women s health expo 2024: Sexual and Reproductive Health and Rights of Women in Africa and the Caribbean Zainab Monisola Olaitan, Tinuade Adekunbi Ojo, Shakira Maxwell, 2025-07-31 In a time of global backlash against women's rights and gender issues, this book echoes the importance of protecting the sexual and reproductive health and rights of women by conceptualising and analysing relevant sexual and reproductive health rights issues (SRHR) in Africa and the Caribbean. It examines the linkages that exist around SRHR issues between the two regions and how this understanding can help to support the protection of sexual and reproductive health and rights both in Africa and the Caribbean. It focuses on providing historical, conceptual and contextual understandings of SRHR issues in the African continent and the Caribbean region. The main topics engage theoretical and contemporary issues, e.g., limitations to the single use of courts as avenues for reducing obstetric violence, abortion rights, maternal mortality, gender-based violence, and adolescent sexuality. The book presents diverse perspectives in the examination of SRHR issues by offering legal, socio-political, and medical frameworks for analysing and understanding sexual and reproductive health and rights. It further contributes to the discourse and strategies to protect the sexual and reproductive health and rights of women and men to improve both women's and men's quality of life/well-being and to also achieve gender equality.

women s health expo 2024: Sexual and Reproductive Health of Women Pradip Chouhan, Avijit Roy, Nanigopal Kapasia, Jayanta Das, Margubur Rahaman, 2025-01-31 The book offers readers a nuanced understanding of sexual and reproductive rights, health status, associated concerns and policy critiques within the context of South Asia. While sexual and reproductive health issues are

prevalent worldwide, the severity and underlying drivers vary across regions. South Asia, identified as a hotspot for vulnerability in sexual and reproductive health, currently lacks comprehensive coverage of existing global perspectives on the subject. Intended as a comprehensive guide to understanding the sexual and reproductive health complexities, reproductive morbidity and multifaceted health policies of women in South Asia, this book will examine menstrual health as well as changing fertility behaviours among women. It will provide in-depth case studies on demand family planning, birth control and pressing issues of women's health perspectives. The book highlights the wide range of sexual and reproductive health morbidities, including maternal health complications, eclamptic maternal death, sexually transmitted diseases, infected diseases and health disparity among reproductive women. Adopting advanced quantitative techniques in the social sciences and GIS modeling, this book offers a unique and insightful look at women's reproductive health and its implications for shaping health policies.

women s health expo 2024: Be Bad, Better Rebecca Seal, 2023-12-28 'An anthem! A permission slip! Freedom to be us in full glory and messiness ... a fun and freeing read' Melissa Hemsley 'What a powerful, freeing, thought-provoking read this is. I let out a breath I hadn't even realised I was holding' Anna Mathur You do not have to be good. At some point, you'll have absorbed the message that being good is to be calm, efficient and tidy. Wise and well-meaning people offer to help you become worthy, to be positive and productive and to always say 'yes, I can!' But what if this is wrong? And what if some of the things we've been told are bad, are just as useful as the good? Blending science, expert interviews and practical advice, here is the flipside of everything we've been told we should be - and how the bad parts are really not so bad after all. You'll discover: - Why it's helpful to feel angry - How it's counterproductive to always be productive - How laziness can improve your relationships - Why your body is, and has always been, absolutely fine - How clutter inspires creativity and enhances your sense of place - Why mindlessness is good for your mental health Be Bad, Better is not an invitation to start misbehaving but it is about taking what you think are your worst bits and asking what they could do to serve you. Examining how society polices our behaviour and artificially constructs the good and bad, here is a thoughtful and eminently helpful guide to reassessing your ideas of success, embracing every part of yourself and being bad, better.

