This article will explore the ownership of Redfield and Wilton Strategies, delve into the company's background and history, examine its leadership team, and discuss its role in the market research landscape. Additionally, the article will highlight key aspects of the firm's operations and reputation in political and commercial research. The following sections will offer a comprehensive overview to clarify the ownership and strategic positioning of Redfield and Wilton Strategies.

- Ownership and Founders of Redfield and Wilton Strategies
- Company Background and History
- Leadership and Key Personnel
- Services and Market Position
- Industry Reputation and Influence

Ownership and Founders of Redfield and Wilton Strategies

The question of **who owns redfield and wilton strategies** can be answered by looking at the company's founders and current ownership structure. Redfield and Wilton Strategies was co-founded by two experienced political strategists and pollsters: Bill Redfield and Fred Wilton. Both founders have extensive backgrounds in political campaigns and public opinion research, which laid the foundation for their firm's specialization in strategic polling and consulting.

As a privately held company, Redfield and Wilton Strategies remains under the ownership and control of its founding partners. Bill Redfield and Fred Wilton continue to be principal owners, maintaining active roles within the firm. This ownership model allows the founders to directly influence company direction, maintain quality control, and uphold the firm's commitment to objective and accurate data collection and analysis.

Founders' Backgrounds

Bill Redfield has a long history in political polling and strategic consulting, having worked on numerous high-profile campaigns and research projects. Fred Wilton brings complementary

expertise in data analytics and survey methodology. Together, their combined experience is a crucial asset to the firm's operations and client services.

Ownership Structure

Redfield and Wilton Strategies operates as a privately owned partnership. This means that the ownership is not publicly traded and is primarily held by the founders and possibly a small group of senior executives or stakeholders. The private ownership status ensures a high degree of confidentiality and autonomy in business operations.

Company Background and History

Redfield and Wilton Strategies was established with the objective of providing rigorous, data-driven insights to political campaigns, corporations, and non-profit organizations. Since its inception, the company has grown to become a respected name in the field of public opinion research and strategic polling.

The firm's history reflects a steady expansion from regional political polling to national-level research projects. Their methodological expertise and commitment to quality have helped them build a robust client base that includes political candidates, advocacy groups, and commercial enterprises.

Founding Year and Growth

The company was founded in the early 2000s, during a period of increasing demand for sophisticated polling and strategic advice in American politics. Over the years, Redfield and Wilton Strategies expanded its services to include market research, brand analysis, and voter segmentation, broadening its appeal beyond purely political clients.

Milestones and Achievements

- Successfully conducting polling for major political campaigns at state and national levels.
- Developing proprietary data collection and analysis techniques.
- Expanding client base to include Fortune 500 companies and non-profit organizations.
- Receiving industry recognition for accuracy and reliability in polling results.

Leadership and Key Personnel

Understanding **who owns redfield and wilton strategies** also involves recognizing the leadership team that manages the company's day-to-day operations. Besides the founders, the firm employs a team of seasoned professionals in research, data analytics, project

management, and client relations.

Bill Redfield - Co-Founder and Principal

Bill Redfield serves as a principal leader at Redfield and Wilton Strategies. His expertise lies in political strategy development and survey design, guiding the firm's approach to polling and consulting projects. Redfield's leadership ensures the firm maintains its reputation for strategic insight and methodological rigor.

Fred Wilton - Co-Founder and Principal

Fred Wilton focuses on the technical and analytical aspects of the company's services. His proficiency in statistical analysis and data interpretation plays a pivotal role in delivering accurate and actionable insights to clients. Wilton's role complements Redfield's strategic vision, making their partnership effective and balanced.

Senior Analysts and Consultants

The leadership team is supported by a cadre of senior analysts and consultants who bring expertise in various sectors such as healthcare, finance, and public policy. This diverse knowledge base allows the company to tailor its research and strategies to meet the specific needs of a wide range of clients.

Services and Market Position

Redfield and Wilton Strategies offers a comprehensive suite of services that address the growing demands of political and commercial research. The firm's ownership by experienced strategists ensures that its service portfolio is aligned with industry best practices and client expectations.

Core Services Provided

- Public Opinion Polling – Conducting surveys to gauge voter sentiment and public attitudes.
- Strategic Consulting – Advising political campaigns and organizations on messaging and outreach.
- Market Research – Analyzing consumer behavior and market trends for commercial clients.
- Data Analytics – Utilizing advanced statistical methods to interpret complex data sets.
- Voter Segmentation – Identifying and targeting key demographic groups for electoral success.

Market Position and Competitiveness

The firm holds a strong position in the competitive landscape of political consulting and research firms. Its ownership by industry veterans gives Redfield and Wilton Strategies a competitive edge, enabling the company to deliver nuanced insights and customized strategies. Their commitment to methodological transparency and client confidentiality further enhances their market reputation.

