women in history today: Current Issues in Women's History Arina Angerman, Geerte Binnema, Annemieke Keunen, Vefie Poels, Jacqueline Zirkzee, 2013 This lively collection of essays, originally published in 1989, illustrated recent developments in the area, with chapters by contributors from many different countries and disciplines. Asking new questions and using sources in a challenging way, the contributors reflect 1980s debates about politics and academic research in women's studies. They cover a wide range of topics, dealing for example with opportunities and obstacles for women within male-defined power-structures and institutions such as science, religious communities, and ancient Roman industry. They discuss feminists and feminist movements, analyse the utterances of women and men in medieval literature and in defamation cases, and give insights into the ways femaleness and femininity are given meaning. The essays on theory deal with such important issues as women's historiography, and androcentrism and ethnocentrism in history.

women in history today: Teaching History Today Mark Newman, 2024-02-14 The methods of teaching history in grades 6-12 have changed over the last few years to be more interactive and collaborative. More and more, teaching and learning revolves around an essential triad of inquiry, primary sources, and literacy in a collaborative classroom environment. Teaching History Today is about placing inquiry, primary sources, and literacy foundations of history instruction front and center in the education of preservice history teacher candidates and in-service classroom history teachers. By focusing on these major components of teaching and learning, readers can learn how to organize the massive amount of historical content into effective units. They can see how to integrate the learning of content with the development of skills. And they can gain expertise into how and why to engage students collaboratively in the learning process.

All are edited by practising teachers of the subject in question and are based on their experience of the needs of students. The arrangement combines chronological with thematic divisions. Most of the items listed receive some descriptive comment.

women in history today: Divine Sounds from the Heart—Singing Unfettered in their Own Voices Rekha Pande, 2010-09-13 Recent years have seen a sea change in the way history is written and also in the way our conceptions of the past are being rewritten. In traditional historiography, women's articulation is often marginalized and dominated by male voices. Through centuries of patriarchal control, women negotiated many layers and levels of existence working out different forms of resistance which have often gone unnoticed. Bhakti was one such medium. Religion provided the space in the medieval period and women saints embraced bhakti to define their own truths in voices that question society, family and relationships. For all these women bhaktas, the rejection of the male power that they were tied to in subordinate relationship became the terrain for struggle, self assertion and alternative seeking. Most of these women lived during the period from 12th to 17th Century. While the dominant mode of worship in bhakti was prostration to a deity like a feudal lord, the women bhaktas' idea of God as a lover, a husband and a friend came as a breath of fresh air. The individual outpourings and the voices of these women, who had the courage to sing unfettered in their own voices, refused to melt in the din of the feudal scene which was largely patriarchal. This book will be useful to scholars interested in Feminist History, Comparative Religion and Asian Studies. The sensitive and rigorous research will be of great help to young scholars interested in embarking on a journey to discover religious history, especially with regards to women's history in the South Asian context.

women in history today: *The Women of NOW* Katherine Turk, 2023-08-15 A clear blueprint for change . . . A must-read. —Clara Bingham, *The Guardian* The history of NOW—its organization, trials, and revolutionary mission—told through the work of three members. In the summer of 1966, crammed into a D.C. hotel suite, twenty-eight women devised a revolutionary plan. Betty Friedan, the well-known author of *The Feminine Mystique*, and Pauli Murray, a lawyer at the front lines of the civil rights movement, had called this renegade meeting from attendees at the annual conference of state women's commissions. Fed up with waiting for government action and trying to work with a broken system, they laid out a vision for an organization to unite all women and fight for their rights. Alternately skeptical and energized, they debated the idea late into the night. In less than twenty-four hours, the National Organization for Women was born. In *The Women of NOW*, the historian Katherine Turk chronicles the growth and enduring influence of this foundational group through three lesser-known members who became leaders: Aileen Hernandez, a federal official of Jamaican American heritage; Mary Jean Collins, a working-class union organizer and Chicago Catholic; and Patricia Hill Burnett, a Michigan Republican, artist, and former beauty queen. From its bold inception through the tumultuous training ground of the 1970s, NOW's feminism flooded the nation, permanently shifted American culture and politics, and clashed with conservative forces, presaging our fractured national landscape. These women built an organization that was radical in its time but flexible and expansive enough to become a mainstream fixture. This is the story of how they built it—and built it to last. Includes 16 pages of black-and-white images

