who owns tomorrow's teachings on youtube: Holy Yesterday Mythical Tomorrow Ricky Firman, 2025-02-01 From fiery sacrifices to viral memes, the divine narrative of humanity has been anything but dull. *Holy Yesterday Mythical Tomorrow: How Religions Become Myth* is a bold, darkly comedic exploration of the lifecycle of faith and a thought-provoking follow-up to Ricky Firman's acclaimed book, *Holy Olympics: Religions War for Relevance and Dominance*. While *Holy Olympics* tackled the competitive struggle of religions to assert their dominance in a modern world, this sequel shifts focus to the inevitable transformation of those same faiths into mythology. In this latest work, Ricky examines how gods are born from humanity's fears, ignorance, and creativity, only to be retired to the realms of myth when time, progress, and logic outpace their relevance. This book dissects the rise and fall of deities across civilizations—from the grandeur of Zeus's thunderbolts to the eerie rituals of Mesoamerican gods—and speculates how the gods worshipped today might fare in the distant future. With biting wit and incisive commentary, Ricky connects the sacred to the satirical, revealing the absurdity of divine politics, the commodification of faith, and the endless human quest for meaning. As humanity marches forward with science and technology as its new priests, *Holy Yesterday Mythical Tomorrow* ponders the cosmic irony of how ancient beliefs persist in the age of information. The book culminates in a speculative, hilarious vision of what the gods of tomorrow might look like in a world ruled by AI, aliens, and billionaire messiahs. Whether you're a skeptic, a believer, or something in between, this book will provoke, entertain, and challenge your view of religion and its inevitable transformation into myth. Because, in the end, the sacred and the absurd have always been partners in humanity's eternal cosmic joke.

who owns tomorrow's teachings on youtube: *Assembling Tomorrow* Scott Doorley, Carissa Carter, Stanford d.school, 2024-06-18 A powerful guide to why even the most well-intentioned innovations go haywire, and the surprising ways we can change course to create a more positive future, by two celebrated experts working at the intersection of design, technology, and learning at Stanford University's acclaimed d.school. "This brilliant book offers a new approach to all creative work that will expand your understanding of what it means to make and open up possibilities you didn't know existed—it did for me."—Adam Johnson, Pulitzer Prize-winning author of *The Orphan Master's Son* In *Assembling Tomorrow*, authors Scott Doorley and Carissa Carter explore the intangible forces that prevent us from anticipating just how fantastically technology can get out of control, and what might be in store for us if we don't start using new tools and tactics. Despite our best intentions, our most transformative innovations tend to have consequences we can't always predict. From the effects of social media to the uncertainty of AI and the consequences of climate change, the outcomes of our creations ripple across our lives. Time and again, our seemingly ceaseless capacity to create rubs up against our limited capacity to understand our impact. *Assembling Tomorrow* explores how to use readily accessible tools to both mend the mistakes of our past and shape our future for the better. We live in an era of "runaway design," where innovations tangle with our lives in unpredictable ways. This book explores the off-kilter feelings of today and follows up with actionables to alter your perspective and help you find opportunities in these turbulent times. Mixed throughout are histories of the future, short pieces of speculative fiction that imagine the future as if it has already happened and consider the past with a critical yet hopeful eye so that all of us—as designers of our own futures—can create a better world for generations to come.

who owns tomorrow's teachings on youtube: *Familiar Reflections* J. J. Laakso, 2024-07-19 What is love? What does it truly mean to search for it within ourselves, in the world, and in the depths of our hearts? In this debut reflective memoir, J. J. Laakso masterfully interweaves one man's personal growth with timeless, familiar, yet often forgotten truths. Through a combination of poetic spiritual awakening and philosophical pondering, Laakso constructs clear definitions and thought-provoking equations to answer some of life's most profound questions. In an increasingly

disconnected world, this book illuminates our eternal search for what we truly desire, both individually and collectively, in a manner that is unparalleled. So that we may one day love our effects with every breath of the rest of our lives As shapes of the infinity of our hearts drawn with the same love that shines As everything we are Sustainably happy Together

who owns tomorrow's teachings on youtube: *The Good Book* Jawara D. King, 2017-05-08 In every life situation, focus on all the positive outcomes. Destruction comes from focusing only on the negative. Whatever you focus on and give your attention to is what will manifest. Whatever you constantly think about is where you're focusing your energy. When you find yourself thinking in agreement with the dark side, direct your thinking to have your mind focus on anything positive. Ensure that your mind is nourishing you with its thoughts. By directing your thoughts, you can choose your mindstate. Never let your mind think whatever it wants. You will become the essence of your constant thought. Watch your mind!

