groups of countries receiving very little attention in Cold War scholarship, the volume thus offers a window into a hitherto neglected perspective on the Cold War. Via a series of case studies, the chapters here present new viewpoints on the evolution of the global Cold War through the exploration of the ensuing internal and (mainly) external policy choices of these nations. This book will be of much interest to students of Cold War Studies, international history, foreign policy, security studies and IR in general.

swiss development cooperation logo: *Handbook of International Climate Finance*

Michaelowa, Axel, Sacherer, Anne-Kathrin, 2022-10-14 The concept of international climate finance channelled from developed to developing countries through public interventions for mitigation and adaptation has been developed over the last decade, but its roots date back to the early 1990s. Despite the high relevance of the topic in the international climate negotiations, illustrated by the (missed) target to mobilise USD 100 billion by 2020, there is no book that provides an overview accessible to academics and practitioners alike.

swiss development cooperation logo: *Public Policy Making in the Western Balkans*

Margo Thomas, Vesna Bojicic-Dzelilovic, 2014-10-28 Developing and 'transition' economies face myriad challenges in their attempts to achieve and maintain political stability and foster the economic growth essential for national security, the social well-being of current citizens and sustainable environments for future generations. Governments in the Western Balkans have striven to achieve all of the above, and this volume assesses the nature of their experiences as well as the level of their success in doing so. Featuring detailed case studies of public policy reforms in the region as well as comparative analysis on a range of indicators, the book analyzes the role of key players in setting the political agenda as well as implementing policy reforms. It also distils the lessons that can be learned from the Western Balkan experience, recommending strategies for enhancing the policy making process. In addition, it examines the developmental role played by the full spectrum of policy actors, including the private sector, NGOs, special interest groupings, international financial institutions, donor nations and the EU. Each case study has been prepared by academics with deep knowledge and experience of the western Balkans and addresses a core set of questions: identifying the policy issue and its broader context, defining the roles of specific individuals in formulating policy and reform and assessing the influence of networks and coalitions in the policy making process. With so little detailed literature on public policy making in a group of nations strategically positioned between Europe, Russia and the near East, the detailed insights provided by this volume will be widely welcomed. Our book provides case studies of specific public policy reform episodes in selected Western Balkan post-conflict and transition countries. The focus

of these case studies extends beyond the technical aspects and entails substantive examination of the policy actors, constituencies and politics that ultimately shape the policy that emerges from the policy making process. This analysis draws lessons for strengthening the quality of policies, the transparency, consistency, and governance of the policy making process and ultimately for contributing to economic and social development of the region.
