women s history month ideas for church: Teaching British Women Writers, 1750-1900 Jeanne Moskal, Shannon R. Wooden, 2005 The exuberant recovery from obscurity of scores of British women writers has prompted professors and publishers to revisit publication of women's writings. New curricular inclusion of these sometimes quirky, often passionate writers profoundly disrupts traditional pedagogical assumptions about what constitutes «literature». This book addresses this radically changed educational landscape, offering practical, proven teaching strategies for newly «recovered» writers, both in special-topics courses and in traditional teaching environments. Moreover, it addresses the institutional issues confronting feminist scholars who teach women writers in a variety of settings and the kinds of career-altering effects the decision to teach this material can have on junior and senior scholars alike. Collectively, these essays argue that teaching noncanonical women writers invigorates the curriculum as a whole, not only by introducing the voices of women writers, but by incorporating new genres, by asking new questions about readers' assumptions and aesthetic values, and by altering the power relations between teacher and student for the better.

women s history month ideas for church: Lessons from the Foothills Gretchen Dykstra, 2024-09-24 In 1859, a mob of sixty-five prominent armed men rode into Berea, Kentucky, and forced the closure of its integrated one-room schoolhouse. Founded by Kentucky-born abolitionist John Gregg Fee, the school was open to anyone, regardless of their race or gender—a notion that horrified white supremacists. The mob evicted thirty-six community members, including Fee's family, but Fee and the others returned to Berea in 1864 and reestablished the institution, still committed to educating Appalachia's most vulnerable populations. In *Lessons from the Foothills*, Gretchen Dykstra profiles modern Berea College with its rich and beloved history. This book is the first to focus on contemporary Berea and its eight Great Commitments—the principles and practices that provide clear aspirations for the college and its community. Each chapter functions as a deep dive into the history, practice, and significance of one Great Commitment, from providing opportunity for the most marginalized, to the college's high academic standards and its commitment to environmental sustainability. The college has pledged to provide an educational opportunity for students of all races, primarily from Appalachia, who have great promise and limited economic resources. To achieve this goal, the college eliminated tuition in 1892 and it also provides jobs for

students to assist with living expenses. Drawn from interviews with a range of members of the Berea community, including alumni, students, faculty, and staff, *Lessons from the Foothills* is an engaging portrait of a unique and historic institution and its enduring commitment to nurture and support academic excellence and service.

women s history month ideas for church: *Evangelistic Prayer* J. Kie Bowman, 2024-05-24 Acts 2:47 tells us that the believers in the early Church, prayed, and people were saved. In fact, this pattern--prayer first, then evangelism--is a pattern emphasized throughout the book of Acts. Somewhere along the line the modern Church has forgotten that biblical formula! *Evangelistic Prayer* explores the truth of this prayer-evangelism connection and shows individuals and churches how to see people come to faith in Jesus Christ as they put this early Church method into practice. Let *Evangelistic Prayer* challenge and equip you and your congregation to pray with more passion and insight for their lost friends and family. Kie Bowman is the National Director of Prayer for the Southern Baptist Convention, and Senior Pastor Emeritus of Hyde Park Baptist Church in Austin, Texas. He helps lead a citywide prayer ministry in Austin, where he lives with his wife Tina. He is also the co-author of *City of Prayer: Transform Your Community through Praying Churches*.

women s history month ideas for church: *Albert Cleage Jr. and the Black Madonna and Child* Jawanza Eric Clark, 2016-09-14 In this collection, black religious scholars and pastors whose expertise range from theology, ethics, and the psychology of religion, to preaching, religious aesthetics, and religious education, discuss the legacy of Albert B. Cleage Jr. and the idea of the Black Madonna and child. Easter Sunday, 2017 will mark the fifty year anniversary of Albert B. Cleage Jr.'s unveiling of a mural of the Black Madonna and child in his church in Detroit, Michigan. This unveiling symbolized a radical theological departure and disruption. The mural helped symbolically launch Black Christian Nationalism and influenced the Black Power movement in the United States. But fifty years later, what has been the lasting impact of this act of theological innovation? What is the legacy of Cleage's emphasis on the literal blackness of Jesus? How has the idea of a Black Madonna and child informed notions of black womanhood, motherhood? LGBTQ communities? How has Cleage's theology influenced Christian education, Africana pastoral theology, and the Black Arts Movement? The contributors to this work discuss answers to these and many more questions.

women s history month ideas for church: *History & Feminism* Judith P. Zinsser, 1993 As one twentieth-century historian described it, the subject matter of history is always men in the midst of other men - men in collectives and groups. Simply put, until the late 1960s women were not viewed as an integral part of the historical record. The few who did appear had predictable roles as the mothers and daughters, wives and mistresses of famous men. Extraordinary figures like the queens of sixteenth-century Europe or the nineteenth-century reformers in the United States, though praised for having taken on male roles, still could not escape patronizing phrases and denigrating stereotypes. Not only was history the study of man, but the profession itself had a skewed definition. The writing of history seemed a masculine prerogative, the historian a gentleman scholar mediating between the past and the present. In this first full-length study of the impact of feminism on history, Judith P. Zinsser traces the ways in which self-declared feminist scholars have worked since the early 1970s to present the other half of history. They created a new field - the study of women - and a new perspective - gender. Zinsser vividly conjures up the heady excitement of the first women's history programs, as well as the protracted struggles over access to and equal status in faculty departments, scholarly publications, and professional organizations such as the American Historical Association. Feminist scholars have, in fact, forced the inclusion of women as fully participating

members of the profession and the academy. Zinsser also writes about feminist initiatives outside of colleges and universities. She gives the first detailed account of the most influential of these grassroots initiatives, the National Women's History Project. In surveying the impact of all that has changed and all that has remained the same, Zinsser concludes that for feminist historians it appears to be a question of a glass half full or a glass half empty.