women s health expo 2024: Global Women's Health Jürgen Wacker, Camilla Rothe, Maryam En-Nosse, 2024-12-09 In this book, editors and their co-authors discuss medical topics and their diverse circumstances in the global context. They explore where German standards stand in comparison to global conditions, what is important in women's healthcare - and what is less so, which standards are universally applicable, and where meaningful regional variations exist. The book, written in clear and understandable language, is aimed at gynecologists, obstetricians, midwives, and nurses involved in humanitarian aid, as well as anyone interested in the future development of global medicine. Content includes: General medical concepts and worldwide statistics Family planning worldwide Women's health in the face of climate change, population growth, and food shortages Incidence of preeclampsia, management of childbirth, birth injuries, and cesarean section Therapy options for gynecological carcinomas and palliative care Management of normal childbirth in poor and rich countries Female Genital Mutilation (FGM) Tropical diseases and infections related to pregnancy and childbirth Separate guidelines for poorer and richer countries?

women s health expo 2024: *Environmental Impacts on Women's Health Disparities and Reproductive Health: Advancing environmental health equity in clinical and public health practice* Darlene Dixon, Melissa M. Smarr, Kristen Rappazzo, 2024-11-07 On April 27-28, 2022, the National Institute of Environmental Health Sciences (NIEHS) hosted a workshop to examine the effects of chemical and non-chemical stressors on maternal and fetal adverse health outcomes, discuss diseases specific to women and individuals assigned female at birth, and to assess the role of racial and ethnic disparities in environmental exposures. The concepts of early and lifetime exposures and the correlation between socioeconomic status, hazardous exposures, and communities of color were explored with a focus on the synergistic impacts on women's health. Current research and knowledge gaps in the context of environmental exposures and women's reproductive health

disparities were examined. This Research Topic reflects the work presented at the NIEHS 2-day workshop or work suggesting critical ways to advance environmental health disparities and women's reproductive health research, or environmental health equity in public health and clinical practice.

women s health expo 2024: Women's Health in IBD Bincy P. Abraham, Sunanda V. Kane, Kerri L. Glassner, 2024-06-01 A comprehensive guide, *Women's Health in IBD: The Spectrum of Care From Birth to Adulthood* will help providers approach the specific issues that women with inflammatory bowel disease (IBD) face throughout their lifetimes. This book will better equip providers to counsel and support women of all ages with IBD. In *Women's Health in IBD*, Drs. Bincy P. Abraham, Sunanda V. Kane, and Kerri L. Glassner focus on the unique aspects of care for women with IBD. Half of the IBD patient population is female. As we understand more about gender and sex differences in terms of genetics, physiology, and medical care, it is important to consider these factors between men and women to personalize their care. This book encompasses the entire life span of the female IBD patient through birth, adolescence, pregnancy, menopause, and older adult years. Each chapter includes discussions of medications, treatment plans, and common questions or controversies on important topics in IBD such as: Transitioning from pediatric to adult care Diet and nutrition Mental health Health maintenance Family planning Pregnancy and breastfeeding Menopause Concomitant irritable bowel syndrome *Women's Health in IBD: The Spectrum of Care From Birth to Adulthood* is an essential text that will help anyone who treats women with IBD, offering practical tools and takeaways for point of care and beyond.

women s health expo 2024: Gender-Transformative Approaches for Climate Change Adaptation Anindita Sarkar, Nairwita Bandyopadhyay, 2025-07-14 This book offers an array of narratives and recommendations for gender-transformative climate change adaptation strategies based on research and evidence from the Global South. We look at gender-transformative adaptation (GTA) as a process that aims to address gender and power imbalance and strive for a change at the institutional level to enable empowering consequences through the meaningful and equal participation of women and men in leadership, policy, and decision-making processes. It makes four main contributions. First, it collates scholarship on the politics of adaptation and how policies affect men and women differently in communities and different geographical locations. Second, it captures pathways for parallel goals of 'climate action' (SDG 13) and 'achieving gender equality and empowerment' (SDG 5) through transformative ideas. Third, it curates new methodologies and adds knowledge to the gender transformative research (GTR) and assesses its potential for challenging and addressing gender power equations. Fourth, it voices the parallel ideas and evidence, placing women as both "victims of climate change" and as the "new change makers" in the path of climate adaptation.

women s health expo 2024: Environmental Health Natalie Sampson, Lindsay Tallon, Natasha DeJarnett, 2024-08-29 *Environmental Health: Foundations for Public Health* brings together diverse voices and perspectives to examine our most pressing public health issues today. This foundational textbook introduces readers to a wide range of the knowledge, skills, data, and resources needed to ensure environmental health at local and global levels. Whether students are heading into careers in governmental public health, research, advocacy, or other sectors, this textbook covers topics that relate to us all: climate change, energy, air, water, food, waste, and much more. Designed for graduates and advanced undergraduates, this textbook presents the field's basic concepts, related policies, and scientific tools in an accessible way. Readers learn about regulatory science, how environmental health science informs environmental protections, and where gaps remain, particularly in promoting environmental justice. Each chapter examines ways that structural racism and discrimination have shaped environmental health inequities that persist today.