women in history today: *Women Forgotten in History* Emily Rice, 2023-10-13 *Women Forgotten in History* unveils the captivating narratives of extraordinary women whose stories have been marginalized and obscured throughout time. As we reflect on history, it becomes apparent that the majority of names we encounter are those of men. But does this imply that women have contributed little or led uneventful lives? Or is it rather an indication that their achievements and stories have been obscured and overshadowed throughout the ages? Within the pages of this enlightening book, a tapestry of forgotten stories comes to life. From ancient Egyptian pharaohs to courageous teenagers who defied Nazi occupation, a diverse tapestry of women emerges from the shadows, these women reclaim their rightful place in history's narrative. Some forged inspiring paths as activists for noble causes, while others left a more morally complex legacy, their stories often veiled in mystery and legend. Despite their contrasting backgrounds and experiences, these women share a common thread: their captivating stories and the tragic reality that their lives and accomplishments have been forgotten or deliberately obscured with the passage of time. However, within their tales lie profound inspiration waiting to be rediscovered. *Women Forgotten in History* invites readers to embrace the richness of these forgotten narratives, to honour these remarkable women, and to find in their stories a wellspring of empowerment and motivation.

women in history today: Other Voices in Soviet History Heather D. DeHaan, Dan Healey, Tracy McDonald, 2025-04-15 Other Voices in Soviet History identifies Soviet historian Lynne Viola's critical methodological and thematic interventions in the study of Soviet history and builds on them through a selection of new research trajectories inspired by her thinking. The collection's essays are oriented around three overlapping themes: listening to subaltern voices, challenging a rigid victim-perpetrator binary, and contesting dominant narratives. By looking beyond central archives, official collections, and traditional sources, the contributors convey peripheral and subaltern voices and uncover how state narratives overlaid, existed alongside, or ignored altogether voices from the many crevices of empire. Other Voices in Soviet History decentres Soviet history by examining how colonial mindsets, war, agency, identity, the proximity of various borders, and transnational interactions shaped political, social, and cultural dynamics in the Union of Soviet Socialist Republics.

women in history today: Women and Scottish Society, 1700-2000 W.W.J. Knox, 2021-05-03 This book attempts to cover all the important aspects of a woman's life in Scotland, examining how and why it changed over the last 300 years. It walks us through the day-to-day existence of Scottish women and in doing so covers areas such as family and household, education, work and politics, religion and sexuality, crime and punishment. While sensitive to the differences among women, regarding colour, class and sexuality, the book seeks to establish a close and reciprocal relationship between women's history and gender history; the first delineating the struggles of women for parity with men in economic, legal and political spheres; the second, as means of unravelling the continuing ways in which power is unequally distributed within the home, the workplace and in institutions, and in contesting the male-centred narratives of the past.

women in history today: Women's Activism in Twentieth-Century Britain Paula Bartley, 2022-04-01 This book serves as an introduction to the extraordinary diversity of women's activism. Paula Bartley's original research is supported by a range of writing to provide a powerful impression of the actions taken by groups of women from across the social and political spectrum, making the book invaluable to both students and interested readers. These women set out to make a difference to their locality, their country and sometimes the world. The story of women's activism embodies stimulating accounts of progress and reversals, of commitment and uncertainty, of competing rights and challenging wrongs. The story of women's activism is not tidy or well-ordered. It is messy and unorthodox. And full of surprises.

women in history today: U.S. Women's History Leslie Brown, Jacqueline Castledine, Anne Valk, 2017-01-25 In the 1970s, feminist slogans proclaimed "Sisterhood is powerful," and women's historians searched through the historical archives to recover stories of solidarity and sisterhood.

However, as feminist scholars have started taking a more intersectional approach—acknowledging that no woman is simply defined by her gender and that affiliations like race, class, and sexual identity are often equally powerful—women’s historians have begun to offer more varied and nuanced narratives. The ten original essays in U.S. Women's History represent a cross-section of current research in the field. Including work from both emerging and established scholars, this collection employs innovative approaches to study both the causes that have united American women and the conflicts that have divided them. Some essays uncover little-known aspects of women’s history, while others offer a fresh take on familiar events and figures, from Rosa Parks to Take Back the Night marches. Spanning the antebellum era to the present day, these essays vividly convey the long histories and ongoing relevance of topics ranging from women’s immigration to incarceration, from acts of cross-dressing to the activism of feminist mothers. This volume thus not only untangles the threads of the sisterhood mythos, it weaves them into a multi-textured and multi-hued tapestry that reflects the breadth and diversity of U.S. women’s history.
