**who did tiger woods cheat on with: Commander in Cheat** Rick Reilly, 2019-04-02 NEW YORK TIMES BESTSELLER Reilly pokes more holes in Trump's claims than there are sand traps on all of his courses combined. It is by turns amusing and alarming.-- The New Yorker Golf is the spine of this shocking, wildly humorous book, but humanity is its flesh and spirit. -- Chicago Sun-Times Every one of Trump's most disgusting qualities surfaces in golf. -- The Ringer An outrageous indictment of Donald Trump's appalling behavior when it comes to golf -- on and off the green -- and what it reveals about his character. Donald Trump loves golf. He loves to play it, buy it, build it, and

operate it. He owns 14 courses around the world and runs another five, all of which he insists are the best on the planet. He also claims he's a 3 handicap, almost never loses, and has won an astonishing 18 club championships. How much of all that is true? Almost none of it, acclaimed sportswriter Rick Reilly reveals in this unsparing look at Trump in the world of golf. Based on Reilly's own experiences with Trump as well as interviews with over 100 golf pros, amateurs, developers, and caddies, *Commander in Cheat* is a startling and at times hilarious indictment of Trump and his golf game. You'll learn how Trump cheats (sometimes with the help of his caddies and Secret Service agents), lies about his scores (the Trump Bump), tells whoppers about the rank of his courses and their worth (declaring that every one of them is worth \$50 million), and tramples the etiquette of the game (driving on greens doesn't help). Trump doesn't brag so much, though, about the golf contractors he stiffes, the course neighbors he intimidates, or the way his golf decisions wind up infecting his political ones. For Trump, it's always about winning. To do it, he uses the tricks he picked up from the hustlers at the public course where he learned the game as a college kid, and then polished as one of the most bombastic businessmen of our time. As Reilly writes, Golf is like bicycle shorts. It reveals a lot about a man. *Commander in Cheat* paints a side-splitting portrait of a congenital cheater (Esquire), revealing all kinds of unsightly truths Trump has been hiding.

**who did tiger woods cheat on with: Blasian Invasion** Myra S. Washington, 2017-10-26 Myra S. Washington probes the social construction of race through the mixed-race identity of Blasians, people of Black and Asian ancestry. She looks at the construction of the identifier Blasian and how this term went from being undefined to forming a significant role in popular media. Today Blasian has emerged as not just an identity Black/Asian mixed-race people can claim, but also a popular brand within the industry and a signifier in the culture at large. Washington tracks the transformation of Blasian from being an unmentioned category to a recognized status applied to other Blasian figures in media. Blasians have been neglected as a meaningful category of people in research, despite an extensive history of Black and Asian interactions within the United States and abroad. Washington explains that even though Americans have mixed in every way possible, racial mixing is framed in certain ways, which almost always seem to involve Whiteness. Unsurprisingly, media discourses about Blasians mostly conform to usual scripts already created, reproduced, and familiar to audiences about monoracial Blacks and Asians. In the first book on this subject, Washington regards Blasians as belonging to more than one community, given their multiple histories and experiences. Moving beyond dominant rhetoric, she does not harp on defining or categorizing mixed race, but instead recognizes the multiplicities of Blasians and the process by which they obtain meaning. Washington uses celebrities, including Kimora Lee, Dwayne Johnson, Hines Ward, and Tiger Woods, to highlight how they challenge and destabilize current racial debate, create spaces for themselves, and change the narratives that frame multiracial people. Finally,

Washington asserts Blasians as evidence not only for the fluidity of identities, but also for the limitations of reductive racial binaries.

**who did tiger woods cheat on with:** **Makers and Takers** Peter Schweizer, 2008-06-03 In Makers and Takers you will discover why: \* Seventy-one percent of conservatives say you have an

obligation to care for a seriously injured spouse or parent versus less than half (46 percent) of liberals. \* Conservatives have a better work ethic and are much less likely to call in sick than their liberal counterparts. \* Liberals are 2½ times more likely to be resentful of others' success and 50 percent more likely to be jealous of other people's good luck. \* Liberals are 2 times more likely to say it is okay to cheat the government out of welfare money you don't deserve. \* Conservatives are more likely than liberals to hug their children and "significantly more likely" to display positive nurturing emotions. \* Liberals are less trusting of family members and much less likely to stay in touch with their parents. \* Do you get satisfaction from putting someone else's happiness ahead of your own? Fifty-five percent of conservatives said yes versus only 20 percent of liberals. \* Rush Limbaugh, Ronald Reagan, Bill O'Reilly and Dick Cheney have given large sums of money to people in need, while Ted Kennedy, Nancy Pelosi, Michael Moore, and Al Gore have not. \* Those who are "very liberal" are 3 times more likely than conservatives to throw things when they get angry. The American left prides itself on being superior to conservatives: more generous, less materialistic, more tolerant, more intellectual, and more selfless. For years scholars have constructed—and the media has pushed—elaborate theories designed to demonstrate that conservatives suffer from a host of personality defects and character flaws. According to these supposedly unbiased studies, conservatives are mean-spirited, greedy, selfish malcontents with authoritarian tendencies. Far from the belief of a few cranks, prominent liberals from John Kenneth Galbraith to Hillary Clinton have succumbed to these prejudices. But what do the facts show? Peter Schweizer has dug deep—through tax documents, scholarly data, primary opinion research surveys, and private records—and has discovered that these claims are a myth. Indeed, he shows that many of these claims actually apply more to liberals than conservatives. Much as he did in his bestseller *Do as I Say (Not as I Do)*, he brings to light never-before-revealed facts that will upset conventional wisdom. Conservatives such as Ronald Reagan and Robert Bork have long argued that liberal policies promote social decay. Schweizer, using the latest data and research, exposes how, in general: \* Liberals are more self-centered than conservatives. \* Conservatives are more generous and charitable than liberals. \* Liberals are more envious and less hardworking than conservatives. \* Conservatives value truth more than liberals, and are less prone to cheating and lying. \* Liberals are more angry than conservatives. \* Conservatives are actually more knowledgeable than liberals. \* Liberals are more dissatisfied and unhappy than conservatives. Schweizer argues that the failure lies in modern liberal ideas, which foster a self-centered, "if it feels good do it" attitude that leads liberals to outsource their responsibilities to the government and focus instead on themselves and their own desires.

**who did tiger woods cheat on with: Donald Trump, Tiger Woods, Bernie Madoff, and Dick Cheney: the Anatomy of Evil** John Doe PhD, 2019-02-28 On September 5th, 2018, the New York Times published an anonymous editorial: "Many Trump appointees have vowed to do what we can to preserve our democratic institutions while thwarting Mr. Trump's more misguided impulses until he is out of office..... The root of the problem is the president's amorality." Trump's behavior is dangerously unpredictable. He is the epitome of the Anomic Personality, whose major trait is unlimited striving. He shares in the symptom clusters of The Dark Tetrad: Aggressive Narcissism, Machiavellianism, Psychopathy and Sadism. His behavior and his own quotes convince us of the dangers of his continuance in office. Like other oligarchs, he seeks sex, money and power. Faced with charges by the Mueller and five other investigations, he lashed out by creating an "emergency," a 35-day government shutdown. How Trump won, and why his base voted for him is explained in terms of U.S. history, national character, social-class differences in child rearing, inequality, and blind attachment (which may be in our DNA due to early Cro-Magnon parental hypervigilance for fear of predators). The United Nations IPCC Report tells us that we have only twelve more years in which to reverse global warming. After that time it will be irreversible! Can we let a president who doesn't believe in climate change use up another six years, or one half, of our "chance of survival" time?
