women s history month images and quotes: Literary Images of Self and Other in Irish and Ukrainian Famine Fiction Tatiana Krol, 2025-07-10 This book is a comparative imagological study of novelistic representations of the Irish and Ukrainian Great Famines. It examines the formation of stereotypical perceptions between nations in Irish and Ukrainian fiction. Focusing on the novels *The Silent People* (1962) by Walter Macken, *The Hungry Land* (1986) by Michael Mullen, *Maria: A Chronicle of a Life* (1934) by Ulas Samchuk and *Sweet Snow* (2013) by Alexander J. Motyl, the author compares and contrasts images of the Self and the Other created in Irish and Ukrainian novels about famine and investigates ways in which stereotypical perceptions between nations are forged and disseminated. The author argues that negative attitudes between people and/or nations largely depend on power relations.

women s history month images and quotes: *The Secret History of Gender* Steve J. Stern, 2000-11-09 In this study of gender relations in late colonial Mexico (ca. 1760-1821), Steve Stern analyzes the historical connections between gender, power, and politics in the lives of peasants, Indians, and other marginalized peoples. Through vignettes of everyday life, he challenges assumptions about gender relations and political culture in a patriarchal society. He also reflects on continuity and change between late colonial times and the present and suggests a paradigm for understanding similar struggles over gender rights in Old Regime societies in Europe and the Americas. Stern pursues three major arguments. First, he demonstrates that non-elite women and men developed contending models of legitimate gender authority and that these differences sparked bitter struggles over gender right and obligation. Second, he reveals connections, in language and social dynamics, between disputes over legitimate authority in domestic and familial matters and disputes in the arenas of community and state power. The result is a fresh interpretation of the gendered dynamics of peasant politics, community, and riot. Third, Stern examines regional and ethnocultural variation and finds that his analysis transcends particular locales and ethnic subgroupings within Mexico. The historical arguments and conceptual sweep of Stern's book will inform not only students of Mexico and Latin America but also students of gender in the West and other world regions.

women s history month images and quotes: *Saving Images* Gordon W. Lathrop, 2017-11-15 Gordon W. Lathrop explores the place of the Bible as the subject of critical exegesis in contemporary liturgy. The text is grounded in the life of the assembly and the role of intertextuality in its creation. Lathrop finds patterns in biblical narratives that suggest revising our models of the shape of liturgy (Dix, Schmemmann) and our understanding of baptism, preaching, Eucharist, and congregational prayer. *Saving Images* calls for a new, reconceived biblical-liturgical movement that takes seriously both biblical scholarship and the mystery at the heart of worship.

women s history month images and quotes: *Racial Battle Fatigue* Jennifer L. Martin, 2015-01-26 Covering equity issues of sex, race, class, age, sexual orientation, and disability, this work presents creative, nontraditional narratives about performing social justice work, acknowledging the contributions of previous generations, describing current challenges, and appealing to readers to join the struggle toward a better world. Many would like to believe we are living as post-racial America, long past the days of discrimination and marginalization of people simply due to their race and minority status. However, editor Jennifer L. Martin and a breadth of expert contributors show that prejudice and discrimination are still very much alive in the United States. Sharing personal stories of challenges, aggressions, retaliations, and finally racial battle fatigue, these activists, practitioners, and scholars explain how they have been attacked—in subtle, shrouded, and sometimes outright ways—simply for whom and what they advocate: social justice. The stories within consist of discussions on the interconnections among equity issues: sex, race, class, age, sexual orientation, and disability. Furthermore, the work relates current events such as the banning of ethnic studies in Arizona and the shooting of Trayvon Martin to the battle for social justice. Other topics addressed include the ongoing problems of white supremacist beliefs, the challenges of teaching about the racist thinking that permeates our media and popular culture, and the harms of aggressions faced by minorities and those possessing multiple minority status. The unique narratives presented in this single-volume work combine the various approaches to answering questions about not only the necessity of fighting for social justice but also the impact of

the struggle on its champions.

women s history month images and quotes: The Women with Silver Wings Katherine Sharp Landdeck, 2021-03-30 "With the fate of the free world hanging in the balance, women pilots went aloft to serve their nation. . . . A soaring tale in which, at long last, these daring World War II pilots gain the credit they deserve."—Liza Mundy, New York Times bestselling author of Code Girls "A powerful story of reinvention, community and ingenuity born out of global upheaval."—Newsday When the Japanese attacked Pearl Harbor in December 1941, Cornelia Fort was already in the air. At twenty-two, Fort had escaped Nashville's debutante scene for a fresh start as a flight instructor in Hawaii. She and her student were in the middle of their lesson when the bombs began to fall, and they barely made it back to ground that morning. Still, when the U.S. Army Air Forces put out a call for women pilots to aid the war effort, Fort was one of the first to respond. She became one of just over 1,100 women from across the nation to make it through the Army's rigorous selection process and earn her silver wings. The brainchild of trailblazing pilots Nancy Love and Jacqueline Cochran, the Women Airforce Service Pilots (WASP) gave women like Fort a chance to serve their country—and to prove that women aviators were just as skilled as men. While not authorized to serve in combat, the WASP helped train male pilots for service abroad, and ferried bombers and pursuits across the country. Thirty-eight WASP would not survive the war. But even taking into account these tragic losses, Love and Cochran's social experiment seemed to be a resounding success—until, with the tides of war turning, Congress clipped the women's wings. The program was disbanded, the women sent home. But the bonds they'd forged never failed, and over the next few decades they came together to fight for recognition as the military veterans they were—and for their place in history.

women s history month images and quotes: The Erotic Thriller in Contemporary Cinema

Linda Ruth Williams, 2005 This bold and original book examines in detail a relatively new genre of film--the erotic thriller. Linda Ruth Williams traces the genre's exploitation of pornography and noir, discusses mainstream stars (including Michael Douglas and Sharon Stone) as well as genre-branded direct-to-video stars, charts the work of key producers and directors, and considers home videos as a distinct form of viewing pleasure. She maps the history of the genre, analyzing hundreds of movies from blockbusters such as *Basic Instinct*, *Fatal Attraction*, and *In the Cut* to straight-to-video film titles such as *Carnal Crimes*, *Sins of Desire*, and *Night Eyes*. Williams's witty and illuminating readings tell the story of this sensational genre and contribute to the analysis of mainstream screen sex--and its censorship--at the beginning of the 21st century. She shows that as the erotic thriller plays out the sexual fantasies of contemporary America, it also provides a vehicle for marketing those fantasies globally.
