'Yeah,' he replied, reluctantly pulling his eyes away from me. 'I just feel weird, like I have been here before right at this table, having this same lunch and looking at...' It was unnatural. The connection we had from the very beginning. Like there was an unearthly power at play. As though, our very paths had collided for a purpose and we were destined to meet. 'Hi, my name is Will' he said. I still lay my head on the ground and watch the clouds float by sometimes; thinking of an emerald pair of green eyes, like satin curtains falling into a black void. Re-living in my head that beautiful summer day when Brandon and I walked hand in hand across the lavender fields with our best friends. 'Look into my eyes you'll see what you mean to me.' The song that played on the radio when Will drove on the highway, on a never-ending road; to a 'forever' that I imagined would always be mine.

who did derek cheat on meredith with: "Aber Liebe ... ist nur eine Geschichte" Susanne van den Berg, 2021-02-05 Inhaltlich stellt der Text zunächst die aktuelle neurobiologische und paarpsychologische Forschung zum Thema Liebesbeziehungen vor, ergänzt durch eine Übersicht der Entwicklung von Partnerschaften aus soziologischer und juristischer Perspektive. Da zwei Krankenhausserien im Mittelpunkt der Filmanalyse stehen, schließt der theoretische Teil mit einem historischen Abriss zu Serie und Krankenhausserie ab. Im Ergebnis der Filmanalyse erlaubt die interdisziplinäre Herangehensweise eine differenziertere Darstellung und Interpretation serialer Liebesbeziehungen jenseits der bisherigen Studien und den ihnen enthaltenen, eher pauschalisierend wirkenden Beschreibungen von Romantik und Idealisierung, aber auch entgegen den in den Kulturwissenschaften verbreiteten Vorstellungen von Liebe als Phänomen im Rahmen von Zuschreibungen oder Inszenierung. Kurz gefasst lassen sich die psychologischen und neurobiologischen Konstrukte der Verliebtheit und Bindung eingebettet in den narrativen seriellen Prozesscharakter gut einordnen, werden jedoch in Abhängigkeit von der Storyline und Filmästhetik der beiden Serien unterschiedlich konstruiert. Legt man weiterhin das psychologische Konstrukt der Paarqualität zugrunde, so lässt sich der Vorwurf der Traumpaare und Traumhochzeiten nicht halten, vielmehr befinden sich die Serienpaare in desolaten, wenig wünschenswerten Verbindungen, denen es an Sicherheit, Vertrauen, Offenheit, Respekt sowie gegenseitiger Zuwendung und wesentlichen Gesprächen ganz offensichtlich mangelt. Im Ausblick werden mögliche Zuschauermotivationen und auch potentielle Auswirkungen auf die Vorstellung der Rezipienten über Paarbeziehungen reflektiert. Die Arbeit schließt mit einem Zitat von Precht, welches Liebe vielleicht als wichtigste Schnittstelle zwischen Natur- und Geisteswissenschaften beschreibt: In diesem Sinne nimmt dieses Projekt Bezug auf filmwissenschaftliche, psychologische und neurobiologische Erkenntnisse und schließt mit dem Wunsch nach einer auch zukünftig interdisziplinären Forschung, welche wechselseitig neue gedankliche Räume und Erkenntnisse eröffnen möge.
