women s business conference 2024: Washington Information Directory 2023-2024 CQ Press, 2023-11-21 The Washington Information Directory (WID) is a topically organized reference resource that lists contact information for federal agencies and nongovernmental organizations in the Washington metro area along with a brief paragraph describing what each organization does related to that topic. In addition, WID pulls together 55 organization charts for federal agencies, congressional resources related to each chapter topic, hotline and contact information for various specific areas of interest (from Food Safety Resources to internships in Washington), and an extensive list of active congressional caucuses and contact details. WID has two appendices, one with thorough information on congresspersons and committees, and the second with governors and embassies.

women s business conference 2024: The Politics of Gender Equality Carol Johnson, 2024-08-22 This open access book provides the first in-depth study of the development of federal gender equality politics and policy in Australia from the 1970s to the present day. Australia has a history of gender equality innovation, including granting women's suffrage long before equivalent countries. From the 1970s on, it became the first country to introduce a women's adviser, femocrats (feminist bureaucrats) and gender responsive budgeting but then fell behind, partly due to the influence of Anglosphere neoliberalism. However, the Albanese government has pledged to make

Australia a world leader in gender equality again. The book situates Australia in an international context, assessing the useful, though sometimes salutary, lessons which the Australian experience provides. It engages with key literature, including feminist political theory, discursive framing analysis, gendered public policy analysis, LGBTIQ+ issues, path dependency, and gender and leadership. It will interest academics, undergraduate and postgraduate researchers, public policy experts and practitioners, and a broader readership interested in issues of gender equality. The book makes innovative contributions to the study of the politics of gender equality policy, addressing what a gender equality policy agenda could look like if the needs of women, in all their intersectional social diversity, were the driving force. In doing so, it addresses a range of issues that are impacting the future of women, including an ongoing pandemic, technology, education and training agendas, issues of sovereign capability, securitisation, climate change and the growth of campaigns that oppose so-called "gender ideology". It explores how current government agendas, such as the focus on wellbeing, could be made even more gender-inclusive. Finally, the book suggests that Australia, as a multicultural but predominantly Western, settler-colonial society situated in the Asia-Pacific has some potentially unique insights to offer in a world facing major geoeconomic and geopolitical change.

women s business conference 2024: CONFERENCE E-ABSTRACT PROCEEDINGS: EMERGING SOCIO-ECONOMIC TRENDS & BUSINESS STRATEGY Sourav Kumar Das, Dr. Prithvish Bose, 2025-08-27 It is a matter of great pride and pleasure to present the Abstract Proceedings of the Conference on "Emerging Socio-Economic Trends and Business Strategy," a platform that brought together scholars, practitioners, and thought leaders from across the globe to engage in meaningful dialogue on the evolving dynamics of our socio-economic landscape. women s business conference 2024: Sustainable Entrepreneurship and Family Business for Women's Empowerment Gigauri, Iza, 2025-03-06 Sustainable entrepreneurship within family businesses offers a powerful platform for women's empowerment, blending economic growth with social and environmental responsibility. As women continue to lead in family-owned enterprises, they drive innovation and profitability while improving sustainable practices that prioritize long-term well-being over short-term gains. By focusing on ethical business strategies, resource conservation, and community development, women entrepreneurs reshape industries while fostering inclusive growth. Family businesses provide a unique environment for women to influence business culture, integrate personal values, and create lasting legacies that contribute to both their personal empowerment and broader societal progress. Sustainable Entrepreneurship and Family Business for Women's Empowerment focuses on women's empowerment in entrepreneurship and provides a theoretical and practical framework for an inclusive society and gender equality in business. It emphasizes the importance of entrepreneurship and family business in fostering women's empowerment. This book covers topics such as skill development, sociology, and economics and economic theory, and is a useful resource for business owners, entrepreneurs, sociologists, economists, academicians, and researchers.

women s business conference 2024: *Women Entrepreneurship Policy* Léo-Paul Dana, Meghna Chhabra, 2024-07-08 This book focuses on the importance of women's entrepreneurship policy in the entrepreneurial ecosystem. The book's contributions demonstrate a link between the nature of policy implications, the various theoretical perspectives used, and whether scholars' policy implications have transformed as the field of women's entrepreneurship study has advanced. The book looks deeper into the reasons why there seems to be a big gap between formal women's entrepreneurship legislation and actual business support services. What can be done to close policy and program gaps? What can government policy do to foster an entrepreneur-friendly environment?

