women s leadership events: Women, Leadership, and Mosques Masooda Bano, Hilary E.

Kalmbach, 2011-11-25 The acceptance of female leadership in mosques and madrassas is a significant change from much historical practice, signalling the mainstream acceptance of some form of female Islamic authority in many places. This volume investigates the diverse range of female religious leadership present in contemporary Muslim communities in South, East and Central Asia, the Middle East, Africa, Europe, and North America, with chapters discussing its emergence, the limitations placed upon it, and its wider impact, as well as the physical and virtual spaces used by women to establish and consolidate their authority. It will be invaluable as a reference text, as it is the first to bring together analysis of female Islamic leadership in geographically and ideologically-diverse Muslim communities worldwide.

women s leadership events: *Cooperation among community leaders: The role of women's leadership and exposure to conflict* Nigus, Halefom Yigzaw , Abay, Kibrom A., 2024-10-02 In rural settings, community leaders play important roles in mobilizing resources and delivering public goods and services. However, little is known about their attributes and incentives in delivering these public goods and services. Exploiting survey, lab-in-the-field experiment, and geo-referenced data, we study the role of leaders, especially women's leadership, and their exposure to conflict in explaining differences in cooperation among community leaders in Ethiopia. We measure cooperation through a public-good experiment and examine the implications of community leaders' characteristics. We then merge these lab-in-the-field experimental data with geo-referenced data on conflict exposure to examine the implication of different types of conflict on community leaders' cooperation behavior. We find that female leaders contribute more to public goods than their male counterparts. For example, compared to those assuming the highest official administrative responsibility in the village, women leaders contribute about 11 percent more to the public good. We also document nuanced findings that reconcile existing mixed evidence on the implication of exposure to conflict on cooperation: while conflict events that affect the whole community, such as political violence (including battles) are associated with higher cooperation, other types of conflict (e.g., demonstrations and riots) are associated with lower levels of cooperation. Finally, we identify additional predictors of cooperation among community leaders, including beliefs about other leaders' cooperative behavior. These findings shed light on potential avenues for facilitating and fostering cooperation among community leaders.

women s leadership events: *Women Leaders at Work* Elizabeth Ghaffari, 2012-01-15 Women Leaders at Work traces the personal life decisions taken by women who found ways to achieve greatness in their work. Each story is intriguing. But, collectively, the stories provide inspiration. They illustrate how real women of varied talents from varied backgrounds traversed quite different paths, seized opportunities presented in many guises, and found ways to achieve and to contribute to society. Elizabeth Ghaffari relates these stories with an unerring instinct to reveal the fascinating, personal dimensions of real women. Anita K. Jones, University Professor Emerita, University of Virginia Women Leaders at Work shines a light on women. Today's leaders who are women, who are changing our world, even as examples, inspire young women who are our leaders of the future. Great book! Frances Hesselbein, President & CEO, Leader to Leader Institute, New York, NY The stories of each of these amazing women read like novels -- humble beginnings, triumphs, failures, incredible determination and resourcefulness, overcoming the familiar obstacles facing women in the workplace. But these stories are true, and they inspire us. There are many more stories out there, but thanks to Elizabeth Ghaffari, we are privileged to share these few. Groundbreaking women, groundbreaking book. Judith M. Runstad, Attorney, FOSTER PEPPER PLLC, Seattle, WA I have read many books on leadership and women leaders, and Elizabeth Ghaffari's book rises to the top for me. These women achieved positions