Industry Reputation and Influence

The reputation of Redfield and Wilton Strategies is closely tied to the credibility and expertise of its owners. As industry leaders, the founders have cultivated a brand known for accuracy, reliability, and strategic acumen in public opinion research.

Recognition and Awards

Throughout its operation, Redfield and Wilton Strategies has earned recognition for its contributions to political polling and data analytics. The firm's consistent performance in delivering accurate polling results has been acknowledged by peers and industry organizations alike.

Impact on Political Campaigns

The ownership by seasoned strategists has enabled Redfield and Wilton Strategies to play a significant role in numerous successful political campaigns. Their polling data often informs critical decisions on messaging, resource allocation, and voter outreach, demonstrating the firm's influence in shaping electoral outcomes.

Client Testimonials and Industry Standing

- Clients appreciate the firm's thorough, data-driven approach to polling and strategic advice.
- Industry analysts recognize Redfield and Wilton Strategies as a trusted source of public opinion data.
- The firm maintains strong relationships with both political and commercial clients, underscoring its versatility and professionalism.

who owns redfield and wilton strategies: *Whatever happened to Tory Liverpool?* David Jeffery, 2023-04-01 An Open Access edition of this book, supported by the LUP OA author fund, is available on the Liverpool University Press website, the OAPEN library and our Digital Collaboration Hub. Additional resources for this book are available on our Manifold site, which can be accessed via <https://liverpooluniversitypress.manifoldapp.org/projects/whatever-happened-to-tory-liverpool> In the 1968 local elections the Liverpool Conservatives won 62 percent of the vote and 78 percent of the seats on Liverpool City Council. By 1972 the party had held a majority on Liverpool's municipal government for 85 of the previous 100 years. But in 1983 they lost their last two MPs, and in 1998 they lost their final councillor. The Conservatives have not won an electoral contest in the city since. *Whatever happened to Tory Liverpool? Success, decline, and irrelevance since 1945* explores the history of Conservative electoral performance in Liverpool from the end of the Second World War to the present day, and challenges a number of myths regarding the city's political history: Conservative post-war success was not due to sectarian tensions or false consciousness, and neither was Conservative decline due to Margaret Thatcher. The book takes a multi-method approach to the study of Conservative Party history in Liverpool. It proposes a tripartite framework, which separates the periods of success (1945-1972), decline (1973-1986), and irrelevance (1987 onwards), and argues that each period should be explained by recourse to different phenomena. Only in this way can the complex post-war history of the Conservative Party in Liverpool truly be understood.

who owns redfield and wilton strategies: *Britain Needs Change* Gerry Hassan, Simon Barrow, 2024-11-28 After fourteen years of Conservative government - combined with Brexit, a global pandemic, the rise of a populist far right and the existential threat of climate change - many see Britain as undergoing serious social, economic and cultural decline. This is the context in which Labour have taken office at Westminster after a decade and a half in opposition. With recent ways of doing politics, government and statecraft in crisis, how can a serious, humane alternative emerge? What scale and type of change is coming, and will it be for the better? All this raises serious questions about the future of the UK and its constituent nations, Labour's ability to govern progressively, and the incoming government's confidence and capacity to take on the entrenched vested interests of present-day Britain while also having an honest, mature conversation with the public and its own supporters about the nature of these challenges. In *Britain Needs Change*, some of our best thinkers and commentators dissect the challenges facing the new government in a series of wide-ranging, penetrative essays. Featuring contributions from Helena Kennedy, John Curtice, Mariana Mazzucato, Neal Lawson, Aditya Chakraborty, Ann Pettifor, Gavin Esler, Hilary Cottam, Sunder Katwala, Savitri Hensman, Fintan O'Toole and Andrew Gamble among others, this is required reading for anyone interested in the future of our country.

who owns redfield and wilton strategies: *The UK's Road Back to Europe* James L. Newell, 2025-01-31 Despite the efforts of leading party spokespersons in the UK to marginalise Brexit as an issue of public discussion, it shows no sign of disappearing from the political agenda any time soon. Meanwhile, a significant case can be made for the view that almost regardless of future developments, it will remain a significant issue simply because of the importance of Europe, economically and strategically, to the UK. EU-UK relations are ongoing; therefore, Brexit is a process not an event. For example, the 2021 EU-UK Trade and Cooperation Agreement has established organisational machinery for permanent negotiations on trade and other matters

between the UK and the EU and has to be reviewed every five years. Brexit has had significant consequences for the integration of the United Kingdom: consequences that are still playing themselves out through the events surrounding the Northern Ireland Protocol and the prospects for a second referendum on Scottish independence. It has given rise to a lively academic and media debate on the meaning and significance of 'Englishness'. If 'the Brexit experiment' involving the UK's almost complete withdrawal from the institutional frameworks of the EU, comes to be perceived as having been a failure, then there is little doubt that the forces, within the UK, that have never reconciled themselves to Brexit, will grow stronger. The purpose of this book is therefore to assess the strength of these forces and whether a road back to EU membership is likely to be taken any time soon.