What level and form of government intervention in the economy should be to attain this goal? These issues have been hotly debated for a long time, and this book seeks answers to these questions. An institutional approach to analysing government policies is encouraged because macro-level regulations, social norms, and culture influence fostering women's entrepreneurial activities. The book and its contributions draw on gender and institutional theory to recommend policy initiatives and measures to combat the lower entrepreneurship rates among the women population. Researchers and policymakers will benefit significantly from this book since it contains ideas for improving policy measures, the entrepreneurial ecosystem for women, and areas for further research. Women entrepreneurs have different motives and goals than men when starting a business.

women s business conference 2024: Trade Agreements and Women Amrita Bahri, 2025-01-10 With more and more countries including provisions on women's concerns in their trade agreements, *Trade Agreements and Women: Transcending Barriers* explores how women's empowerment and trade liberalization interact, overlap, and converge. Tapping into examples from across the globe, and taking into consideration the diverse political, economic, social, and legal contexts of different countries, Amrita Bari poses and answers some key questions: What role can trade agreements play with regard to women's empowerment, and what limitations do they have? Have previous efforts to include women through trade agreements been genuinely responsive to the needs of women, or have they been merely symbolic? What, ultimately, makes a trade agreement responsive to the needs of women, and how can countries achieve this in their own trade agreements? In answering these questions, Bahri carves out a roadmap, with concrete recommendations, for the future of women-related trade provisions, and offers much-needed guidance for legal scholars, trade negotiators, and policymakers involved in preparing, revising, and inclusively negotiating trade regulations.

women s business conference 2024: Inclusive Entrepreneurship in Africa Samuel Adomako, Francis Donbesuur, Kwabena Frimpong, Robert Opoku, Marcia Mkansi, Stella Nyongesa, 2025-10-23 *Inclusive Entrepreneurship in Africa* offers a timely and essential examination of how diversity, equity, and inclusion are reshaping the continent's entrepreneurial landscape. Bringing together cutting-edge research, lived experiences, and practical strategies, this book highlights the untapped potential of women, refugee communities, and marginalised groups across Africa and the Global South. Organized into three thematic parts, the book explores the lived realities and innovation potential of women and refugee entrepreneurs; the performance and strategic advantages of gender-diverse entrepreneurial teams; and the role of inclusive design in building trusted, sustainable ventures. Each chapter offers new insights into how systemic barriers can be overcome through inclusive practices, stakeholder engagement, and culturally grounded entrepreneurship. Far

from treating inclusion as a peripheral issue, this volume positions it as central to Africa's entrepreneurial future. *Inclusive Entrepreneurship in Africa* is a powerful call to action for scholars, policymakers, investors, and practitioners to build more equitable ecosystems where all entrepreneurs—regardless of gender, background, or ability—can thrive and contribute to sustainable development across the continent.