of influence and power, but their routes to success were never straight-lined. They endured digressions and embraced change. They navigated the intricacies of corporations, academia, non-profits, and the fields of science and technology. They speak with their own voices about their lives and motivation and tell their stories with modesty and encouragement to other women who may want to lead and serve. Mary S. Metz, Ph.D., President Emerita, Mills College Women Leaders at Work is filled from cover-to-cover with stories about the lives of extraordinary women who are in leadership today. Elizabeth Ghaffari uses her exceptional interviewing talents to ask the right questions to elicit memorable lessons that are inspiring, uplifting and educational. Each of the eighteen chapters focuses on the life and career path of a fascinating, accomplished woman. Ghaffari illustrates that breakthrough success can occur in a myriad of fields from medicine, law, academia, government, public corporations, science and philanthropy. It is not necessary to stay on a narrow hierarchical career path. In fact, none of these champions followed career paths that were straight-line trajectories. 'We often have to be re-potted to grow' and 'Don't leave the power of a corporation just because you want to change the world. Harness it,' are two of the many memorable lessons. Women Leaders at Work is filled with important wisdom and advice for past, present and future leaders. I highly recommend this book for men and women of all ages and interests! women s leadership events: *Women's Leadership in Music* Iva Nenic, Linda Cimardi, 2023-03-03 Various modes of women's contemporary cultural, social and political leadership can be found in music. Informed by different histories and culturally bound social mores but also by a comparative perspective, the contributors of this volume ask what can be considered leadership in culture from women's point of view. They deconstruct the notion of leadership as corporative and career-related modes of success by showing how women's agency, power and negotiation in and through music can and should be considered as empowering, transformative and role-modeling. By interweaving several disciplinary perspectives – from ethnomusicology, musicology and cultural management to sociology and anthropology – this volume aims to substantially contribute to the study of women's leadership.

women s leadership events: *Women's Colleges and Universities in a Global Context* Kristen A. Renn, 2014-10-13 A pathbreaking study of the critical role women's institutions play in global higher education. Educating girls and women is a powerful route to improving societies worldwide. When women receive more education, literacy rates in children rise, maternal and infant death rates drop, and women enjoy an increased earning capacity. Yet in parts of the developing world, women's education is considered a low priority at best and a dangerous countercultural activity at worst. In Europe and North America, the number of women's colleges is shrinking—yet women-only institutions are growing in size and number in many other regions of the world, where they provide access to female students who are prevented for legal, cultural, religious, or practical reasons from attending coeducational universities. *Women's Colleges and Universities in a Global Context* is the first book to provide a comprehensive comparative analysis of the increasing significance of single-sex higher education institutions for women around the world. Based on Kristen A. Renn's on-site study of thirteen women's colleges and universities in ten different countries—Australia, Canada, China, India, Italy, Japan, Kenya, South Korea, the United Arab Emirates, and the United Kingdom—this timely and provocative volume combines interviews of campus leaders, faculty, and students with extensive online and archival research. Renn provides an overview of each country's political, economic, and educational situation, then explores the theoretical and practical themes she uncovers in their educational institutions for women. In the end, this volume addresses not only the role of women's colleges in their own countries but also what these institutions can teach us that

would benefit higher education worldwide.

Overall, education is a field still dominated by women, yet women do not typically pursue or attain leadership positions at the administrative level. Research has revealed some of the reasons for this: women still experience gender discrimination in education careers, experience higher attrition rates, and have slower career mobility than do men. Additionally, women in education are apparently less valued, and their performance is more critically evaluated, as in other fields. This insightful text shows the gender-based inequities and discrimination women face when aiming for leadership positions in education, and lays out a plan to bring success to this level of the field that is still male-dominated. *Women as Leaders in Education: Succeeding Despite Inequity, Discrimination, and Other Challenges* is the result of a team of leading feminist educators and scholars. Women face distinct and unique challenges in pursuing a leadership pathway in schools; unfortunately, most of the obstacles facing women are hidden and only become visible when encountered on the journey to leadership. This book uncovers these invisible obstacles and shares the personal journeys of real women who have overcome them. Chapters feature powerful stories woven together to provide takeaway strategies and address common themes for women in leadership, including unconscious bias and daily microaggressions; physical, linguistic, and cultural expectations of leaders; perception (or reality) of lack of opportunities for women; impostor syndrome and double standards; and availability of mentorship and guidance. This impactful book provides actionable steps for both aspiring leaders and established leaders ready to support growing leaders in their school communities.
