woman in italian language: Women in the History of Linguistics Wendy Ayres-Bennett, Helena Sanson, 2020-12-31 Women in the History of Linguistics is a ground-breaking investigation into women's contribution to the description, analysis, and codification of languages across a wide range of different linguistic and cultural traditions. Notably, the volume looks beyond Europe to Africa, Australia, Asia, and North America, offering a systematic and comparative approach to a subject that has not yet received the scholarly attention it deserves. In view of women's often limited educational opportunities in the past, their impact is examined not only within traditional and institutional contexts, but also in more domestic and less public realms. The chapters explore a variety of spheres of activity, including the production of grammars, dictionaries, philological studies, critical editions, and notes and reflections on the nature of language and writing systems, as well as women's contribution to the documentation and maintenance of indigenous languages, language teaching and acquisition methods, language debates, and language use and policy. Attitudes towards women's language-both positive and negative-that regularly shape linguistic description and analysis are explored, alongside metalinguistic texts specifically addressed to them as readers. Women in the History of Linguistics is intended for all scholars and students interested in the history of linguistics, women's studies, social and cultural history, and the intersection between language and gender

woman in italian language: *Countercurrents* Amanda Ricci, 2023-06-15 In the decades following the Second World War, women from all walks of life became increasingly frustrated by the world around them. Drawing on long-standing political traditions, these women bound together to revolutionize social norms and contest gender inequality. In Montreal, women activists inspired by Red Power, Black Power, and Quebec liberation, among other social movements, mounted a multifront campaign against social injustice. *Countercurrents* looks beyond the defining waves metaphor to write a new history of feminism that incorporates parallel social movements into the overarching narrative of the women's movement. Case studies compare and reflect on the histories of the Quebec Native Women's Association, the Congress of Black Women, the Front de libération des femmes du Québec, various Haitian women's organizations, and the Collectif des femmes immigrantes du Québec and the political work they did. Bringing to light previously overlooked archival and oral sources, Amanda Ricci introduces a new cast of characters to the history of feminism in Quebec. The book presents a unique portrait of the resurgence of feminist activism, demonstrating its deep roots in Indigenous and Black communities, its transnational scope, and its wide-ranging inspirations and preoccupations. Advancing cross-cultural perspectives on women's movements, *Countercurrents* looks to the history of women's activism in Montreal and finds new ways of defining feminist priorities and imagining feminist futures.

woman in italian language: Women, Antifascism and Mussolini's Italy Isabelle Richet, 2018-09-30 Marion Cave Rosselli is remembered as the 'perfect companion' of the Italian Antifascist leader Carlo Rosselli, assassinated in Paris in June 1937. But little is known about the young English student fired with revolutionary enthusiasm who moved to Florence in 1919, witnessed the violent march of fascism to power and thereafter became a resolute adversary of the Mussolini dictatorship. Based on a wealth of little-used private and public archives, this biography retraces her journey from a modest home on the outskirts of London to the first underground Antifascist opposition in Italy, from the prison island of Lipari to exile in Paris and the United States. It reveals the social, cultural and existential factors which underpinned her unflinching political engagement alongside her husband. It also highlights the many challenges faced by Antifascist women within a highly patriarchal movement by bringing to life the figure of a woman who challenged the traditional division of labour within the family and struggled to carve a political role for herself. Reconstructing Marion Cave Rosselli's experience in relation to the multiple political, social and cultural worlds she moved in, this book broadens our understanding of the Antifascist movement and offers a richly detailed portrait of a time full of hopes, anxieties and disappointments.

woman in italian language: Women on the Right Clarisse Berthezène, Laura Lee Downs, Julie V. Gottlieb, 2025-01-09 *Women on the Right* explores the complex relationships between conservative and right-wing politics, social action, and women actors from the late 19th to the late 20th century. Edited by Clarisse Berthezène, Laura Lee Downs, and Julie V. Gottlieb, each essay examines the spectrum of women's engagement with right-wing politics, from centrist and 'progressive conservatism' groups, to authoritarianism and fascism. This book uses local and national case studies to explore a wide range of women's social and political mobilizations. Using a bottom-up perspective, it stays focused on the ideas, ambitions, and practices of the actors themselves. Key points of comparison include: the very different roles played by religious institutions and associations, the broader regional and national contexts, and the dynamics that favour - or not - the eventual construction of welfare states. *Women on the Right* consistently adopts a multinational and multidimensional approach, by bringing together a team of expert contributors to engage in a discussion of the comparative and transnational features of right-wing women's political thought and practice. The result is a unique contribution to the historical understanding of women's participation in - and ideas about - conservative activism.

woman in italian language: Exploring Gender and Sikh Traditions Doris R. Jakobsh, 2021-09-01 This volume gathers scholars who focus on gender through a variety of disciplines and approaches to Sikh Studies. The intersections of religion and gender are here explored, based on an understanding that both are socially constructed. Far from being static, as so often presented in world religions textbooks, religious traditions are constantly in flux, responding to historical, cultural and social contexts. So too is 'the' Sikh tradition in terms of practices, ideologies, rituals, and notions of identity. We here conclude that 'a' Sikh tradition does not exist; instead, there are numerous forms thereof. In this volume, Sikhism is presented as a collection of 'Sikh traditions'. Gender studies—in line with women's liberation, masculine and feminist studies have long examined and have long deconstructed the patriarchy, but also move to identify other subordinate-dominant relations between individuals. Indeed, there are numerous forms of discrimination and power structures that simultaneously create a multiplicity of oppression. Intersectionality has become the basis of an increasingly systematized production of contemporary discourses on feminism and gender analysis, as is evidenced by the varied contributions in this volume.

It reveals how Sardinian songs become a site of transduction where, through the process of songwriting, recording, and performance, the energy from one genre of music and lingua-culture is harnessed to signal another one much closer to home. *Sing Me Back Home* is accompanied by original songs written and recorded in the field, with links to songs in each chapter. It includes songwriting prompts and lyrics, a glossary of key terms, and photographs from the field. Drawing on work from critical collaborative research, auto-ethnography, public anthropology, arts-based research, and ethnographic poetry, this sensory ethnography offers new ways for us to hear culture through stories and songs.
