teacher appreciation deals 2024: Empowering Teachers Across Europe to Deal with Social, Emotional and Diversity-Related Challenges Ana Kozina, 2024-02-20 The increase in reported levels of stress and burnout in teachers across Europe highlights the importance of teachers' social and emotional competencies and diversity awareness (SEDA). Since teaching is an extremely social and emotional process where diversity, if recognised, is embraced at every step, we believe that supporting teachers to develop SEDA competencies is the key to shaping not only the positive relationships of living and learning together in classrooms, but also, in living and learning together in society. Once SEDA competencies are supported, a positive shift can occur at the level of individual teacher, classroom, school and society level. The book is our way of experimentally demonstrating how teachers' SEDA can be supported across Europe (Volume I) and how policy can support these processes (Volume II). Volume I focuses on the innovative conceptual overlap of social and emotional competencies and diversity awareness and experimentally test it across European countries - with an emphasis on conceptualisation, implementation and evaluation processes.

teacher appreciation deals 2024: Leading under Duress Jean-Pierre Bongila, 2024-11-15 This comparative study of teacher attrition in the Global South and OECD countries examines the exceptionality of twenty selected learning leaders in the D.R. Congo, Ghana, and Uganda who have stayed in the teaching profession and led their student learning with devotion and integrity. Like any learning leader, exceptional teachers live the challenges and pressures that have caused some of their peers to leave the profession. The extraordinary learning leaders - from elementary, secondary, and higher education - have stood victorious amid education devaluations and professional tensions. The author gives voice to those "exceptional" teachers and analyzes the ethical rationale behind their unfailing commitment to their teaching vocation. Their teaching philosophies and personal accounts revealed altruistic impulses. This book further explores the exceptional teachers' narratives and their selfless actions through the lens of philanthropic and leadership ethics theories. Although the exceptional teachers' altruism appears self-sacrificing - it embodies some form of self-benefit because one can hardly fathom altruism for altruism's sake. Nevertheless, the twenty exceptional teachers acted in a self-sacrificing manner.
