women in history trivia: *Legends, Monsters, or Serial Murderers?* Dirk C. Gibson, 2012-02-14 Covering figures ranging from Catherine Monvoisin to Vlad the Impaler, and describing murders

committed in ancient aristocracies to those attributed to vampires, witches, and werewolves, this book documents the historic reality of serial murder. The majority of serial murder studies support the consensus that serial murder is essentially an American crime—a flawed assumption, as the United States has existed for less than 250 years. What is far more likely is that the perverse urge to repeatedly and intentionally kill has existed throughout human history, and that a substantial percentage of serial murders throughout ancient times, the middle ages, and the pre-modern era were attributed to imaginative surrogate explanations: dragons, demons, vampires, werewolves, and witches. *Legends, Monsters, or Serial Murderers? The Real Story Behind an Ancient Crime* dispels the interrelated misconceptions that serial murder is an American crime and a relatively recent phenomenon, making the novel argument that serial murder is a historic reality—an unrecognized fact in ancient times. Noted serial murderers such as the Roman Locuta (The Poisoner); Gilles De Rais of France, a prolific serial killer of children; Andres Bichel of Bavaria; and Chinese aristocratic serial killer T'zu-Hsi are spotlighted. This book provides a unique perspective that integrates supernatural interpretations of serial killing with the history of true crime, reanimating mythic entities of horror stories and presenting them as real criminals.

women in history trivia: *The Woman Who Wrote "King Lear," and Other Stories* Louis Phillips, 2018-02-21 Fiction. This wildly imaginative collection of fourteen short stories won't move you to tears, but will very likely move you to laughter. Phillips writes about a committee of grief, about termites in Africa, about Lee Harvey Oswald's can opener. He tells of how an angry consumer shows his disdain for the telephone company by sending out false bills which, ultimately, leads to the withdrawal of the state of Iowa from the union. In one crazy piece, Phillips describes the chaos that occurs when a cat finds Thomas Hardy's heart, and, well, devours it, disrupting plans to put the heart on display. And he writes that amazing title story: Yes, it's true. *King Lear* was penned by Radcliffe Graduate Muriel B. Hopkins, not by the esteemed William Shakespeare. What is the theme connecting these stories? Madness, perhaps, but not only the madness of single characters - these stories are also about the madness of crowds. Read these stories, but be prepared to confront new realities, some of which you may never entirely escape.
