teacher appreciation week ideas 2024: A Communication Ethic of Dialogic Reformation
Michael R. Kearney, 2025-03-10 Calls for reformation were widespread across the medieval Roman Catholic Church, but few were as nuanced or philosophically rich as the lifelong work of Cardinal Nicholas of Cusa (1401-1464). Cusa centralized the coincidentia oppositorum, the coincidence of opposites, in our knowledge of God and the mystical institution of the Church. In his book, Michael R. Kearney traces Cusa's historical impact on philosophy of communication and communication ethics with an eye toward the health of institutions in a postmodern moment of cynicism and decline. Cusa loved the church and fought passionately for its reform, energized by the clouded vision of a God who is beyond opposites. This champion of dialogic reformation offers churches and communities an unfinished task with a unity of contraries at its heart: upholding local narrative

ground with tenacious loyalty while working in an increasingly large world.

Meeting Palmer while in graduate school, and closely studying his work, served to modify her perspective about teaching for the better. This ultimately changed her as a teacher in ways that could not have occurred had she not had this encounter. This book aims to inform as well as to help transform the experience of teaching for both teacher and student.