who owns tomorrow's teachings on youtube: *How Psychedelics Can Help Save the World* Stephen Gray, 2022-11-29 Inspiring teachings centered on navigating our world's collective challenges with indigenous wisdom and the power of psychedelics • With contributions from Christopher Bache, Zoe Helene, Dennis McKenna, Martina Hoffmann, The Dank Duchess, Jamie Wheal, Grandmother Maria Alice, and others • Explores the immense healing intelligence of nature, the wisdom of ancient Indigenous prophecies and shamanic practices, the importance of the Divine Feminine for environmental regeneration, and the crucial role of psychedelic and entheogenic plants in initiating transformations of consciousness Exploring the way forward for humanity in the face of unprecedented crisis, more than 25 contributors show how the wisdom of Indigenous peoples and the power of psychedelics can help us enact the radical shift in consciousness necessary to navigate the collapse of the old world order and the birth of a new consciousness. We hear from psychedelic visionaries Christopher Bache, Zoe Helene, Wade Davis, Chris Kilham, Laurel Sugden, and others on the promise of psychedelic medicines for spiritual and healing work. We learn about Indigenous stories to support our transformation from Native American leader Solana Booth, ancestral memory from Grandmother Maria Alice Campos Freire, cannabis's role in world building from Minelli Eustàcio-Costa, the ritual roots of talking plants from Michael Stuart Ani, and alchemy across the arc of time from shaman Ya'Acov Darling Khan. We also hear from cannabis grower The Dank Duchess; Tyson Yunkaporta, Australian Aboriginal artist and scholar; visionary artist Martina Hoffmann; activist Duane Elgin; Kohenet Rachel Kann, ordained Jewish priestess and ceremonialist; and several other wise leaders for our time. Throughout these profound essays we are reminded of the immense healing intelligence of our plant allies, of the wisdom of shamanic practices, of the importance of the Divine Feminine for environmental regeneration, and of the crucial role of entheogenic plants in initiating transformations of consciousness and healing our world's collective disconnection from Spirit.

who owns tomorrow's teachings on youtube: *The Routledge International Handbook on Decolonizing Justice* Chris Cunneen, Antje Deckert, Amanda Porter, Juan Tauri, Robert Webb, 2023-07-03 *The Routledge International Handbook on Decolonizing Justice* focuses on the growing worldwide movement aimed at decolonizing state policies and practices, and various disciplinary

knowledges including criminology, social work and law. The collection of original chapters brings together cutting-edge, politically engaged work from a diverse group of writers who take as a starting point an analysis founded in a decolonizing, decolonial and/or Indigenous standpoint. Centering the perspectives of Black, First Nations and other racialized and minoritized peoples, the book makes an internationally significant contribution to the literature. The chapters include analyses of specific decolonization policies and interventions instigated by communities to enhance jurisdictional self-determination; theoretical approaches to decolonization; the importance of research and research ethics as a key foundation of the decolonization process; crucial contemporary issues including deaths in custody, state crime, reparations, and transitional justice; and critical analysis of key institutions of control, including police, courts, corrections, child protection systems and other forms of carcerality. The handbook is divided into five sections which reflect the breadth of the decolonizing literature: • Why decolonization? From the personal to the global • State terror and violence • Abolishing the carceral • Transforming and decolonizing justice • Disrupting epistemic violence This book offers a comprehensive and timely resource for activists, students, academics, and those with an interest in Indigenous studies, decolonial and post-colonial studies, criminal legal institutions and criminology. It provides critical commentary and analyses of the major issues for enhancing social justice internationally. The Open Access version of this book, available at www.taylorfrancis.com, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

who owns tomorrow's teachings on youtube: Mapping Critical Dance Studies in India Urmimala Sarkar Munsri, 2024-03-14 This book provides a critical understanding of dance studies in India, bringing together various embodied practices identified loosely as dance. It suggests an alternative reading of the history of patronage, policies, and institutionalized understanding of categories such as classical, folk, modern, popular, and Bollywood that hierarchizes some dances as 'more' dance than others. It is of great interest to scholars looking at performing arts such as dance as a tool for identity assertions. It offers diverse possibilities of understanding dance through its inherent sociopolitical possibilities as a participatory or presentational tool for communication. The multidisciplinary approach brings together perspectives from critical dance studies, anthropology, history, and gender studies to connect embodied archives of different communities to create an intersectional methodology of studying dance in India as a powerful but marginal expressive art practice. Accessible at multiple levels, the content is relevant for undergraduate and postgraduate students, as well as researchers across dance, dance education, theatre, and performance studies.

who owns tomorrow's teachings on youtube: *Push Back* Judith Large, 2016-12-15 In 2009, after decades of conflict, the Sri Lankan government proclaimed the decisive defeat of the Liberation Tamil Tigers of Elam. Subsequently, the state proved resistant to attempts by the UN and other international bodies to promote post-war reconciliation or reform. In this incisive new work, Judith Large investigates the ways in which the Rajapaksa government was able to subvert international diplomatic efforts, as well as exploring the wider context of rising Sinhalese nationalism, the attendant growth of discrimination against minorities, and efforts by both the diaspora and citizens within Sri Lanka to work towards a positive peace. *Push Back* is vital reading not only for those interested in Sri Lanka, but also for those concerned about the wider implications of the conflict for human rights, peace-making, and geopolitics.

who owns tomorrow's teachings on youtube: *Ethics and Business* Paul C. Godfrey, Laura E. Jacobus, 2022-12-15 *Ethics & Business: An Integrated Approach for Business and Personal Success*, 1st Edition, International Adaptation gives students the practical knowledge and skills to identify ethical dilemmas, understand ethical behavior in themselves and others, and advocate for ethical behavior within their organization. The course focuses on three ethical questions: the individual, the organization, and the societal perspective. These questions and views explore different areas of business ethics, such as the use and abuse of power, challenges to honesty and integrity, and participation in ethical interventions such as reporting, repair, forgiveness, and reconciliation. Most business ethics courses are based on a single point of view. Depending on the

viewpoint, this might be based on philosophical theory, organizational behavior, or a legal and regulatory compliance approach. As an author team, we combine and integrate these points of view into a unified whole by incorporating unique content, original videos, and adaptable case studies to assist students in making ethical decisions in their professional and personal lives. This International Adaptation explores different areas of business ethics, such as the use and abuse of power, challenges to honesty and integrity, and participation in ethical interventions such as reporting, repair, forgiveness, and reconciliation. Every chapter now includes new questions to help readers test their understanding of the subject. There is also new mini cases that are contemporary and more relevant to the global scenario.