Readers can dig deeper to examine how environmental health and justice can be achieved in our communities, workplaces, households, and other built and social environments, as well as our healthcare systems. Drawing on countless historic and contemporary case studies, *Environmental Health: Foundations for Public Health* facilitates a learning experience that inspires students to reimagine the foundations of environmental health for all. Key Features: Provides a variety of learning tools, including discussion questions and learning activities, related to engagement, advocacy, and the exploration of environmental health in our daily lives Presents In Other Words boxes to reframe key or complex concepts and promote accessibility Humanizes the realities of pressing environmental health and justice concerns Includes access to a five-episode companion podcast series—The PFAS Chronicles—on the challenges and solutions of preventing and combating per- and polyfluoroalkyl substances (PFAS), or forever chemicals Qualified instructors have access to expanded Instructor Resources featuring chapter PowerPoint slides, a Test Bank, a Sample Syllabus, and an Instructor Manual to supplement students' dynamic learning and interaction with the text

women s health expo 2024: War on Gaza Abdo Hassoun, 2025-07-01 The relentless bombardment and blockade on Gaza have not only drastically restricted the inflow of essential food supplies but have also led to a catastrophic humanitarian crisis with unprecedented casualties. The widespread destruction has crippled the ability of the population to grow and process food, leaving Gazans without sufficient access to basic nutrition and pushing them to the brink of famine. Building on the previous work of Dr. Hassoun on acute food insecurity and malnutrition in Gaza, this book addresses not only Sustainable Development Goal (SDG) 2—Zero Hunger, SDG 3—Good Health and Well-being, and SDG 6—Clean Water and Sanitation, but all seventeen SDGs. While brief reports have been published on the topic, this will be the first in-depth scholarly work, offering case studies, data-driven analysis from various fields, and a comprehensive examination of the multidimensional and devastating impacts of war. With an urgent and multidisciplinary perspective, this book highlights the interconnectedness of war, sustainability, and global security, emphasizing how hostilities in Gaza have reversed progress toward achieving all SDGs, both in Gaza and beyond. Bringing together diverse expertise from 60 authors across 27 countries, the book showcases the international and interdisciplinary collaboration underlying its research. Through a series of carefully curated chapters written by specialists in various fields, it provides a comprehensive analysis of how war has affected societal structure, economic resilience, and environmental sustainability in Gaza. For each issue addressed, the text offers strategic insights and practical measures aimed at mitigating damage and fostering resilience. This book serves as a critical resource for policymakers, researchers, humanitarian organizations, and anyone who is interested in understanding and addressing the complex dynamics of conflict and sustainability.

women s health expo 2024: Ecological and Human Health Impacts of Contaminated Food and Environments Ming Hung Wong, 2025-07-16 This book discusses linkages between the natural and disturbed chemical composition of the earth's surface and ecological and human health. It reviews the environmental geochemical cycles of natural elements and persistent toxic substances (PTS) in the environment, highlighting the degradation of soil and water resources due to human activities such as extraction and usage of minerals. There is an attempt to provide evidence concerning the health effects of consuming contaminated food, due to frequent consumption of mercury-laden fish. Lastly, sources, fates, and ecological effects of various PTS are presented, including microplastics and associated chemicals. Details linkages between the natural and disturbed chemical composition of the earth's surface, and environmental and human health, focusing on food contamination Discusses emerging pollutants with potential widespread hazardous effects such as bisphenol A and phthalates Reviews safe food production and quality, as well as the management, regulation and policies concerning toxic chemicals Contains cutting edge knowledge on safe food production and remediating technologies Describes how geochemical cycling results in food contamination

