words of advice for newlyweds speech: *Montserrat in England* Sharmen Greenaway, 2011-11-08 As the volcano erupted on the island of Montserrat, it destroyed everything in its path. The Montserrat folk fled from the hot ash and exploding mountains, many as far as other countries, most notably England. Author Sharmen D. Greenaway, a native of the island, was one of many who sought refuge in England; however, most of the islands inhabitants were not prepared for life in this new place. The winters were harsh, and the disaster had stripped them of their financial and emotional security. They were not considered refugees, and they didn't qualify for the same type of jobs and statuses they previously held. Many faced a tough choice: remain in modern England or return to their devastated island home to face the furious volcano and serious economic deprivation. Another challenge they faced and still face today is that of preserving the Montserrat culture, something seemingly insignificant in multicultural England. Preserving the islands language and customs seems an insurmountable task. What will become of the islands national dish, its folk music, and dancing? Join Greenaway as she explores her own challenges and those of fellow Montserratians in Montserrat in England.

words of advice for newlyweds speech: *Shifting Languages* James Joseph Errington, 1998-12-10 Indonesian is the national language of a vast, plural nation state, the world's fourth-largest country with a population of over 200 million. Although its use is growing rapidly, and is now spoken by nearly everyone over the age of six, it has almost relatively few native speakers. This remarkable growth, unprecedented in the development world, is largely due to the forceful presence of state institutions that use, promote, and disseminate a language first introduced by the Dutch colonial administration. Joseph Errington's third book on language in Indonesia is a detailed analysis of 'shifting languages' in two small Javanese communities. A key figure in this area of research, he examines changing conversation practices in relation to questions of ethnicity, nationalism, and political culture. Errington concludes that the Javanese story has theoretical implications beyond the two villages to other parts of Indonesia, South East Asia, and to the developing world in general.

words of advice for newlyweds speech: *Bending Spines* Randall L. Bytwerk, 2012-01-01 Why do totalitarian propaganda such as those created in Nazi Germany and the former German Democratic Republic initially succeed, and why do they ultimately fail? Outside observers often make two serious mistakes when they interpret the propaganda of this time. First, they assume the propaganda worked largely because they were supported by a police state, that people cheered Hitler and Honecker because they feared the consequences of not doing so. Second, they assume that propaganda really succeeded in persuading most of the citizenry that the Nuremberg rallies were a reflection of how most Germans thought, or that most East Germans were convinced Marxist-Leninists. Subsequently, World War II Allies feared that rooting out Nazism would be a very difficult task. No leading scholar or politician in the West expected East Germany to collapse nearly as rapidly as it did. Effective propaganda depends on a full range of persuasive methods, from the gentlest suggestion to overt violence, which the dictatorships of the twentieth century understood well. In many ways, modern totalitarian movements present worldviews that are religious in nature.

Nazism and Marxism-Leninism presented themselves as explanations for all of life—culture, morality, science, history, and recreation. They provided people with reasons for accepting the status quo. *Bending Spines* examines the full range of persuasive techniques used by Nazi Germany and the German Democratic Republic, and concludes that both systems failed in part because they expected more of their propaganda than it was able to deliver.