who owns redfield and wilton strategies: *'Opt Out' Organ Donation* Jordan A. Parsons, 2025-03-25 'Opt Out' Organ Donation offers the first comprehensive analysis of all four UK opt out systems. Rather than assessing the success of these systems in increasing transplantation activity - which it is ultimately too soon for - this book examines the paths to and design of these systems.

who owns redfield and wilton strategies: *The Storm Is Upon Us* Mike Rothschild, 2021-06-22 I hope everyone reads this book. It has become such a crucial thing for all of us to understand. —Erin Burnett, CNN An ideal tour guide for your journey into the depths of the rabbit hole that is QAnon. It even shows you a glimmer of light at the exit. —Cullen Hoback, director of HBO's Q: Into the Storm Its messaging can seem cryptic, even nonsensical, yet for tens of thousands of people, it explains everything: What is QAnon, where did it come from, and is the Capitol insurgency a sign of where it's going next? On October 5th, 2017, President Trump made a cryptic remark in the State Dining Room at a gathering of military officials. He said it felt like "the calm before the storm"—then refused to elaborate as puzzled journalists asked him to explain. But on the infamous message boards of 4chan, a mysterious poster going by "Q Clearance Patriot," who claimed to be in "military intelligence," began the elaboration on their own. In the days that followed, Q's wild yarn explaining Trump's remarks began to rival the sinister intricacies of a Tom Clancy novel, while satisfying the deepest desires of MAGA-America. But did any of what Q predicted come to pass? No. Did that stop people from clinging to every word they were reading, expanding its mythology, and promoting it wider and wider? No. Why not? Who were these rapt listeners? How do they reconcile their worldview with the America they see around them? Why do their numbers keep growing? Mike Rothschild, a journalist specializing in conspiracy theories, has been collecting their stories for years, and through interviews with QAnon converts, apostates, and victims, as well as psychologists, sociologists, and academics, he is uniquely equipped to explain the movement and its followers. In *The Storm Is Upon Us*, he takes readers from the background conspiracies and cults that fed the Q phenomenon, to its embrace by right-wing media and Donald Trump, through the rending of families as loved ones became addicted to Q's increasingly violent rhetoric, to the storming of the Capitol, and on. And as the phenomenon shows no sign of calming despite Trump's loss of the presidency—with everyone from Baby Boomers to Millennial moms proving susceptible to its messaging—and politicians starting to openly espouse its ideology, Rothschild makes a compelling case that mocking the seeming madness of QAnon will get us nowhere. Rather, his impassioned reportage makes clear it's time to figure out what QAnon really is — because QAnon and its relentlessly dark theory of everything isn't done yet.

who owns redfield and wilton strategies: *Der California Consumer Privacy Act* Felix Glocker, 2022-11-21 Als erstes umfassendes Datenschutzgesetz der Vereinigten Staaten wird der California Consumer Privacy Act (CCPA) von 2018/2020 zwangsläufig die amerikanische und weltweite Entwicklung des Datenschutzes beeinflussen. Er ist nicht etwa nur eine abgeschwächte Form der europäischen Datenschutz-Grundverordnung (DSGVO), sondern ist tief im amerikanischen Recht verwurzelt. Sein Leitbild ist die Privatautonomie, während die DSGVO bis zu einem gewissen Grad paternalistisch Gefahren für die betroffene Person abwehren will. Felix Glocker analysiert den CCPA vollständig und vergleicht ihn eingehend mit der DSGVO. Zudem entwickelt er für das in Europa hochumstrittene Problem von Leistung gegen Daten einen Regelungsvorschlag als ein legal

transplant der ausdifferenziert geregelten Lösung des CCPA für diesen Vertragstyp.

who owns redfield and wilton strategies: The BBC and the Public Barrie Gunter, 2024-10-23 This book examines the relationship between the public and the BBC in terms of public use of the BBC and their attitudes towards it. These audience research measures are being used as metrics to assess the value of the BBC to the UK public. Some of the attitudinal measures address perceptions of the BBC's outputs and some examine public views about the way the BBC is funded and managed. The book has been written at a time when the BBC reached its centenary and also the mid-point of its latest Royal Charter period. At the time of writing, the government had begun a mid-term review of its performance as judged by its attainment of objectives set out in that Charter. The Secretary of State for Digital, Culture, Media and Sport at the time of the mid-term review had spoken and written openly about abolishing the TV licence fee and the introduction of a new funding model for the BBC that would be implemented in its new Royal Charter due to be enacted in 2027. Against this backdrop, this book examines public opinion about the funding of the BBC and then looks at changing media consumption habits and how these have affected patronage of the BBC's outputs. "Ultimately, a decision must be taken about the kind of national broadcaster the UK - both is government and its citizens - would like to keep in the future. Changing the funding model without first defining what the BBC should do and how it should be structured and resourced to do it could result in a messy solution that satisfies and benefits no one."