women s health expo 2024: Essentials in Health and Mental Health Masood Zangeneh, 2024-05-30 In a world increasingly characterized by rapid change and constant challenges,

maintaining good physical and mental health is more important than ever. *Essentials in Health & Mental Health* is a comprehensive exploration of the multifaceted landscape of health and well-being, delving into key aspects that affect individuals of all ages, backgrounds, and circumstances. Through the lens of 20 meticulously crafted chapters, this book takes you on a journey to understand the essential elements that contribute to our overall health, from the invisible struggles of loneliness and mental health problems to the impact of global events like the COVID-19 pandemic. The book begins with an eye-opening chapter that sheds light on the pervasive nature of loneliness and its profound impact on the functioning of individuals. women s health expo 2024: *Indoor Air Quality Assessment for Smart Environments* Jagriti Saini, Maitreyee Dutta, Gonçalo Marques, Malka N. Halgamuge, 2022-05-15 Indoor air quality (IAQ) and indoor air pollution (IAP) are a matter of concern in many countries because they can significantly influence the general health and well-being of those who spend most of their time inside, whether at home or work. Poor IAQ and repeated exposure to dangerous concentrations of pollutants can contribute significantly to the healthcare burden along with increased absenteeism and lost productivity worldwide. This book, *Indoor Air Quality Assessment for Smart Environments*, explores the problem of IAQ and highlights potential challenges, gaps, and opportunities in the field. As the title suggests, it focuses on assessing IAQ in smart environments using emerging technologies, such as the Internet of Things (IoT) and Wireless Sensor Networks (WSN), that can further contribute to the development of intelligent building management systems. The book contains 8 chapters, written by various experts in the field and addressing significant elements of IAQ management, including: definition, state-of-the-art and applications; sensing techniques; technological interventions and smart environments; smart monitoring devices; green and smart hospitals; health risks of nano building products; the optimization of household ventilation; and an assessment of smart environments. While providing a useful source of knowledge for researchers, policymakers, public health professionals and government agencies wishing to enhance the air quality in buildings, the book will also serve as a guide to building occupants who wish to take the necessary measures to enhance the built environment with improved ventilation arrangements.

women s health expo 2024: *Transfiguring Women in Late Twentieth-Century Japan* James Welker, 2024-07-31 *Transfiguring Women in Late Twentieth-Century Japan: Feminists, Lesbians, and Girls' Comics Artists and Fans* examines three dynamic and overlapping communities of women and adolescent girls who challenged Japanese gender and sexual norms in the 1970s and 1980s. These spheres encompassed activists in the ūman ribu (women's liberation) movement, members of the rezubian (lesbian) community, and artists and readers of queer shōjo manga (girls' comics). Individually and collectively, they found the normative understanding of the category "women" untenable and worked to redefine and expand its meaning by transfiguring ideas, images, and practices selectively appropriated from the "West." They did so, however, while remaining firmly fixed on the local. Thus, for many, this ostensibly Western focus was not a turn away from Japan but integral to their understanding of being a woman within Japan. Following broad historical overviews of the ūman ribu, rezubian, and queer shōjo manga spheres, the book takes a deeper look through the lenses of terminology, translation, and travel to offer a window onto how acts of transfiguration reshaped what it meant to be a woman in Japan. The work draws on a vast archive that encompasses early twentieth-century dictionaries, sexology texts, and literature; postwar women's and men's magazines and pornography; translated feminist and lesbian texts; comics and animation; and newsletters, fanzines, and other heretofore largely unexamined ephemera. The volume's characterization of the era is also greatly enriched by interviews with more than sixty individuals. *Transfiguring Women in Late Twentieth-Century Japan* demonstrates that the transfiguration of Western culture into something locally meaningful had tangible effects beyond newly (re)created texts, practices, images, and ideas within the ūman ribu, rezubian, and queer

shōjo manga communities. The individuals and groups involved were themselves transformed. More broadly, their efforts forged new understandings of “women” in Japan, creating space for a greater number of public roles not bound to being a mother or a wife, as well as a greater diversity of gender and sexual expression that reached far beyond the Japanese border.