women s business conference 2024: *One Day I'll Work for Myself* Benjamin C. Waterhouse, 2024-01-16 From side-hustlers to start-ups, freelancers to small business owners, Americans have a special affinity for people who make it on their own. But the dream has a dark side. "One day I'll work for myself." Perhaps you've heard some version of that phrase from friends, colleagues, family members—perhaps you've said it yourself. If so, you're not alone. The spirit of entrepreneurship runs deep in American culture and history, in the films we watch and the books we read, in our political rhetoric, and in the music piping through our speakers. What makes the dream of self-employment so alluring, so pervasive in today's world? Benjamin C. Waterhouse offers a provocative argument: the modern cult of the hustle is a direct consequence of economic failures—bad jobs, stagnant wages, and inequality—since the 1970s. With original research, Waterhouse traces a new narrative history of business in America, populated with vivid characters—from the activists, academics, and work-from-home gurus who hailed business ownership as our economic salvation to the upstarts who took the plunge. We meet, among others, a consultant who quits his job and launches a wildly popular beer company, a department store saleswoman who founds a plus-size bra business on the Internet, and an Indian immigrant in Texas who flees the corporate world to open a motel. Some flourish; some squeak by. Some fail. As Waterhouse shows, the go-it-alone movement that began in the 1970s laid the political and cultural groundwork for today's gig economy and its ethos: everyone should be their own boss. While some people find success in that world, countless others are left bouncing from gig to gig—exploited, underpaid, or conned by get-rich-quick scams. And our politics doesn't know how to respond. Accessible, fast-paced, and eye-opening, *One Day I'll Work for Myself* offers a fresh, insightful cultural history of the U.S. economy from the perspective of the people within it, asking urgent questions about why we're clinging to old strategies for progress—and at what cost.

women s business conference 2024: *Roots of Prosperity* Gary Teelucksingh, 2025-10-25 Drawing on his decades-long career in financial services and his own immigrant experience, wealth management expert Gary Teelucksingh assembles proven research, successful and challenging case studies, and strategies into a comprehensive, step-by-step guide to the intricate process of intergenerational wealth transfer, exploring topics such as tax-efficient gifting strategies, behavioural economics principles, and differing cultural attitudes toward wealth. With checklists, conversation prompts, and planning templates, *Roots of Prosperity* empowers families, and their wealth advisors and estate planners, to build enduring legacies that preserve both wealth and cultural values.

women s business conference 2024: **7th International Conference on Gender Research** Professor Carmen-Pilar Martí Ballester , 2024-04-25 These proceedings represent the work of contributors to the 7th International Conference on Gender Research (ICGR 2024), hosted by The Universitat Autònoma de Barcelona, Spain on 25-26 April 2024. The Conference Chair was Professor

Carmen-Pilar Martí Ballester, from the Universitat Autònoma de Barcelona, Spain. ICGR is a well-established event on the academic research calendar and now in its 7th year the key aim of this diverse conference is to provide an opportunity for participants from different backgrounds and cultures to share ideas and meet the people who hold them. The scope of papers ensured an interesting two days. The subjects covered in these proceedings illustrate the wide range of topics that fall into this important and ever-growing area of research.

women s business conference 2024: Shaping Tomorrow Paola Paoloni, 2025-02-26 This edited book aims to analyze gender perspectives within the context of sustainable development, providing a comprehensive overview of the phenomena that characterize both public and private organizations. Sustainability assumes a central role in addressing gender issues. Achieving sustainability is crucial for the overall well-being of society. It drives economic growth by promoting the creation of highly skilled jobs, addressing environmental issues, strengthening business success, and encouraging debate on social challenges such as gender equality. In the field of gender equality, sustainability emerges as a competitive advantage, particularly for women who contribute new and fresh perspectives as well as valuable expertise capable of effectively guiding companies toward more sustainable practices. Supported by knowledge and open innovation, women can raise awareness among companies about more sustainable practices. The book is structured in three sections: Non-financial disclosure for sustainable growth in the field of gender equality, gender diversity in public and private organizations and gender issues within the entrepreneurial context.

women s business conference 2024: *Violence against Women* Gordana Gasmi, 2025-03-15 *Violence Against Women: International Legal Standards and Trends* delves into the international legal framework's successes and failures in addressing gender-based violence around the globe. Gordana Gasmi examines how international legal standards and principles, enshrined in universal and regional instruments, have influenced the implementation of measures to combat violence against women. While the book addresses shortcomings, it also shines light on the positive transformative capacity of these standards, as evidenced by relevant case law and the practices of international courts and monitoring bodies. Underscoring the need to recognize the severe consequences of violence against women and the importance of promoting gender equality through legal mechanisms, this book is a valuable resource for scholars, academic libraries, experts from NGOs, legal professionals, and anyone interested in understanding the global challenges and legal responses to this pressing issue.