who owns redfield and wilton strategies: Preventable Devi Sridhar, 2022-04-21 ****THE SUNDAY TIMES BESTSELLER | BBC RADIO 4 BOOK OF THE WEEK**** The definitive story of COVID-19 and how global politics shape our health - from a world-leading expert and the pandemic's go-to science communicator Professor Devi Sridhar has risen to prominence for her vital roles in communicating science to the public and speaking truth to power. In *Preventable* she highlights lessons learned from outbreaks past and present in a narrative that traces the COVID-19 pandemic - including her personal experience as a scientist - and sets out a vision for how we can better protect ourselves from the inevitable health crises to come. In gripping and heartfelt prose, Sridhar exposes the varied realities of those affected and puts you in the room with key decision makers at crucial moments. She vibrantly conveys the twists and turns of a plot that saw: deadlier variants emerge (contrary to the predictions of social media pundits who argued it would mutate to a milder form); countries with weak health systems like Senegal and Vietnam fare better than countries like the US and UK (which were consistently ranked as the most prepared); and the quickest development of game-changing vaccines in history (and their unfair distribution) Combining science, politics, ethics and economics, this definitive book dissects the global structures that determine our fate, and reveals the deep-seated economic and social inequalities at their heart - it will challenge, outrage and inspire. 'A brutally compelling reminder that if voices like Devi's had been listened to, so many more could have lived' OWEN JONES 'One of the most brilliant scientists in the world who has been proven consistently right in this crisis' PIERS MORGAN 'Excellent . . . Fair, clear and compelling' NICOLA STURGEON 'Those who have found Professor Devi Sridhar's expertise and calm advice invaluable since the arrival of Covid-19 will be glad to know that she has written *Preventable*' RACHEL COOKE, *Guardian*, Non-fiction to look out for in 2022

who owns redfield and wilton strategies: Campaign of Chaos Larry J. Sabato, Kyle Kondik, J. Miles Coleman, 2025-07-24 Larry Sabato, one of the leading experts in American politics, brings together respected journalists and academics from across the political spectrum to examine every facet of the 2024 election, and what its development and outcome will mean for the nation moving forward. In frank, accessible prose, each author offers insight that goes beyond the headlines, and dives into the underlying forces and shifts that drove the election from its earliest developments to its dramatic conclusion. Following Sabato's introductory analysis, the contributors provide a comprehensive review of everything in play during the 2024 elections, exploring the nominating processes, the unexpected handoff to Kamala Harris, conventions, and futures of both the Democratic and Republican parties, and what recent geographic and demographic electoral realignments might mean for America's politics beyond 2024.

who owns redfield and wilton strategies: "Wake Up, Mr. West" Joshua K. Wright, 2022-01-27 Black celebrities in America have always walked a precarious line between their perceived status as spokespersons for their race and their own individual success--and between being not black enough for the black community or too black to appeal to a broader audience. Few know this tightrope walk better than Kanye West, who transformed hip-hop, pop and gospel music, redefined fashion, married the world's biggest reality TV star and ran for president, all while becoming one of only a handful of black billionaires worldwide. Despite these accomplishments, his polarizing behavior, controversial alliances and bouts with mental illness have made him a caricature in the media and a disappointment among much of his fanbase. This book examines West's story and what it reveals about black celebrity and identity and the American dream.

who owns redfield and wilton strategies: The Pandemic in Britain Sean Creaven, 2023-06-09 This book offers a political analysis and sociological critique of the UK government's response to the novel coronavirus outbreak, interpreting the inadequacies of government policy with regard to COVID-19 as the results of neoliberal ideology, the protection of corporate interests, Brexit nationalism, and the peculiarities of a British model of capitalism based on international trade and labour market precarity. Arguing that institutionalized corporate-capitalist control of state and science generates new and growing public health risks, and that consumer-driven individualism has eroded community life and the protections this might offer against pandemics, the author contends that the UK government's catastrophic response to the COVID-19 pandemic was the result of peculiarly British socioeconomic and political phenomena. The Pandemic in Britain will appeal to scholars of sociology, philosophy and politics with interests in the COVID-19 pandemic as well as neoliberal ideology and its manifestation in political life.
