teacher arrested in hillsborough county: The American Criminal Justice System Gerhard Falk, 2010-03-11 This critical yet honest appraisal of our criminal justice system addresses its strengths and its flaws—and makes recommendations for improvement. The American Criminal Justice System: How It Works, How It Doesn't, and How to Fix It calls attention to a criminal justice system that needs improvement. Author Gerhard Falk shows that the police themselves often violate the law; that prosecutors send innocent citizens to prison and even to death row; that defense attorneys take on cases they are not prepared to handle; that juries vote guilt or innocence on the basis of emotion, not facts; that judges are often failed attorneys or unscrupulous politicians; and that jails and prisons are too frequently warehouses of the poor. As background for his analysis, Falk discusses the history of the police, prosecutors, defense attorneys, and judges, as well as the history of prisons and the prison industrial complex. He also offers a devastating analysis of the death penalty and its practitioners. The book ends with recommendations for the improvement of our criminal justice system so that America can truly be, as our Supreme Court proclaims, a land of Equal Justice under Law.

teacher arrested in hillsborough county: The Accident that Should Never Have Taken Place D. J. Cotten, 2022-11-03 The purpose of this book is to emphasize the senselessness of texting and driving at the same time and the dire consequences it had on several people. One man lost his entire family, leading him to try to commit suicide a week and half later, but he was saved by the hospital staff after he was taken to the hospital. He was very bitter over this, and he abused the second nurse who tried to help him. Three days later, he managed to apologize for the abuse, but she took the abuse in stride and told the man she understood the severe depression he was experiencing. However the doctor she was in love with at the time hatched a sinister plot after he found out the man had a great deal of wealth. He used the nurse to help him rob the man. It worked out extremely well. The nurse had the power of attorney over her patient, and she managed to embezzle his wealth and then turned it over to the doctor she was in love with, only to find out he was planning to marry another woman. Surprisingly, her patient forgave her and declined to prosecute. Thereafter, she decided to go back to work at the hospital since the man was no longer able to pay her out of pocket. She later married another doctor and eventually had three children with the man still living with them. Another dire consequence is the effect it had on a Hispanic TV anchor woman, since her five-year-old daughter was struck as well as a sixty-four-year-old Negro woman. The five-year-old lost consciousness, and the Negro woman wound up with a broken back. The frantic anchorwoman took out her rosary and started praying. The child regained consciousness three days later, and her mother was greatly relieved. Unfortunately, the Negro woman who shared an apartment with her son learned that she would walk again but would be in constant pain the rest of her life. She would have wound up in some nursing home, had it not been for neighbor who lived in the apartment across the hall. Before the accident, they became very close friends, and her son had fallen in love with her, although she was white. One night after work, the neighbor went to the Negro woman's apartment to announce her upcoming wedding. When her son got the news later when he came home from work, he was totally devastated and became extremely intoxicated as a result. The following night, he shot his mother at her behest and then killed himself.

teacher arrested in hillsborough county: Women Criminals Vickie Jensen, 2011-11-10 A unique, two-volume study that examines female crime and the women who commit it. The two-volume *Women Criminals: An Encyclopedia of People and Issues* addresses both key topics and key figures in women's crime. The first volume provides topical essays about areas critical to the

understanding of female criminals, such as the definition of women's crime, explanations of women's criminality, ethnic and age diversity in female criminals, and responses of the criminal justice system. The second volume comprises biographical entries profiling women who are obviously criminals, such as Aileen Wuornos and Myra Hindley, and also women who were victims of circumstance, unjust laws, or narrowly applied definitions of crime, such as Rosa Parks, Harriet Tubman, and Sophie Scholl. In addition to highlighting the breadth of women's criminality, these portraits provide a holistic, multifaceted understanding of the dynamics of women's crime and why it occurs, connecting the individual stories to the larger social-scientific perspectives. Care has been taken to include the women's own voices and perspectives where possible and to address the intentions and reasoning of the system that responded to their criminality.

teacher arrested in hillsborough county: Criminology Stephen E. Brown, Finn-Aage Esbensen, Gilbert Geis, 2024-06-26 *Criminology: Explaining Crime and Its Context*, Eleventh Edition, offers a broad perspective on criminological theory. It provides students of criminology, criminal justice, and sociology with a thorough exposure to a range of theories about crime, contrasting their logic and assumptions, but also highlighting efforts to integrate and blend these frameworks. In this new edition, the authors have incorporated new directions that have gained traction in the field, while remaining faithful to their criminological heritage. Among the themes in this work are the relativity of crime (its changing definition) with abundant examples, historical roots of criminology and the lessons they have provided, and the strength and challenges of applying the scientific method. This revision offers new chapters on critical theory and on life-course criminology. It is updated throughout to reflect current trends in criminological theory and data. With chapters both updated to reflect recent developments in the field and made easier to digest, this text is essential reading for students of criminology, criminal justice, sociology, and related fields.

Most of the entries refer to births, marriages, and deaths and in most cases indicate the name(s) of the principals, the date of the event, and, sometimes, such supplementary information as his/her age or address, the maiden name of a parent, etc. Each Bible record is identified by family name and followed by a reference to the Huguenot Society records where the original can be found.
