women in business club: Beauty Shop Politics Tiffany M. Gill, 2010-01-29 Looking through the lens of black business history, Beauty Shop Politics shows how black beauticians in the Jim Crow era parlayed their economic independence and access to a public community space into platforms for activism. Tiffany M. Gill argues that the beauty industry played a crucial role in the creation of the modern black female identity and that the seemingly frivolous space of a beauty salon actually has stimulated social, political, and economic change. From the founding of the National Negro Business

League in 1900 and onward, African Americans have embraced the entrepreneurial spirit by starting their own businesses, but black women's forays into the business world were overshadowed by those of black men. With a broad scope that encompasses the role of gossip in salons, ethnic beauty products, and the social meanings of African American hair textures, Gill shows how African American beauty entrepreneurs built and sustained a vibrant culture of activism in beauty salons and schools. Enhanced by lucid portrayals of black beauticians and drawing on archival research and oral histories, *Beauty Shop Politics* conveys the everyday operations and rich culture of black beauty salons as well as their role in building community.

women in business club: The Business of Women Melanie Buddle, 2011-01-01 In the past, Western women inhabited a conceptual space divorced from the world of business. Historians have consequently tended to overlook the experiences of women entrepreneurs. Who were these women, and how were they able to justify their work outside the home? The Business of Women explores the world of women entrepreneurs in early twentieth-century British Columbia. Contrary to expectation, the typical businesswoman was not unmarried or particularly rebellious, but a woman who reconciled entrepreneurship with her femininity and her identity as a wife, mother, or widow. The entrepreneurial woman was the product of a frontier ethos in British Columbia that translated into higher rates of marriage for women and more married women working outside the home than in any other province in Canada. Like men, they worked to support their families.

women in business club: Socioeconomic Empowerment of Women in Sudan Learning Experiences Nagwa Babiker Abdalla Yousif, 2019-09-29 The SWGU believes that comprehensive development and planning processes can only be realised through the promotion of women's empowerment. To achieve this goal, the SWGU established a coordination mechanism with one of the biggest Sudanese federal ministries, the Ministry for Social Planning (MSP) and, in particular, the National Council for Social Planning (NCSP), at both national and state levels. Through fundamental empowerment activities women not only participated but also lead those institutions functionally related to the National Economic Planning Council (NEPC). Accordingly, all work was harmonised to pursue the set of goals stated in the Comprehensive Poverty Reduction Strategy (CPRS). Since women's concerns are varied, numerous, and interdisciplinary in nature, the SWGU officially directed its efforts towards the promotion of women's causes while unofficially targeting the whole spectrum of governmental institutions and non-governmental organisations (NGOs), rather than limiting its efforts by trying to establish a ministry for women's affairs.

Drawing

on eyewitness accounts of meetings and protests, as well as first-person interviews with leading female activists, Katalin Fábián examines the interactions between women's groups in Hungary and studies the unique brand of democracy they have forged in postcommunist Eastern Europe. Through her analysis, she demonstrates how democratization and globalization—with their attendant range of challenges and opportunities—have led women to redefine public-private divides.

women in business club: *History of Woman Suffrage (Vol. 1-6)* Various, 2021-08-21 History of Woman Suffrage reflects the history of voting in the United States from its beginnings to the ratification of the Nineteenth Amendment. It is a comprehensive review of the most important historical events on more than 5000 pages. For decades this book has remained a significant source of primary information on suffrage movements in the United States and is a valuable source of information today. Although the work was written by leaders and members of the National Woman Suffrage Association (NWSA), it doesn't cover the deeds of the other women suffrage organizations. Yet, even today, the History of Woman Suffrage remains the richest repository of published, accessible documentary evidence of nineteenth-century suffrage movements, as researchers state.
